OBJECT OF THE MERCURY SERIES

The Mercury Series is designed to permit the rapid dissemination of information pertaining to the disciplines in which the Canadian Museum of Civilization is active. Considered an important reference by the scientific community, the Mercury Series comprises 400 specialized publications on Canada's history and prehistory.

Because of its specialized audience, the series consists largely of monographs published in the language of the author.

In the interest of making information available quickly, normal production procedures have been abbreviated. As a result, grammatical and typographical errors may occur. Your indulgence is requested.

HOW TO OBTAIN MERCURY SERIES TITLES

Telephone: 1-819-776-8387 or, toll-free in
North America only, 1-800-555-5621

BUT DE LA COLLECTION MERCURE

La collection Mercure vise à diffuser rapidement le résultat de travaux dans les disciplines qui relèvent des sphères d'activités du Musée canadien des civilisations. Considérée comme un apport important dans la communauté scientifique, la collection Mercure présente 400 publications spécialisées portant sur l'héritage canadien préhistorique et historique.

Comme la collection s'adresse à un public spécialisé, celle-ci est constituée essentiellement de monographies publiées dans la langue des auteurs.

Pour assurer la prompte distribution des exemplaires imprimés, les étapes de l'édition ont été abrégées. En conséquence, certaines coquilles ou fautes de grammaire peuvent subsister : c'est pourquoi nous réclapons votre indulgence.

*To the people of Clifton,
past, present and future*

ABSTRACT

Through diaries, Agricultural Society minutes and other records, this book offers a fascinating look at farming life in nineteenth-century New Brunswick. Focussing on the Wetmore family of Clifton Royal, author Judith Baxter has based the book around a series of family manuscripts housed in the John Fisher Memorial Museum. Through journal entries dating from 1870 through 1891, the book paints a delightful picture of daily life in rural New Brunswick, covering everything from seasonal plantings to militia service in careful detail. For genealogists, minute books and shop records dating from 1864 list local inhabitants and clients of the family's fruit farms and general store — including, perhaps, a long-lost relative who may not have paid the bill! Lavishly illustrated with period photographs and artifacts from local collections, the book not only brings an important local family back to life, but also recalls a gentler time when Canada was still young. Musings about the meaning of community and personal history, as well as information on such local institutions as Clifton's All Saints Church and the Midian Masonic Lodge, provide additional insight on life in smalltown Canada. A must for anyone with an interest in Victorian New Brunswick, and a boon to anyone researching this part of the province.

RÉSUMÉ ANALYTIQUE

Conçu à partir de journaux, de procès verbaux de la société agricole du Nouveau-Brunswick et d'autres dossiers, ce livre offre un témoignage fascinant sur la vie à la ferme du XIX^e siècle au Nouveau-Brunswick. Dans cet ouvrage, l'auteure Judith Baxter, s'est inspirée de la famille Wetmore de Clifton Royal. L'auteure a rédigé son livre principalement à partir de manuscrits de la famille lesquels sont exposés au John Fisher Memorial Museum. À partir d'écritures de journal, datant de 1870 à 1891, elle brosse un magnifique portrait de la vie quotidienne d'antan dans les régions rurales du Nouveau-Brunswick. Avec le souci du détail, l'auteure raconte tout de cette période— des plantations saisonnières au service de la milice. Pour les généalogistes, les registres des procès-verbaux et les dossiers du magasin, qui datent de 1864, répertorient la liste des habitants locaux ainsi que des clients des exploitations de culture fruitière de la famille et du magasin général, y compris, peut-être, un parent perdu de vue depuis longtemps qui n'aurait jamais réglé sa facture! L'ouvrage est illustré par des photographies d'époque somptueuses et des artefacts provenant de collections locales. Le livre ne fait pas uniquement renaître de ses cendres une famille locale importante, mais il évoque également une époque plus clémente, au moment où le Canada était encore jeune. De plus, l'auteure se livre à des réflexions au sujet de la signification de l'histoire communautaire et personnelle, et elle nous donne de l'information quant aux institutions locales, telles que le Clifton's All Saints Church et le Midian Masonic Lodge. Ces renseignements supplémentaires nous apportent un aperçu sur la vie dans les petites villes du Canada. Ce livre est indispensable pour ceux et celles qui s'intéressent au Nouveau-Brunswick de l'époque victorienne et il est une aide précieuse pour ceux et celles qui désirent en connaître davantage sur cette région de la province.

Clifton, Church and Community	393
--	------------

Endnotes	411
----------------	-----

The Walling map was published in 1862, one year before the new hall was built in Clifton. It shows the location of the first community school, the sawmill and the shipyard in the village, the Waddell grist mill and sawmill at Reeds Point, and J. S. Wetmore's boat shop, sawmill and grist mill at Moss Glen, all referred to in these diaries. Clifton is a village that flourished when space and raw materials were plentiful, immigration was vigorous and full of possibilities, and family webs were common, dependable and necessary. A village whose popularity crested in the early days of manufacturing, when traditional means of livelihood, farming and transportation changed forever. A time and place when managing space and time were not significant, when everything was possible and fortunes feasible. The world changed, Clifton settled into a senior community, then into a bedroom community of Saint John, which inches nearer every year. Change is again coming to Clifton.

PREFACE

The search for who we are often becomes a search for where we've come from. And often it is only the memory of that place that survives. In our search, we sometimes discover sleepy communities where little seems to have happened. Where there is no evidence of a store, post office or school, not even a signpost to identify it — just a cluster of houses along a road. Yet there was a time when many of these places were inhabited by active, interesting and adventurous folk who prided themselves on their industrious communities. A past that begs the question, why, where and when did it change?

The village of Clifton Royal, Kings County, New Brunswick, is one such place. By the middle of the nineteenth century, it was a thriving rural Victorian community carved out of the wilderness that had met the United Empire Loyalists in 1783. Settled and built by individuals of vision, steel men of the wooden ships who rebuilt their lives from the raw materials at hand. With the decline of wooden sailing ships, industry, which had complemented shipbuilding, moved closer to the city, and the new railways enticed younger generations west, away from the farms. Change came to places like Clifton.

In today's jargon, Clifton Royal is an address created by the postal service. Since there were two villages called Clifton in the province of New Brunswick, and mail was ending up in the wrong one, the postal authorities, in their wisdom, decreed that the name of one village be changed. Clifton, Kingston Peninsula, Kings County thus became Clifton Royal. As there was a Crown postal stamp at the time, the village assumed the "Royal" from the Royal Canadian Mail, rather than by decree (however regal the locals felt their lineage to be!).

The introduction of the 911 emergency service complicated matters even more. Postal authorities decided to distinguish each established community by means of a postal code. And to add insult to injury, at the same time they amalgamated communities. In one fell swoop, therefore, they erased once delightful villages off the map. There are now only four community names on the Kingston Peninsula. The once proud, individual communities of Reeds Point, Moss Glen, Glen Farland, White Head and Centreton (Cronks Corner) have all been designated Clifton Royal.

Clifton is rural in nature, mostly houses strung out along a road dipping in and out of glens with lovely scenic views. It does not have a school, or a store, or a Masonic lodge, or even a post office. In fact, there isn't a post office on the Kingston Peninsula! Yet bureaucrats were the ones who decided that delightful community

names such as Shampers Bluff, Misery Mountain and Milkish should come off our envelopes. That just won't do! Saving the memory of these villages will be a challenge. It will be up to those who live along the road. Publishing the journals of another time helps remind people of their heritage and sense of pride in their communities ... because change comes quickly.

The collection of the John Fisher Memorial Museum includes several diaries, essays and minute books (1864 to 1910) related to life in the village of Clifton. Together they paint a portrait of a village, time and space, in New Brunswick. The books and essays are interchangeable; they contain similar personal relationships, weather and social activities. They identify a time when the privy was a necessity, a chore to be done and a product to be recycled. Mixing pure chemicals to grow more produce per acre was a science in its infancy and, sadly, one job done with gusto — and perhaps deadly consequences. Self and image were not things one exposed easily, even in a personal journal, and the birth of an animal that added to the family fortunes was recorded with the same reverence as that of a child.

Diaries reveal the ordinary, preserve the humanity and display the follies of the time. Reading them in the twenty-first century helps us realize that life is life, regardless of the time frame. And the search for our past becomes less blurry when these journals are discovered in dusty attics and boxes where those with foresight have tucked them away. Others have not thrown away the treasures but entrusted their guardianship to museums or libraries for posterity.

People have always sought to live in a village community where there is kinship among neighbours. This is as true today as in the past, when it was vital for survival, and change came slowly. The village today, whether rural or urban, is constantly faced with change. Preserving and enhancing the best of the past will provide a solid foundation for that change while maintaining the integrity of the place. Built heritage, and the bits and pieces found in attics, barns and museums are always strong indicators of style, history and culture.

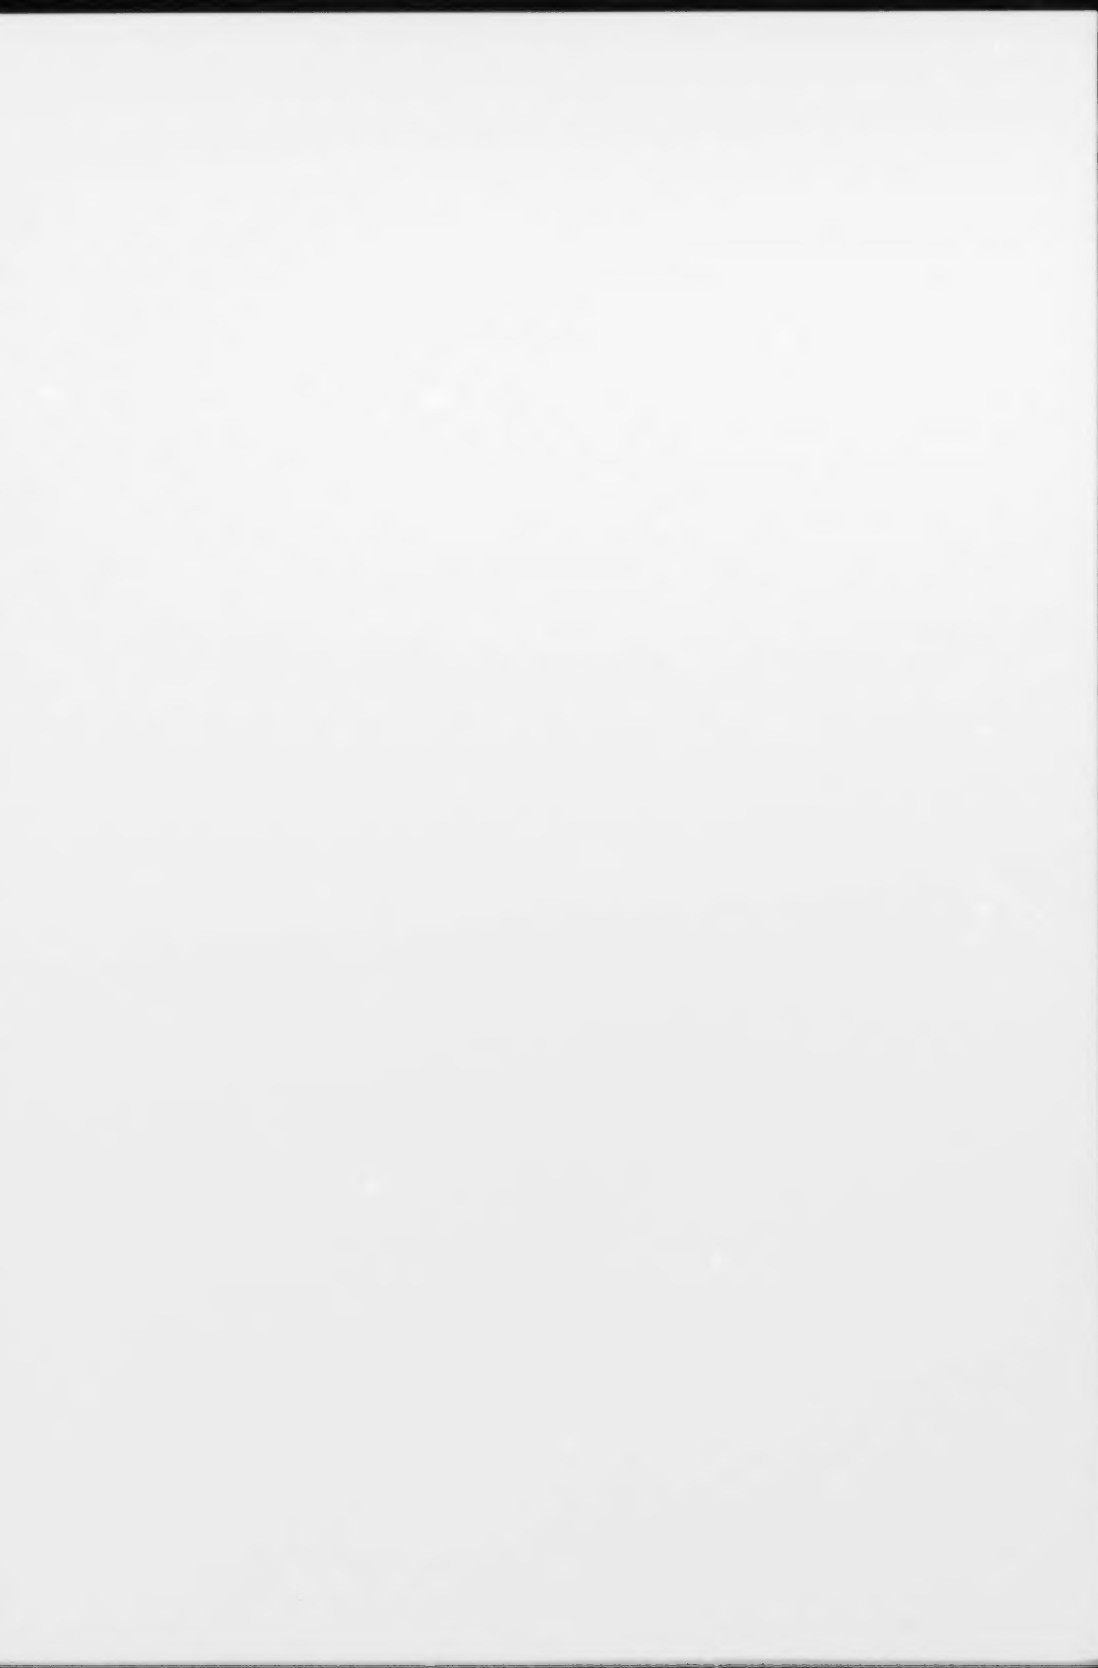

On the Kingston Peninsula, people have a clearly identified past, are proud of their heritage as United Empire Loyalists of diverse cultural and ethnic backgrounds. Those who are searching for their roots will find remnants of that past at the John Fisher Memorial Museum, which is located in the historic Macdonald Consolidated School in Kingston, New Brunswick.

ACKNOWLEDGEMENTS

To recognize those who have contributed to this project is a frightening prospect because many have moved on to another level: the journalists who gave us their selfless days, the essayists who left us snapshots of the social fabric of their time, and the "chatelaines" who treasured those writings and photographs. At the top of the list, there is Sidona Wetmore, who gathered material for her manuscript, a book that did not materialize in her lifetime but to which she dedicated a great deal of time and effort (helped by those who beat out the manuscript on a manual typewriter). Sidona donated her manuscript and photographs to the John Fisher Memorial Museum, and they have been a great resource for this book. Leona Wetmore, a woman who was well respected in the village of Clifton Royal, preserved the photographs and papers of her husband Wilfred's family, and donated many artifacts to the permanent collection of the John Fisher Memorial Museum. Richard W. Wetmore wrote the enlightening essay on the history of Midian Lodge in 1912, on a very dubious typewriter and paper quality, so much so that we are inclined to suggest that he also contributed the essay on Moss Glen and the building of All Saints Church.

In real time, there is Fran Millar, who thinks she does little and contributes so much as volunteer archivist for the John Fisher Memorial Museum, and Mildred and Denny Sheldrick, who contributed photographs and identified many of the properties and owners of that time period. We are also grateful to the members and friends of Peninsula Heritage Inc., who support and promote the sense of place here on the Kingston Peninsula.

Our thanks also go to two Anonymous Referees, to Rob Roy, and to Paula Sousa, who made sure the 'i's' had their dots and the 't's' their cross, while enjoying the Mexican street bands in Paris!

INTRODUCTION

These books have been tucked away in the John Fisher Memorial Museum. They were donated by Leona Wetmore, who acted as the keeper of the story of Clifton for many years. Mrs. Wetmore was a teacher on the Kingston Peninsula most of her adult life. From the one-room school house at White Head, she moved into Macdonald Consolidated School with her students, as change came and the last of the community schools disappeared. Because of her interest in maintaining her husband's family history, we are fortunate to have such a mine of information.

Should the need arise to know the price of kerosene or a good pair of gloves in the late nineteenth century, chances are you'll find it here. Or if you've had a burning desire to know how the earlier farmers improved their soil and animal breeds, or how to shift the product out of an outhouse, now is your chance. And should you be doing your family genealogy, there are lists and dates that just may come in handy.

Journal writing is a great resource for researching language. Who knew there were so many parts of the day? (Would anyone say "twenty to the hour" anymore?) And what a great term for melting of river ice: wasting! There is also a lot of information on weather patterns in the journals. The river did not always remain frozen throughout the winter. Because of global warming? The biggest discovery was to find that the journals weren't full of self, that the Victorian individual did not start every sentence with "I", that people knew who they were and what their worth was.

Clifton is the short stretch of land on the northwest side of the Kennebecasis River, extending from the "Sugar Loaf" to the "mountain" and comprising lots 3 to 9 of the land which, according to provincial records, was conveyed in the Kingston Grant to Wm. Tyng and others. The lots were 60 rods wide along the shore and about two miles back from the river, containing about 200 acres each. From various unsubstantiated accounts, several people appear to have occupied lands in this place before any permanent settlement; however, after the arrival of the Spring Fleet of 1783 things changed.

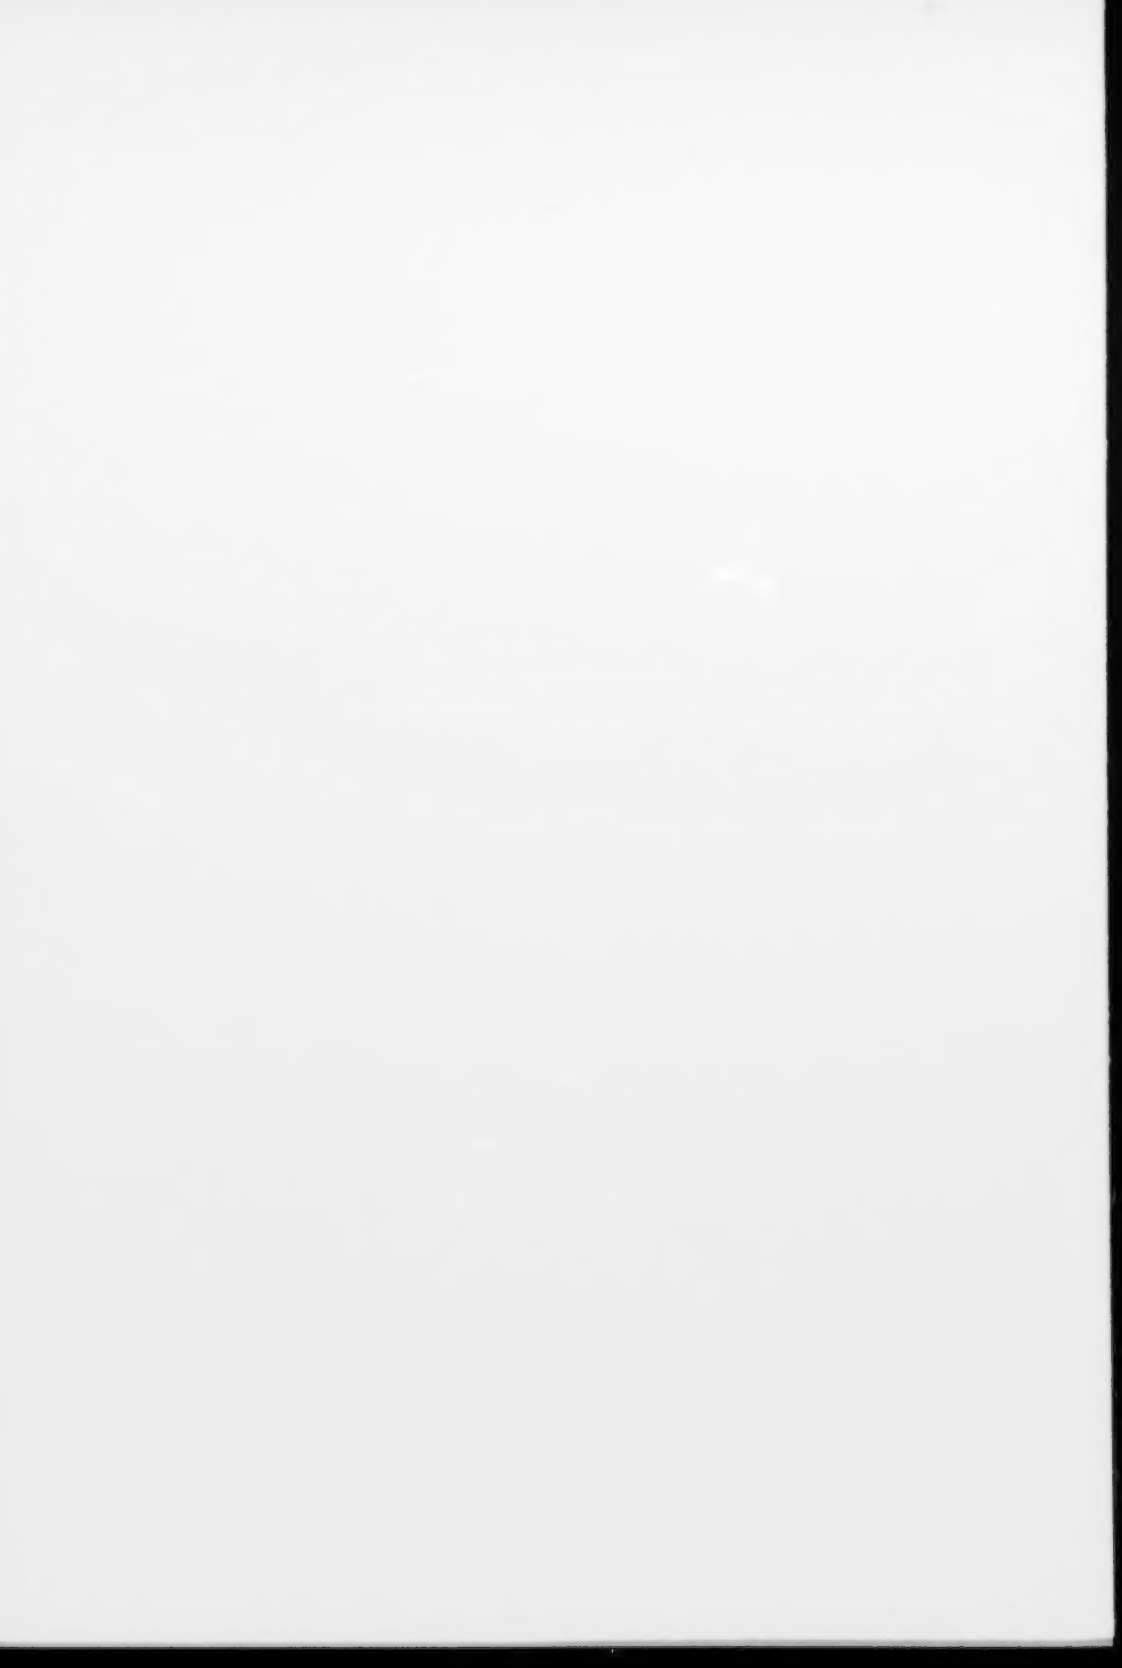

Previous to settling in Lower Norton, William Frost acquired No. 6 of these lots. By deed dated October 22, 1799, he sold it for 12 pounds to Henry Jackson, who in turn sold it, in 1804, to David Brown Wetmore, who lived there with his family until 1820, when he moved to Norton. David's son Justus S. Wetmore then became owner of lots 3, 4 and 5, while lots 6, 7 and 8 were eventually acquired by David Wetmore, James W. Puddington and Joseph Flewelling, respectively.

Two miles down river, at Moss Glen, a sawmill and a grist mill were built by Thomas Pettingell, who for a time owned lot No. 9 in Clifton, which included what became

known as Harrity's Hill and the principal part of the "mountain". The Pettingell Saw Mill, was a simple construction with a single saw, and operated day and night between 1807 and 1808, to meet the need for lumber for the growing community. In 1815, Justus S. Wetmore started building ships. As part of this operation, a sawmill was established by a stream flowing down from what became known as the Clifton "mill pond". The shipbuilding industry and the procurement of timber with which to build gradually drew many people to settle in the vicinity. Waddell's sawmill, grist mill and carding machine were established one mile up river, at Reeds Point,¹ so that settlers could have their grain ground, lumber sawn and wool carded close to home.

At a public meeting in 1852, "on a resolution in a regular vote", carried by a large majority, it was decided to name the village Clifton.² However, boundaries for the village were not particularly specified at that meeting. In fact, they were not decided definitely until the New Brunswick school assessment law of 1872 made it necessary. About the time the village received a name, a post office was also established. Three of the main components were in place for a lively community of the Victorian era: employment, school, and official identity with a name and post office.

The Wetmore Diaries

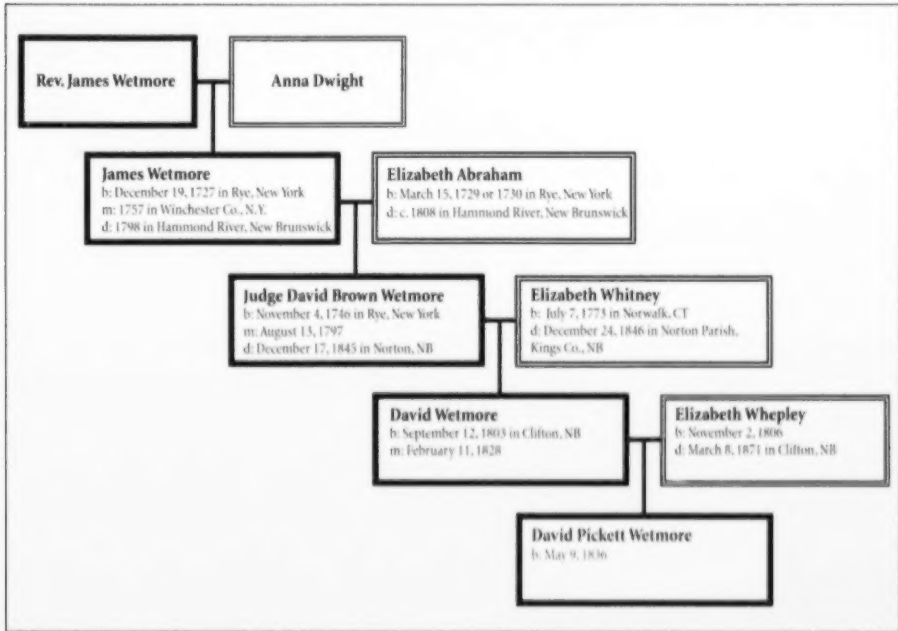

The Diary of David Pickett Wetmore

1870-1880

First generation New Brunswick born. These are (a few of) the grandsons of Loyalist David Brown Wetmore. Left to right: Howard Douglas Wetmore, Ernest P. Flewelling, David P. Wetmore, Ormond Flewelling and Julian B. Wetmore. (Source: John Fisher Memorial Museum, Kingston, N.B.)

Ancestors of David Pickett Wetmore

Family Genealogy

Reverend James Whitmore (1695–1760, son of Izrahiah) and Anna Dwight (1697–1718, daughter of Reverend Josiah) seem to be the main connectors of the Clifton Wetmores. They had six children: James (1727), Alethea (1730), Anne (1732), Charity (1734), Esther (1736) and Timothy (1737). James married Elizabeth Abrahams, a United Empire Loyalist, and they had twelve children, of which, it seems, three sons and one daughter, as well as a daughter-in-law, settled in New Brunswick. Judge David Brown Wetmore, Caleb Wetmore and Esther (Wetmore) Puddington settled in Kings County.

The children of David Brown Wetmore and Eliza (Whelpley) Wetmore include George Canning (1828), Charlotte Annabella (1830), Caroline Elizabeth (1831), Mary Almira (1832), Eliza Jane (1833), Richard Whelpley (1834), **David Pickett (1836)**, William Wallace (1837), Edwin Marshall (1838), Charles Hiram (1839), Agnes Lavinia (1840), **Howard Douglas (1841)**, James Elias (1842), Hannah Olive (1844), Augustus Frederick (1845), Celia Augusta (1846) and Julian Brunswick (1847).

So the Wetmores and the Puddingtons are related, all with large healthy families. Add to that the Flewelling Loyalists, neighbours and relatives back in Connecticut, and it becomes extremely difficult to sort out. Wetmore genealogists are the first to agree!

David Pickett Wetmore married Rebecca Araminta Flewelling at Trinity Church, in Kingston, on September 9, 1862. During the high days of shipbuilding, he acquired the large Georgian-style house in Clifton, which still stands today. It had been built as a boarding house for the shipyard workers. A door separated the main hall on the ground floor from the common room where boarders ate their meals. On the second floor, there was a warren of small bunk rooms and an exit ramp leading onto the back hill for the boarders coming and going. At the time, David and Rebecca operated a store out of their home. They later moved to the James Puddington property, which had a house dating from 1805.

David was an active and energetic man who made many improvements to his land and became a leading scientific farmer. He is credited with the development of the octagonal berry box and the "duck bill" strawberry hoe. He was also an enthusiastic supporter of the Agricultural Society, a leader in the temperance movement, a prominent Freemason, a lieutenant-colonel in the Kings County Militia, an Anglican church warden, and treasurer of the Trinity Church Corporation for many years.

David Pickett Wetmore's diary. (Source: John Fisher Memorial Museum, Kingston, N.B.)

This book has two sections. The first section is the diary of David Pickett Wetmore, which covers the years 1870 to 1879. The second one begins with 1864 but is mainly a day book for the business of Wetmore & Puddington, a rural country store that operated in Clifton for several years. Chronological gaps between entries in the diary are found in the original document which appears in its entirety. David Pickett Wetmore's diary¹ is handwritten, mainly in black ink, and each entry has been either signed or initialled. It begins:

Diary Commencing Nov. 7 1870

Nov. 7 1870 Snowed some today but was quite mild. The fall has been remarkably mild so far, but with very high winds. Finished covering the raspberries today. Have not got strawberries covered yet. Got about two acres plowed and would like to get more if it keeps favourable. Mr. Padgett is doing my plowing and is a very good hand. D.P. W. [David Pickett Wetmore]

Nov. 8 1870 Mild all day today but cloudy. Got out manure on strip above barn & hen coop today. Have just returned from Masonic Lodge. Joseph L. Flewelling was married today to Eliza Flewelling. D.P. W.

Nov. 9 1870 Mild & cloudy all day with wind from south. Got out some more manure, & piece plowed that was manured yesterday. Got all strawberries covered that are in field below hall with buckwheat straw. Have just returned from Templar's' Lodge. Had a very pleasant meeting. D.P. Wetmore

Thursday Nov. 10 1870 A rainy day but cleared off towards night, but is raining again this evening. Got strawberries covered with straw in old garden and opened foot of drain across field below hall. Thanksgiving Day and had no school today. D.P. Wetmore

Friday Nov. 11 1870 Rained all day mixed with snow in the morning, is raining now. D.P. W.

Saturday Nov 12 1870 Misty all day with wind from North West. Got a short drain 2 rods dug across at head of field above coop and filled by Padgett & Crawford. Was over to Nat Gorham's sale & bought a stack of hay on Grassy Island. The men also put some leaves & brush on strawberries.

Sunday Nov. 13 1870 Cloudy in the morning & cleared off towards night, but very mild all day. Is now freezing now. Have just returned from Service at Hall, there were a good many there & Mr. Scovil preached.

Monday Nov. 14 1870 Padgett & Crawford were getting out stone on piece above Hall which I intend to plow this fall for buckwheat. Strawberries not all covered yet.

Tuesday Nov 15 1870 Rainy with wind from North West but cleared off towards night. Did nothing outside today got some wood out in the wood-house.

Thursday Nov 17 1870 A very fine day A little frost last night but thawed out again today. Got more bush on strawberries & got some more stone out for plowing. Was over to Kierstead's last night to a surprise party.

Friday Nov. 18, 1870 A cloudy day with wind from Southward. Padgett was plowing piece above Hall³ but did not get done. Got nearly all berry plants covered with brush today.

Saturday A rainy day with wind from eastward. Was doing odds & ends Padgett helping me. Got some turnips & carrots over from barn.

Sunday A fine day. Froze a little in the night but thawed during the day and is now muddy & like spring weather. Have just come from Service at the Hall. Was not at Kingston today.

Monday Nov 21 1870 A mild day with wind from Southward. Got remainder of strawberries covered and some plowing done on sod land above Hall. Have just got back from a visit to Osborn M. Flewelling's.

Tuesday Nov 22 A fine day but a little cool Froze a little last night and thaw all again today. Got some more plowing done this afternoon but did not get quite done. Commenced to open a short drain above plowed field.

Wednesday Nov 23 1870 A stormy day – wind from South East with rain. Was at Templar's Lodge this evening had a good meeting but it was muddy walking. Flewelling Merritt was there having just returned from England.

Thursday Nov 24 1870 A fine day but getting cool – is freezing hard tonight. Got drain finished at head of field today and commenced to clear out one around old house.

Friday Nov 25 1870 A fine day and quite warm got drain partly filled around house.

Saturday Nov 26 A rainy day and mild. Was at Kingston on Assessing business today and attending Agriculture Society⁴ Meeting.

Sunday Nov 27 A fine day & mild. Did not freeze any last night. Mr. Scovil preached in Hall this evening.

Monday Nov 28 A fine day but a little cooler – got drain finished around old house – it makes a great improvement in the appearance of the place.

Tuesday Nov 29 Fine in the morning but snowed in the afternoon although not very cold – froze pretty hard last night. Padgett commenced to thresh for me this afternoon

Wednesday Nov 30 1870 A fine day – Froze quite hard last night river not frozen yet... About 3 inches of snow fell.

Thursday Dec. 1 1870 A mild day although it froze a little last night skimming the river slightly, but it was all gone again before night.

Friday Dec. 2 1870 A beautiful day. The river skimmed over again last night but thawed again today.

Saturday Dec 3 1870 A fine day but windy and cool. Arranged for Padgett to cut cordwood for me – repaired drain under manure shed & hauled up boat and turned her upside down & covered with brush Appears as if the river would freeze over tonight.

Sunday Dec. 4 1870 A very fine day but looks like snow to night. Service at Hall this evening & collection taken for organ. River froze over last night as far down as ferry.

Thursday Dec. 8 1870 Did not snow any to speak of yet. But is snowing tonight with wind from Northeast. Has not frozen very hard yet. River is not frozen. Padgett finished threshing today

Saturday Dec 17 1870 Was in Saint John today. Drove down in the wagon & crossed the ferry, the river is not frozen yet but looks as if it would freeze tonight. Expect to have a school examination next Friday & was getting some prizes today.

The sail ferry from Reeds Point to Gondola Point, on the Kennebecasis River. (Source: Mr. and Mrs. W. Freeman Sheldrick, Clifton Royal, N.B.)

Wednesday March 1 1871 It snowed some this morning but cleared of the afternoon & we had a pleasant evening. Masonic Lodge^s met in Clifton Hall today. had a public meeting this evening had a pleasant time.

Wednesday March 8 Mrs. David Wetmore died today was confined to her bed only one week. David went to Saint John this afternoon.

Saturday March 11th 1871 Mrs. Wetmore was buried today. There was a very large funeral it was very good waggoning.

May 12 1871 Set 49 apple trees on the 27 & 29 of April. Got them from Nova Scotia and they appear very much dried about the roots doubtful if they will all grow. Have set about 5000 strawberry plants this spring commenced the 29th April & finished today. Wm. Padgett has been at work for me since the 20th of April. W.W. Wetmore has been at work for me since 8th inst. Planted a few peas & potatoes on May 4 above the house. 5th inst. stormy, rain, snow & hail 6th inst. Flewelling & comp. launched their vessel, was in Kingston making up assessment list. Took brush off strawberries on April 28. Have left straw on those that had it on. Commenced to uncover raspberry plants on May 3 & finished May 9. Monday 8th inst. got board fence finished above Hall. Tuesday 9 sowed seed & a lot turnip. 10th planted potatoes over to rows for corn, attended the funeral of Hannah P. Flewelling at Kingston - after coming from the funeral set a lot of plants received from states. 11th sowed a piece of Norway Oats below Hall, commenced plowing piece of buckwheat stubble. 12th continued plowing at piece and got about half done. W.W. Wetmore hoed most of strawberries in garden & planted corn, beans & pumpkins.

Saturday May 13 1871 Warm in the morning and quite cool in the afternoon. Padgett continued plowing at piece of buckwheat stubble & did not get quite done. Will & self hoed part of strawberries at the top of hill and set out about 252 hills of raspberries on a piece near barn above. Spaded up a square rod for onion bed in the evening but did not set out the onions. Went to Kingston in evening & did not get back until 11 o'clock. Planted bush bean between row of raspberries.

Sunday May 14 1871 Showery to day & cold with wind from N.W. Attended Service at Hall this evening.

Monday May 15 1871 A fine day. Padgett finished plowing piece about barns. Got part of rasp. tied up in forenoon and then commenced planting potatoes on piece just plowed. Bought some manure from G Merritt @ 1.00 per load & got 3 loads of it this afternoon.

Wednesday May 17 1871 [sic] Stormy in fore part of day but cleared off towards night. Got some work done at strawberry boxes in morning & then got about 1/2 of raspberries staked and tied up. Took up 200⁺ strawberry plants Scarlet Magnolia & sent to C.W. Fairweather at Rothesay, got remainder of garden spaded up.

Tuesday May 16 1871 [sic] A fine day. Sowed oats on part of newly plowed piece next Hall. Norway Oats on side next Hall & remainder common oats, used sulfur phosphate for manure. Got a few more potatoes planted $\frac{1}{2}$ bush of apples.

Thursday May 18 1871 A fine day. Got some more of rasp. tied up in morning and got manure out & planted all of potatoes except four rows, there are 29 long rows.

Friday May 19 1871 Finished planted potatoes have got in about 1 $\frac{1}{2}$ acres & planted about 8 bushels of seed cut fine there are about near 3 bush of 'early rose', about 2 $\frac{1}{2}$ of 'silver dollar', about $\frac{1}{2}$ bush. of 'garnet chili', $\frac{1}{2}$ bush. of coppers, $\frac{1}{2}$ bush of 'goodrich' & about on bush of 'carters'. Also planted 2 potatoes of an Irish variety, that J.E. Merritt brought from Ireland. Got remainder of rasp. staked & tied as far as strings went, will have to get about 5 lbs more of string. Finished hoeing piece of strawberries at top of Hill. Commenced to put in turnips between oats & potatoes got 6 rows in. Gave Nathaniel Crawford a contract to dig a drain 20 rods long for \$5.00... commenced today. Pulled 24 lbs Rhubarb to take to market tomorrow.

Saturday May 20 1871 Very windy & looked like a storm in the morning but proved fine before night. Was in Saint John, got 5 cents for rhubarb. Will & Padgett finished planting turnips between oats & potatoes cleaned out ditch alongside of road and hoed over half of strawberries above coop.

Sunday May 21 1871 A fine day but windy with wind from southward. Service at Hall this afternoon Peas, turnip & carrots are up nicely. Ground is very dry, needs rain.

Monday May 22 1871 Cloudy all day but did not rain. Got remainder of rasp. tied up. Got rifles cleaned for inspection Will & Padgett remainder of day were getting stone together for drains. Pulled 22 lbs of rhubarb^m to send to market tomorrow.

Tuesday May 23 1871 A stormy day but cleared off towards night. Sold 20 more rhubarb at 5 cents per lb. Got some berry box bottoms cut in forenoon and Will was working at ditches in afternoon Padgett was not at work. Norway oats below Hall well up.

Wednesday May 24 1871 A fine day but windy from Northwest. Was over to Capt. Langstroth's at a shooting match of Kings les Rifle Club. Men working at drains below Hall.

Thursday May 25 1871 A fine day but windy from southwest. No 1 company was inspected today. Cols. Otty & Beer were here to dinner. Shooting match here in afternoon. Padgett was hoeing strawberries sent off 300 strawberry plants.

May 26 [sic] A fine day & warm. Men working at ditches, got long one filled. Norway oats on buckwheat stubble are up. Pulled 20 lbs more of rhubarb.

Saturday May 27 1871 A variable day showery in the morning and fine later part of day. Men still working at ditches, about 5 rods more to dig. Strawberries in blossom in garden.

Digging ditches was an ongoing operation, especially for side-hill farmers. (Source: John Fisher Memorial Museum, Kingston, N.B.)

Sunday May 28 1871 A fine day but looks like a storm now at night. Peas are up nicely and want hoeing. Turnips that were up are being destroyed by the fly. Carrots that were soaked have been up a week others not up yet.

Monday May 29 1871 A fine day. Men working at drains.

Tuesday May 30 1871 Men finished drains today. Mr. Wood examined school today. Had no school in afternoon & visited J.E. Flewelling's school with Mr. Wood. Mr. Scovil was with him at both schools. Warmest day of season very warm.

Wednesday May 31 1871 A fine day. Will went to work for Richard today @ J.S.W. Barn to put sills under it. Padgett was hauling off stone. Received a lot of apple trees from Sharp & Shea from Woodstock (45 trees) Set out above the barn after school. 20 New Brunswick, 4 Fameuse, 4 Alexander & one Duchess of Oldenburg in all 29 trees. Was at W.P.F.'s this evening. W.P.F. Jr was home & is 21 years of age today.

Thursday June 1 1871 A warm day.

Friday June 2 1871 A warm day. Padgett commenced plowing piece for buckwheat got about $\frac{1}{2}$ done strawberries in old garden in full bloom others not so far advanced.

Saturday June 3 1871 A very warm day. Padgett plowed in forenoon but it being too hot he did not plow in afternoon. Got my boat off & sent her over the river to be repaired by Mr. Sharp. Turnips all killed by fly will have to sow over again.

Sunday June 4 1871 A very warm day. A slight shower towards night. Strawberries at top of hill mostly blossomed.

Monday June 5 1871 A fine day with wind from northwest. Padgett finished plowing piece for buckwheat & was hoeing a little besides. Took some patterns up to the blacksmiths to get a cultivator made. Took 150 strawberry plants up to send away in the morning.

Saturday July 1 1871 A very fine day with wind from south In the afternoon David left yesterday for Brigade Camp Fredericton. Brought in a few ripe strawberries this afternoon from the old garden. R.A.W. [Rebecca Araminta Wetmore⁽¹⁾]

Sunday July 2nd 1871 A fine day with very heavy wind from southwest. Was up to W.P.F.'s a while this afternoon G.F.W. & wife were there. Went to Service at Hall this evening. R.A.W.

Monday July 3rd 1871 Rained in the morning cleared off about 10 o'clock. Picked 32 qt. strawberries in the afternoon to send to St. John in the morning. R.A.W.

Tuesday July 4 1871 A very fine day. R.A.W.

Wednesday July 5th 1871 A thunder shower in the morning. Cleared off about noon was very warm this afternoon. Picked 50 qt. berries this afternoon. R.A.W.

Saturday April 20 1872 Justus went to St. John today, crossed on the ice got his horse in the ice near the shipyard coming home this evening. It has been a very pleasant day. David came home tonight somewhere about midnight. Julia Fairweather, Julia M., Edith, Fanny W., Addie & Em were here to tea tonight. There were several young gents here in the evening.

Friday April 26 Very dull this morning rained a little, David went up to Hampton to day expects to go to Sussex tomorrow. James & Ernest left here today for F'ton to attend the 'training school' They began to ferry here yesterday. David set out some current & gooseberry plants last evening. Had a thunder shower this evening. R.A.W.

Saturday April 27th 1872 Very pleasant in the morning, a little showery in the afternoon set out my Dahlia bulbs this morning.

Saturday May 4th Was quite dull in the morning but quite pleasant this afternoon. David got home about noon. Took straw off the strawberries in old garden this afternoon. Took about 150 strawberry plants up for Mr. Sterrit.

Monday May 6th 1872 Dull in the forenoon but fine in the afternoon quite cold for the time of year. Raining quite heavily now with wind from northeast. The spring is very backward, have not planted anything yet. Swapped Tom, the horse, away on April 30 for a horse six years old sired by Flying Morgan. Was foaled June 11 1866 – call him Jack. Uncovered about half of strawberries today are looking well. Bought half ton of hay today from James Waddell & gave \$20 per ton.

D.P. Wetmore

Tuesday May 7 1872 A rather dark day but pleasant in the afternoon – rained heavily last night. Repaired line fence in forenoon between father and my self uncovered remainder of strawberry plants in afternoon – they are all looking well. Uncovered a row or two of raspberries.

Wednesday May 8 1872 A beautiful day. Was inspecting superior schools in Norton and Hampton today & just got home. Charles was repairing line fence between my land & Edward, piling up wood that fell down and uncovering raspberries. Lodge met tonight but I did not attend.

D.P.W.

Thursday May 9th 1872 A rather wet day. Plowed a little today but had to stop on account of rain. Am 36 years old today. Wife had a quilting in honour of the day. Nothing planted yet.

Friday May 10 1872 A fine day but cold. Got some more planting done in the afternoon and set about 100 strawberry plants in afternoon. Raspberries not all up yet.

Saturday May 11 1872 Fine in the morning but rain with thunder toward night. Got piece of Norway Oats in on hill today – sowed about, or nearly a bushel on $\frac{1}{2}$ acre. Set a few more strawberry, finished four rows. Was clearing away old fence about garden.

Monday May 13 1872 A cold day but not stormy. Was taking up 4000 strawberry plants for O.E. Flewelling – had father's man Vail helping Charlie – worked at it myself in the forenoon with them & we took up 2100. Visited Clifton school in the afternoon & then two took up a 1000.

Tuesday May 14 1872 Took up 1400 more plants in the morning to make out the complement for O.E.F & some more to sell – Visited Rothesay school in the forenoon & went to St. John in the afternoon taking plants with me 500 for Alex Morrison & 75 for Masters O.E. Flewelling were sent by train.

Wednesday May 15 1872 A fine day – staid in town over night. Got a side hill plow from Evert for \$8.50, got a quantity of nails & had to give 5 & 6 cents for them – Did not get home 'till night – Charlie was taking up raspberries when I was away but only got about one half up.

Thursday May 16 1872 A cold day with a little rain. Commenced plowing with little side hill plow & it worked very well. Took up part of raspberries, the part on the hill & plowed in the afternoon. Cleared away old privy & fence posts & got ready for

planting some potatoes & c in garden. Got 4 crab apple trees today & set them on old road between this place & Merritt's.

Friday May 17 1872 Charlie plowing in the forenoon finished piece for strawberries & commenced piece for potatoes – plowed garden. Was writing my self part of forenoon & then manuring garden till noon. In afternoon Charlie & I took up remainder of raspberries & furrowed garden which I planted part in potatoes & part in peas & left some for corn & beans.

Saturday May 18 1872 A fine day but cold wind from west. Got a lot of manure from G. Merritt which he had hauled up the hill for four dollars – put it on the piece above his place and got it ready to set out over 500 hill of raspberries beginning next the field of raspberries above G.F. Whelpley's. Planted potatoes between the [?] the first 3 rows being Breesie's [Kenny] of the [carlies] & a fence in the head of the fourth, remainder were Early Rose. It took about over 1 bushel of cut seed. Finished setting out the raspberries about half past ten at night being bright moon light. Planted a few more peas in the garden. Planted a bed of cucumbers in the old garden. Charlie got a little more plowed on the piece above the barn for potatoes.

Sunday May 19 1872 A very fine day – warm & mild. Was at Kingston to church in the forenoon. Went up to W.P. Flewelling's in the evening.

Monday May 20 1872 A rainy day with wind from northeast. Charlie was not a work today. Mended a pair of shafts today & did some running around. It is still stormy looking.

Trinity Church and Loyalist Graveyard. (Source: Jean MacDonald, Clifton Royal, N.B.)

Tuesday May 21 1872 Wet all day but did not rain much. Charlie & I were digging a drain in the forenoon below the hen house near the house – did not get half done digging. Charlie was hauling out manure and I was setting raspberry plants in afternoon. Set 150 & planted potatoes between, have all set now above Mr. Merritt's piece – Cleared away an old plum tree at the foot of garden in evening.

Wednesday May 22 1872 A fine day set about 1000 strawberry plants & 450 raspberry plants at head of others next Merritt's, planted potatoes between raspberries. Got about $\frac{1}{4}$ acre ready for setting strawberry plants. Templars Lodge at Hall this evening but did not attend.

Thursday May 23 1872 Fine in the morning but wet in the afternoon. Planted corn and beans & beets in garden on hog manure. Wetmore Merritt was helping me this day to set plants. Set nearly 15 long rows today in all about 4000 plants. Upper part of first four rows were Downer's Prolific remainder Wilson.

Friday May 24 1872 A dull day with the land quite wet. Shifted the fence to the border of the school lot did not do anything with the land.

Saturday May 25 1872 Fine in the morning & stormy in afternoon. Helped Uncle George put up his stove & pipe in the forenoon – got ready 10 more rows for strawberries & got them about half set. Wetmore & Willard were setting part of day for me. Had to quit before night on account of rain.

Sunday May 26 1872 A very fine day. Did not get to church today but Araminta went to Hall in evening. Peas are up & oats up on the hill.

Monday May 27 1872 Finished setting rows of strawberries on side hill. Got piece ready for setting near hall but rain came on towards night & prevented setting. Uncle George helped me a while in the forenoon.

Tuesday May 28 1872 Wet in the morning & fine in the afternoon. Drove to St. John today. Charlie planted a row of potatoes next raspberries, took some stone off & dug a little in the ditch near the house.

Wednesday May 29 1872 Cloudy all day with a fine mist in the morning. Charlie was plowing nearly all day & setting plants toward night. Arranged the different varieties of strawberries before Merritt's barn & set about 100 Col. Cheem one row of Peak's Emperor, one row of Tromphe & two rows of Jucunda there. After dinner furrowed eleven rows for strawberries adjoining those on northeast side of house & set them finishing late at night – each row contained about 150 plants making in all something over 1600 plants – the first three were Scarlet Magnolia, the next one Kentucky with the exception of a few at the top being Jucunda, the next one Jucunda the next one Green Prolific and the next five Wilson. Mrs. O.E. Flewelling & Mr. & Mrs. I. Geo. F. Whelpley were here to tea this evening.

Thursday May 30 1872 A fine day Was writing most of day. Charlie plowed remainder of piece above house & got some rows furrowed for potatoes – got a few of the raspberries staked – set out a few more raspberries in small plot of strawberries at top of hill.

Friday May 31 1872 Cloudy in morning & stormy in afternoon – planted 7 rows of potatoes – Early Rose – Charlie was cutting wood in afternoon & I was writing.

Saturday June 1 1872 Quite fine today but land was wet. Severe shower of hail in the afternoon some of the hailstones would measure $\frac{1}{2}$ inch in diameter. Planted 8 more rows of Early Rose potatoes.

Sunday June 2 1872 A stormy day and very cold with wind from north. Did not go to Kingston church, nor to the hall.

Monday June 3 1872 Stormy in the forenoon & fine in the afternoon – Still very cold, colder than I ever knew it for this time of year. Charlie was staking & tying up raspberries all day & left part of day tied up those by barn – part of those above Merritt's barn & 8 rows on the hill. They do not look very well – did not uncover them soon enough – should have been uncovered by May 5.

Tuesday June 4 1872 Staked tied up about 600 more hill raspberries being the balance & making it all about 1000 hills Those on the hill are very poor – do not think they will be half a crop. A few that were taken up earlier look very much better than the others. Ran the cultivator through ten rows of strawberries next to Merritt's piece & to top of hill – hoed them all but 2 rows did not begin till 3 o'clock. A few blossoms begin to show on plants in old garden.

Wednesday June 5 1872 A dull day & cloudy all day but did not rain – was planting potatoes all day – planted 17 more rows, nearly all Early Rose – 3 rows of Garnet Chili -3rows of Carter's & 2 rows of Silver Dollars. Attended Templars Lodge this evening. Have between $\frac{1}{2}$ & $\frac{3}{4}$ of an acre planted to potatoes now.

Thursday June 6 1872 Stormy in the morning and fine in the afternoon. Very warm. Dug some more on the ditch by the house & hoed strawberries in the garden in the afternoon. Bought a pile of manure from Peter Kierstead for \$8.00 lying next to Jas Waddell's – got wagon springs mended – O.E.F cultivator is finished (the iron work) & looks very well.

Friday June 7 1872 Storm in forenoon & fine in afternoon. Was working at ditch in forenoon & hoeing strawberries in afternoon – hoed old garden – Plants not very good there.

Saturday June 8 1872 Filled one ditch near house & got done about 10 $\frac{1}{2}$ o'clock. Commenced then hoeing & cultivating strawberries – hoed 3000 old plants on northeast side of house and 11 rows next Merritt's – whole length part old but mostly new setting in all about 7000 plants. Cultivator works first rate.

Sunday June 9 1872 A fine warm day in fact very hot. Potatoes are just coming up. Was at Service in Hall in evening. Strawberries in old garden begin to show quite a number of blossoms but not in full bloom yet – others only have a few blossoms.

Saturday June 15 1872 Foggy in morning fine in after part of day. Has been a very wet week raining every day. Nearly finished hoeing raspberries today for first time. Got all the strawberries hoed for the first time during the week. Geo. L. Flewelling worked with me part of today. Strawberries in old garden in full bloom, others are a little behind yet.

Saturday June 22 [sic] A fine warm day has been dry & warm for several days. Put in an acre of Buckwheat above hall yesterday & commenced to put in turnips today got in 12 rows next potatoes. Geo. Flewelling has been working for me this week. Have got all the newly set raspberries hoed finished them today. Got all the strawberries in [bearing] order hoed for second time & got part of them mulched with straw. Brushed early peas today.¹²

Monday May 26 1873 Just finished planting four rows of corn above hen house on hog manure. Did not put any beans with it but put squash seeds in every other hill. In the lower ends of the rows & pumpkin seeds in the upper end. It is planted of corn from several different people as follows: - beginning at lower end of rows: - 1 hill in each row, southern corn from Rev. D.W. Pickett, next 1 " " yellow corn from Jas. Kierstead, Bellisle, 1 " " white corn from Jas. Kierstead, Bellisle, 8 " " Yellow Corn from Isaac Sharp, Studholm, 25 " " Yellow Corn from Miles Jenkins, Kars, 20 " " Yellow Corn from Geo. F Whelpley. The first & second lots from the bottom & a part of the third have sulfur phosphate on and the others have not. Finished this day also planting carrots & beets which was begun on the 24th sowed ten rows next before the corn of which is beets. On the 23rd inst. finished setting strawberry plants. Have set this spring in all about 9000 plants of which 4000 are in 17 rows next school lot & 5000 in 18 rows up & down the hill between house & Merritt's lot. Old strawberry plants look very well this spring. Have about 20000 plants ready for bearing set this spring about 240 hills of Asparagus plants in kitchen garden. It is up and doing well. Have sent off two lots of rhubarb to market one of which, 46 lbs. went on the 21st inst. & the other 64 lbs today. Set this spring from Sharp & Shea's nursery 156 apple trees. See list on first pages of this book.¹³ W.F. Flewelling had a [tin] Wedding this evening.

Tuesday May 27 1873 A cloudy day wind from the southwest. Finished driving rasp. stakes today. Have now 2300 stakes set although only about 1000 of these hills are in bearing order for this year. Grafted 5 seedling apples with New Brunswick & 7 crab trees. The crab apple trees are just set out & do not look much like growing.

Wednesday May 28 1873 Cloudy & foggy all day Arthur & I were building fence between pasture & plowed field above Hall & did not get quite done. Tied up the grapevine to night it looks very well. W.P.F's Blacksmith shop burned last night. He has a large ship¹⁴ on the stocks expecting to launch next Saturday but this will probably prevent him.

Thursday May 29 1873 A fine day finished making fence above Hall & Hoed & cultivated strawberries in old garden and ten rows next to Merritt's lot. Those in garden are blossoming a little the others look very well but are not so far advanced. Hoed peas & asparagus.

Friday May 30 1873 Rainy in morning & fine in afternoon. Fitted up a hot bed and got some cutting in it to start. Planted four rows of potatoes next corn & cultivated & hoed 4 long rows of strawberries and rasp. & corn below Merritt's Barn & 8 rows to northeast of house.

Saturday May 31 1873 A fine day. Murray Belyea was helping on of day today. Hoed all the strawberries between house & Hall & remainder of long rows between house & Merritt's. The only piece not dressed out now is the small patch at the top of the hill.

Monday June 2 1873 A very fine day but cold. Finished putting in the potatoes above barn and got part of the small piece of old strawberries on the hill cultivated and hoed. Murray Belyea & Arthur were working for me but I went myself to Hampton in the afternoon & did not get back till late at night. Belyea 1 day.

Tuesday June 3 1873 A fine day. The ground is getting very dry. Finished the old strawberries on the hill & got $\frac{1}{2}$ of the newly set plants hoed about ten rows next the hall not finished yet. Was engaged myself with school business in the forenoon & worked with the others in the afternoon. Belyea 1 day.

Wednesday June 4 1873 W.P.F launched a ship¹⁵ of about 1100 tons this afternoon. Jas. N. Wetmore commenced work with me today & worked one half a day. Murray Belyea was not here today. Finished hoeing newly set strawberries got about 3 long rows hoed & J.M.W. $\frac{1}{2}$ day

Thursday June 5 1873 A dull day today. G. Merritt launched his ship¹⁶ this afternoon. Put in half an acre of potatoes today above hall. Belyea & Henry were both here besides Arthur. Finished the potatoes before night & finished hoeing long rows of raspberries. Belyea 1 day. J.H. Wetmore 1 day.

Friday June 6 1873 A dull day. Was putting in turnips above hall, got in about $\frac{1}{4}$ of an acre on the Buckwheat stubble then expect to put in enough more to make a little over an acre. Arthur ran the cultivator through remainder of raspberries after tea to night. Strawberries begin to show blossoms but are not in full bloom yet. They look very well with exception of the old garden.

Saturday June 7 1873 A dull day & storm towards night. Was in St. John & Howard was with me – got quite wet coming home. Got all the raspberries hoed but 14 rows in piece on hill, they are looking well.

Sunday June 8 1873 A fine day. At Service in Hall this evening. We have a good Sunday School here now it opens at 9 o'clock in the morning. Corn is just coming

up that was planted 26th May. Carrot seed that is beginning to show that was planted on May 24th. Strawberries in garden are nearly full bloom. They run a little ahead of what they were last year.

Monday June 9 1873 A dull day with wind from northeast. Got peas brushed & remainder of turnips in above hall there are 78 long rows & a few short ones being just about one acre altogether. Part of the carrots and the beets are nicely up.

Tuesday June 10 1873 A fine day although a little cloudy in the morning. Henry & Arthur finished hoeing rasp. for the first time. Sowed about $\frac{1}{2}$ an acre of a new variety of buckwheat above the hall. It is said to ripen in from 6 to 8 weeks from sowing. Henry had the horse cultivating for Mrs. Merritt $\frac{1}{4}$ day. A large portion of the strawberries are now in full bloom & looking very well.

Wednesday June 11 1873 A dull day with rain part of the day. Finished harrowing buckwheat today. Working at berry boxes & machines rest of day. Arthur was sprouting potatoes most of day.

Thursday June 12 1873 A very fine day with wind from northwest. Got field on hill harrowed for buckwheat. Henry was digging ditch at side of road & Arthur went to Rotheray for a lb of sulfur phosphate but did not get it. Strawberries are in full bloom.

Saturday June 14 1873 A very fine day. Returned from Springfield this afternoon where I had been for two days on school business. Henry & Arthur got the middle posts put into the fence above the hall put six cords of wood into the wood house, finished digging the ditch along side the road from house & this evening we filled it. G. Merritt's team plowed the field on the hill for me today.

Sunday June 15 1873 A stormy day. Sunday school was not large – only three teachers present. There was no Service in the hall in the afternoon. Turnips are up above hall having only been planted a week.

Monday June 16 1873 Foggy in the morning but fine in the afternoon. Was cutting blossoms off newly set plants and getting buckwheat on hill. Strawberries are looking very well – blossoms are beginning to fall off. Corn is up nicely and looks well. Sowed buckwheat on top of hill.

Tuesday June 17 1873 Storm in the forenoon but fine in the afternoon. Was getting berry boxes made in fore part of day & line fence repaired next Ed Flewelling in afternoon. Went to St. John this evening to attend a grand concert there. Did not think much of it after attending it.

Wednesday June 18 1873 Returned from St. John this afternoon. Henry & Arthur were hoeing plants today. Has been fine all day. Pulled 112 lbs rhubarb to night & send to St. John tomorrow.

Thursday June 19 1873 A dull day but did not rain. Was engaged making berry boxes & fitting up machine. Sowed grass seed on top of hill.

Thursday June 26 1873 A fine day, has been fine for some time. Just finished hoeing raspberries for second time they are looking very well. Buckwheat is up nicely on the hill. Commenced hoeing turnips above Hall they are looking very well. Norman Puddington was working with me today & will be here tomorrow if it is fine.

Sunday May 9 1875 Am 39 years old today. Commenced to uncover strawberry plants 3rd inst. & finished on the 7th inst. Have about $2\frac{1}{2}$ acres in bearing order this year all being in long rows, ten between rasp. & N.J.F's place & then 6 rows of rasp. and strawberries from that to lane from barn to pasture. All between house & school lot is in strawberries. Made new road last fall to go up the hill in circular direction extending out to near hall lot through strawberry field, threw out the earth and filled in with stone thrown earth over it makes good roadway. Got out about 160 loads of black mud last winter. Strawberries are looking well this spring snow having been constant last winter. Ice went out of the river last week & the spring is a little backward. Last winter was the coldest that has been known in a long time. Have sold quite a number of strawberries this spring to date. Sold nearly \$20 worth of rhubarb roots this spring. Rhubarb is looking forward and will soon be fit for market. Removed the old barn from the lot near R.J.F's last spring & last evening commenced to set it out in strawberries. - got five rows set. Commenced to take up the raspberries on the 7th inst. & have about $\frac{1}{2}$ up now Have about an acre set in raspberries. Made a hot bed this spring & have some plants quite forward in it now. Changed flower garden last year from foot of strawberry lot to old garden in front of the house. Did not take all the old garden for it but set remainder in rhubarb. The garden did very well last year & is looking promising now. Planted a few early peas & potatoes on the 1st of May in kitchen garden. W.P. Flewelling Esq., who had been boarding with us since May last, at which time his large house on the hill burned, died on the 26th of March last and was buried on the 28th, which was Easter Monday. Adela his daughter, his daughter who married a Mr. Stewart, from Ontario, is very ill with a cancerous tumor & not expected to live. She is in Toronto now & O.E. Flewelling, her brother has gone on to see her. Mrs. W.P. Flewelling is boarding with us still. We had a beautiful bed of crocuses in the garden this spring in full bloom about the middle of April. There are some in bloom yet. We have seven beds of tulips & they show buds now. Took the brush off the rose bushes in the garden on the 6th of May. It has been a cold chilly day.

Monday May 10th It has been very foggy all day rained a little this evening. Fred went to Hampton for a load of berry box bottoms today. Arthur & Henry have been setting out strawberry plants were old barn used to be.

Tuesday May 11th It has been very warm today seems quite like gardening. David went to Sussex yesterday has not got home yet. Arthur, Henry & Fred finished taking up raspberries today
R.A.W.

Wednesday May 12 Have been in Norton, Sussex since Monday examining schools. Henry & Fred were manuring land above hall Wednesday & Arthur was driving stakes for rasp. Fine.

Thursday May 13 1875 Went to Reach today for 400 apple trees that have come from Sharp & Shea. Came home by Joseph Gorham's & left part of them with him. did not get home till late, rained heavily last night but was fine today. Henry & Fred putting manure on land above hall & Arthur getting out plants to fill orders.

Friday May 14 1875 A fine day. Manuring piece above hall in forenoon & Henry plowing it in afternoon. Set 20 of the trees I got from Sharp & Shea to day & heeled in remainder. Set a lot of gooseberry & current back of barn. Getting up plants to fill order in afternoon. Early tulips are beginning to bloom in garden. Daises & pansies are in full bloom. Some strawberry blossoms today.

Saturday May 15 1875 Fine in morning but cloudy & rainy towards night. Set 18 crab apple trees around flower garden & 7 New Brunswick alongside of road from house to wood. Set 3 rows next J.E.F's line, 17 & 16 each, of Alex. & one of 16 New Brunswick in all 74 trees today making with what were set before of the lot got this spring 94 trees. Commenced to set strawberries above hall & got about 1000 set planted about $\frac{1}{2}$ of an acre of potatoes between them & Edward's line. Planted a few peas in short rows next Edward's line. Got seeds from Vick today & planted quite a number in hot bed this evening. Rhubarb is almost fit to pull.

Sunday May 16 1875 This has been a dull drizzly day & cold for this time of year. It is not raining now but it is foggy. Daniel Reardon died on Wednesday last & was buried yesterday.

Monday May 17 1875 A fine day but cold. Set apple trees as follows today; 2 Red Antrachon & 2 Saps of Wine among rocks below piece of strawberries on NE side of house, 18 Summer Harvey among rhubarb on NE side of garden, 14 New Brunswick in strawberries above Hall being row on SW side of patch & 1 Alex. in lower end of same row, 37 in all today making with what were already set this spring 131 trees. Arthur finished setting strawberry plants in piece above Hall making in all 17 rows averaging about 175 to a row in all 2975 Wilson plants. Henry & Fred were hauling manure part of today & Henry plowing awhile & then driving rasp. stakes. Peas are just coming up in vegetable garden.

Tuesday May 18 1875 Fine till towards night when it commenced to rain with wind from eastward. Henry was plowing piece for oats above Hall and Fred & Arthur were digging a drain in piece above Hall on which I intend to set strawberries. Did something at garden myself, planted some Convolvulus & Gropeolum seed around & set some Gladiolus bulbs.

Wednesday May 19 1875 A dull day. Got stone off meadow land on hill towards night. Fred was not here today. Attended Lodge this evening.

Thursday May 20 1875 A dull day & rained towards night. Henry & Arthur got stone off school lot & did a little at drain above Hall. Went myself by train to Norton Station & thence by team to visit No. 4 school Hammond got back to Norton Station again at night & got a wetting.

Friday May 21 1875 Dull in morning & fine in afternoon. Henry & Arthur were working at drain all day and got it nearly all stoned up. Got home myself at about half past ten & after that was getting out strawberry plants to fill orders.

Saturday May 22 1875 Comparatively fine day but cool Erasmus Wetmore & Stephen Wetmore were helping me today. Finished drain and got corn, beans & peas planted & also some potatoes next strawberries above Hall on SW side in all 8 rows of Scarlet Magnolia on the SW side of that again. Will set a few more. Quite a number of tulips are in bloom of the Due van Hol & single early variety Set a few things in garden this evening.

Sunday May 23 1875 A very fine day & warm. Tulips in garden are looking very well today. [Due van Hol] Single early & Double Tulips are in bloom. Set nearly all by Flewelling. Julia and Miss Gossline were up from St. John today.

Monday May 24 1875 A fine day but cold & wind from southwest. Got up plants to fill orders for M Domville & Mrs. Whelpley. In forenoon & after noon dug a short drain to connect with up of drain along hall. Henry & Fred hauled out the balance of manure from pile & chopped down the pile of ice under it. Finished setting strawberry plants today. Have set in all this spring 4000 plants about 2900 Wilsons & about 1100 Magnolia. Planted about 2? bush. potatoes this evening which will finish planting for this spring. Got piece plowed where old road was above barn & the part near Ash House planted in potatoes. Set 5 dahlia roots today 2 at end of house, one on the bank near steps, one near rock & one on SW side of road leading to main road. Planted 3 Gladiolus bulbs in bed at end of house. Tulips were beautiful today R.M. Wetmore has bought the homestead of the late W.P Flewelling & expects to move on it soon.

Tuesday May 25 1875 A fine day. Put out some gladiolus & dahlias & helped Rev. D. I. Wetmore set some strawberry plants. Most of the day men were driving stakes & tying up raspberry's. Henry was plowing piece for oats above hall it will take half a day more to finish it.

Wednesday May 26 1875 A fine day interspersed with thunder showers. Henry & Fred finished plowing piece above hall for oats & got ashes on it for manure. Arthur was tying up rasp plants & Stephen hauling stakes from lower yard. Put in some cabbage plants today & arranged the garden. Time early peas were hoed. Got up a lot of rhubarb for market this evening which Henry will take to St. John tomorrow morning.

Thursday May 27 1875 A very fine day. Set 7 more apple trees on the head of the row next house on the SW side of house all of the [Fameun] Variety. This with 131

set before makes 138 trees set this spring of the following varieties: 37 New Brunswick, 25 Fameun, 34 Alexander, 19 Summer Harvey, 3 Red [Astrachan], 2 Sops of Wine, 18 Crab Apple trees = 138 in all. Henry was in St. John today & brought up a load of groceries. He took down 88 lbs rhubarb at 5 cents & flowers sold fairly. Sowed oats & got them harrowed in on piece above hall today. Finished staking raspberries but did not get them all tied. Commenced to cultivate strawberries on piece above barn. They are looking well.

Friday May 28 1875 A very fine day but windy. There was a heavy fire in St. John today or rather Portland. Portland church was burned with a great number of houses. Finished tying raspberries today and in the afternoon commenced to hoe strawberries & hoed about half acre. They should have been hoed sooner.

Saturday May 29 1875 A fine day with wind from northeast. Part of the hands were hoeing strawberries all day and part were planting some beets & carrots above the hall. Put in five rows of carrots & 2 rows of beets. Got all the strawberries hoed on the SW side of house but 7 rows next Robert J.F. There is about an acre & a half hoed now. Got a new style of hoe,¹⁷ which I invented, from Justus Wetmore & it works well. Strawberry plants are looking fairly & bid fair to give a good crop. R.E. Puddington & wife were here this evening. He is quite feeble although better today than he has been for some time.

Sunday May 30 1875 A very fine & warm day. Was at Kingston Church today & Joseph E. Flewelling who has been lately ordained preached his first sermon there, the church was quite full. Plants are looking well very few blossoms showing.

Monday May 31 1875 A very fine day. Finished hoeing old strawberries first time today & got stone off oat field ready for rolling. Hoed asparagus & early peas. Asparagus does not look very well. Some of the dahlias are up & looking finely that wise. Scraped the top off potato rows next Edward's line today.

Tuesday June 1 1875 A very fine day and very dry. Sowed grass seed on piece of oats above hall & had it rolled. Sowed a barrel of plaster on about $\frac{1}{2}$ of the piece on the SW end. Got newly set strawberries cultivated & hoed today there being about 4000 plants commenced cultivating & hoeing rasp. Got about $\frac{1}{2}$ of an acre cultivated and nearly the 6 long rows hoed. Everything is looking very well but it is very dry almost a drought. Was over to Quispamsis this afternoon to see about a school house.

Wednesday June 2 1875 A very fine day & dry. Got remainder of rasp. hoed was working about house myself. There was a spelling match in Clifton Hall this evening between married and single members of Clifton Lodge. Married members won.

Thursday June 3 1875 A very fine day & dry. Men were getting off stone from strawberry plants & cleaning up. Were out building a brush fence in latter half of afternoon.

Friday June 4 1875 A very fine day & dry. Finished brush fence across rear of pasture in forenoon. Made some cucumber beds & set tomatoes behind barn. Got up some rhubarb for market. Had another spelling match this evening. I had the future to come out ahead at both this & the preceding match. Set portulaca this evening.

Saturday June 5 1875 A fine day & still dry. Arthur and I were in St. John today. Arthur sold about 200 lbs rhubarb in the market & I realized about 2½ cents per lb for it. John & Henry sprouted some potatoes, hoed rhubarb & hoed part of last years set strawberry plants. Some of the strawberry's back of house are beginning to show quite white with blossoms. Arrange with Puddington to take strawberries for this year. Planted some squash seed in bed back of barn this evening.

Sunday June 6 1875 It looked like rain today but did not rain. The drought is getting quite serious. If we do not have rain soon it will seriously affect the strawberry as well as other crops. Old set strawberries on the NE side of the house are in full bloom now.

Monday June 7 1875 Fine in the morning but commenced to rain in the afternoon and now at 10 o'clock is raining steadily. It is an excellent thing in the country as it was very much needed indeed corn, beans & pumpkins are well up. Commenced to hoe strawberries again & got nearly an acre hoed before the rain came on. They are looking quite well. About ¼ of mine are in full bloom.

Tuesday June 8 1875 Fine all day but the land was a little wet from the rain yesterday. Sent Fred to Dury's Cove for a load of ashes. Henry finished cultivator and John made a Wagon seat. Everything looks well after the rain.

Wednesday June 9 1875 A dull day but not stormy. Got some hoeing done today & got wagon repaired. Set stock & some other flowers in the garden this evening. Had a meeting at my office and formed a fruit growers association called the Clifton Fruit Growers Association.

Thursday June 10 1875 Dull in the forenoon and stormy in the afternoon, got some manure hauled up the hill in the forenoon and some carpenter work done in afternoon. Quite a heavy rain this evening.

Friday June 11 1875 A dull day but the sun shone for a while during the day. The men were getting stones off a piece of land above the meadows on top of the hill. I expect to break up a piece of land there and put it into buckwheat this year. All the strawberries maybe said to be in full bloom now except the plants set last year. Rasp. are beginning to look well. Pulled a lot of rhubarb to send to St. John by Justus today.

Saturday June 12 1875 Dull & foggy all day. Got about ½ of an acre plowed on the hill for buckwheat. Fred was not here in the afternoon.

Sunday June 13 1875 Dull & foggy all day & rained toward night. Was at Kingston church today. Strawberry plants are looking white with blossoms all except the last year set ones. There is promise of an excellent crop.

Monday June 14 1875 Cold & windy but not wet. Working at buckwheat field in forenoon and at hoeing strawberry plants in afternoon have about 2 acre to hoe yet for second time.

Tuesday June 15 1875 A fine day but not very warm. Finished hoeing strawberries for the second time. Last years set one may now be said to be in full bloom. Plowed a piece for turnips but am afraid that it is so wet that I will have to put buckwheat on it.

Wednesday June 16 1875 A very fine day. Got about $\frac{1}{2}$ of an acre ready for buckwheat on the hill by this evening. Fred & Arthur were getting stone off strawberry lots part of day & hoeing corn & beans. Last years set plants can hardly be said to be in full bloom yet. Attended Templars Lodge this evening & there was a very good meeting.

Thursday June 17 1875 A very fine day. Sent to Dury's Cove for a load of ashes and got my wagon broken down on the road home. The other three men were taking stones off strawberries. Strawberries still show very white blossoms.

Friday June 18 1875 Dull & rain in the afternoon sowed buckwheat on hill about $\frac{1}{2}$ acre of rough & a small piece for E.M.F. Did not get it all harrowed. At noon today a bear & two cubs were seen by Mrs. M.A. Wetmore and the neighbourhood was alarmed & turned out to kill them. I have been after them all the afternoon. We brought them to bay three times & saw them but unfortunately did not kill them. They are in the woods about the sugar loaf. Many people are watching tonight to keep them there & they will be hunted tomorrow.

Saturday June 19 1875 Rainy all day. About 30 or 40 men were out all day hunting for the bear but did not find them. It was very wet in the woods & I apparently got quite a cold by it. Set a few petunias and asters in the garden this evening.

Sunday June 20 1875 A fine day. Minta & I went to St. John this evening so that she could take the American boat as she is going to Ontario to see her sister Addie.

Monday June 21 1875 Minta & Julia Merritt left in the American boat this morning & I remained in town all day. The men got some more stone off the strawberry plants & cultivated & hoed all last years set strawberry plants in all about $\frac{1}{2}$ an acre. They are looking well.

Tuesday June 22 1875 A fine day & very smoky. Put in a little piece of buckwheat on the SW side of piece above hall lot & seeded it down. Men got more stone off the land and cultivated & hoed some strawberry plants. Strawberry plants are still quite white with blossoms particularly the plants that were last year. Put four geraniums out in rustic vases in front of the house today.

Wednesday June 23 1875 Dull all day. Got stone off newly set plants & had them hoed. Sowed a few turnip seed back of barn. Set sage, parsley and sweet marjoram & sowed a few rows of lettuce. Put out the house flowered in garden today & set quite a number of seedlings in garden. Strawberry plants seem white with blossom yet.

Thursday June 24 1875 A dull day but not stormy. Men were taking stone off piece for buckwheat on hill. I was writing & fitting up garden got out some more seedlings & have nearly finished. The garden is looking well now. A few of the seedlings, such as marigold & [chemophola] are out in bloom. Heard from Minta today, she had got safely to Portland & was about to take the train on the Grand Trunk for Montreal. I hear children say they have found ripe strawberries wild. It will be some time before the cultivated ones are ripe.

Friday June 25 1875 There were several thunder showers today & it was very hot. Got the garden all cleared up & plants all set. Men did a little at buckwheat land on hill.

Saturday June 26 1875 A very fine day. Was fitting up rustic vases in garden today. Vases look very well. Men hoed all the potatoes except the lot by the house & hoed beets & carrots also corn. Commenced to hoe raspberries still show many blossoms.

Sunday June 27 1875 Dull in the morning but bright in the afternoon. Was up to Kingston Church today and at hall in the afternoon. Last years set strawberries still show many blossoms. There is not much prospect of having any strawberries before the 10th of the month.

Monday June 28 1875 A dull day with a little rain toward night. Fred & John were working at field for buckwheat ? of day with team & remainder of us were arranging for putting the water outside of the house & running it into the garden, got it all finished to night. Cleared off this evening & is quite fine now.

Tuesday July 6 1875 I have neglected writing in this diary for some time. I was away to Fredericton last week attending the meeting of the synod & diocesan church society & from there I went to Woodstock & visited Sharp & Shea's nursery & Mr. Gusvenn's farm at Eel River. The trip was very pleasant. Rasp. have all been hoed & we are getting runners off strawberries & taking out some weeds. Have got piece on hill nearly finished for buckwheat. Found a few ripe strawberries on Sunday & they are beginning to ripen a little more now but there will not be any worth mentioning this week.

Wednesday July 7 1875 Dull in the morning but fine in the afternoon. Finished plowing the piece on the hill and got it partly harrowed. Will likely get it sowed tomorrow. Got in a short piece of drain to drain door yard. Painted the light wagon & black on the express this evening. Berries are ripening a little but none ready for market yet. Garden is looking lovely now.

Thursday July 8 1875 A very fine hot day. The thermometer stood at 84° in the shade. Finished painting wagons today. Sowed buckwheat on remainder of piece on hill today. Part of the men were getting out weeds & pulling off runners from strawberry plants. A few begin to show ripe there will be a few for Saturday. Minta expects to get home on Saturday.

Friday July 9 1875 A fine day got wagons varnished, finished harrowing in buckwheat and got some boards hauled up for fence, two men were hoeing strawberries & pulling runners. Picked a lot today for the first & will take them into St. John tomorrow. Got a fountain pump from the states today. It works well.

Saturday July 10 A dull day. Was in St. John today & took down 71 lbs of strawberries the first from Clifton although they had been in from Sussex for 10 days. Minta came home from Ontario today & I brought her up with me this evening. Men were clearing weeds out of strawberries most of day & taking off runners. Strawberries are looking well think we will have a heavy crop.

Sunday July 11 1875 A dull day. Went to Kingston church to day & took a load with the spare horses.

Monday July 12 1875 A very fine day. Men were pulling off runners from strawberry plants today. Sent off about 200 qt. of strawberries by R.J.F. to R.E.P.

Tuesday Oct 12 1875 A dull day. Have just had wood-house enlarged and foundation repaired under old store. E.M.W. & men were framing manure shed & carriage & tool house this afternoon. Three men were working on 2 acre lot on top of hill $\frac{1}{2}$ day. Have a heavy crop of berries this year & plants are looking well now.

Friday April 21 1876 Am laid up in the house by a fall from my wagon last Sunday, so I thought I would again commence farm diary. The spring is somewhat earlier than last year there not having been much snow. I notice that R.J.F. is plowing his garden today to plant potatoes. Minta planted seeds in hot bed yesterday. My Jersey cow "Dutchess" calved yesterday and has a bull calf. Minta is just now planting some sweet peas on the upper side of the garden.

Saturday April 22 1876 A little cloudy today but still pleasant. Commenced plastering the old store today for a dwelling house. Ice went through below today. Was able to walk out doors a little today.

Sunday April 23 1876 Fine in the morning but looked like rain towards night. Am able to walk around a little since my fall but did not get to church today. Seeds were planted in hot bed Wednesday & are showing up now.

Monday April 24 1876 A fine day. Did not do anything at farming. Bates was blasting a rock for me near hall. Did not get done, will about finish tomorrow.

Tuesday April 25 1876 A fine day. Bates finished blasting rock near hall today. R.W.W. has got the old store about half plastered. Rhubarb is starting up finely most of the seeds in the hot bed are up.

Wednesday April 26 1876 A stormy day. Did not do anything at farming.

Thursday April 27 1876 Cold & windy from the NE. Harry N. Logue came to work with me today for the summer. Hauled off a few stone & hauled out a little manure. Got a second hot bed partly made today.

Friday April 28 1876 A dull day. Attended the examination at Clifton School today. Am getting over my fall nicely although quite lame yet. Have not done much at farming yet. Men were hauling manure up the hill today.

Saturday April 29 1876 A dull day but not stormy. Got a few peas planted today in kitchen garden. Plants are starting nicely in the hot bed most of the seeds being up. Have not uncovered any strawberries yet.

Sunday April 30 1876 A stormy day.

Monday May 1 1876 Stormy. Men working inside oiling harness etc.

Tuesday May 2 1876 Began taking off brush today but only took a little off. Appeared cold toward night.

Wednesday May 3 A dull day but not stormy. Took brush off about $\frac{1}{2}$ an acre today of strawberries & part of the day was getting up plants to sell. Plants took middling well except in places.

Monday May 8 1876 Was out all the last of last week did not get much done. Was in St. John Friday. Got off some plants today & got some rasp. stakes from mill. Got some brush off berries toward night.

Sunday May 14 1876 A fine day. Was at church in Kingston today. Finished uncovering strawberry plants & taking up raspberry plants yesterday. Strawberry plants are somewhat hurt but rasp. plants look good. From appearances should judge that rasp. plants should be up by May 5th & strawberry plants would be better if not uncovered till the 12th or 13th May. Pansies & daisies are blooming beautifully in the garden.

Monday May 15 1876 Comparatively a fine day but a little dull towards night. Set about 500 Wilson strawberry plants today where I took out rock near the school lot line. Set about 50 hills of raspberries to carry out rows to G.N.F.'s line. Rhubarb is looking well & fit to take to market. Due van Shol tulips are beginning to show bloom. Cow 'Rose' went to bull today.

Tuesday May 16 1876 A fine day. Set about 700 plants above the hall, 4 rows of Col. Cheery & 2 rows of [Sriomphe] de gand. Put some hop vines each side of the garden gate & set some plants about the place for summer house. Commenced to set the currant plants received from states. The first three rows on the northeast side of gooseberries will be white grape currant, the next three La Versailles.

Wednesday May 17 1876 A fine day. Set the currant plants I got from the states as follows: The first three rows on the NE side of the gooseberry patch White Grape, except five plants on the head of the first row which are Earl Kent Gooseberry. The

next three rows are the La Versailles. Sowed carrot & beet seed & a few turnip seed in lot above hall on SW side of strawberries and below Ash house. Harry & Will were putting manure on a piece of land for potatoes on top of hill.

Saturday May 20 1876 A fine day. Planted a half acre of potatoes today on the hill. Tulips are getting in bloom (Single Early & Due van Shol) Strawberry plants are not looking nearly so well as they were last year.

Monday May 22 1876 A dull day & rained a little toward night. Got a little over half an acre of oats in on the top of the hill & stone cleaned off the land. Set 30 apple trees today as follows: 7 NB in row next road below old well, 1 NB to fill the place of one killed near garden, 9 NB in new row next hall lot, 1 NB in foot of row next on South West, 2 NB near pile of rocks on top of hill, 2 Fameuse in row next house on SW side to fill place of ones killed, 2 Fameuse in head of 2nd row from hall lot to fill place of P.G., 1 Sops of Wine next below in same row, 2 Alex. next below that, 2 Red Astrachan next below that, 1 Max Crabb in currant lot to fill place of one killed = 30 total. Set 3 Neills of Sharps improved rhubarb near asparagus.

Strawberry fields in Clifton. (Source: Mr. and Mrs. W. Freeman Sheldrick, Clifton Royal, N.B.)

Tuesday May 23 1876 Dull in morning but fine in the afternoon. Was in St. John today. I took with me 240 lbs rhubarb being the second lot this spring.

Wednesday May 24 1876 A fine day. Set apple trees received from Lingley & Sons as follows: 8 NB in row next hall lot between others, 9 Alex. in next row between others, 1 Alex. in foot of next row, 7 Fameuse on top of hill next D. Wetmore's line

beginning at top of hill & running NW they are among stones near line fence, 3 NB next after them to NW, 3 Gravenstiens, next after them to NW among by pile of stones, 5 NB next after them to end of large pile of stones = 36 total. This with what was set before makes 66 set this year, viz. 36 New Brunswick, 12 Alexander, 11 Fameuse, 3 Gravenstiens, 1 Sops of Wine, 2 Red Astrachan, 1 Max Crabb = 66 total trees this spring. Set out three rose bushes today that I got from W.N. Merritt, one next below climbing rose on corner of summer house, one on southeast side of garden 2nd from E corner of garden, one on SW side 2nd from south corner.

Thursday May 25 1876 Fine in the morning but stormed in the afternoon. Attempted to get corn planted but did not succeed on account of the rain. Set out 9 dahlias & some Gladiolus. Early tulips are beautiful now but late ones are not out yet. Planted beans in currant patch today.

Friday May 26 1876 A fine day. Got about half raspberries tied up today. Planted 4 rows of corn above the hall. Sowed 6 rows of turnip seeds along side of the corn. Tulips are looking very well (Due van Shol & Single Early)

Saturday May 27 1876 A fine day. Got all raspberries tied up [?] about 400 hills. Got 23 Rose bushes from US today & also a Spiea and 2 Clematis. Set all out but one rose bush which I gave to Mrs. G.N.F.

Wednesday May 31 1876 A fine day & has been fine for awhile. It is getting quite dry. Part of yesterday & today were hoeing strawberries – got about $\frac{1}{2}$ done. They do not look as well as they did last year at this time. Saw a few blossoms today & yesterday for the first. Planted Nasturtium today.

Thursday June 1 1876 A fine day & dry. Did not quite get all of the old bed strawberries hoed today. They are quite weedy & are not looking well. Then about a dozen more rows above the barn to hoe and last years set plants above the hall. Early tulips are beginning to fade & late ones are not yet out yet. Set a bed of pansies in garden this evening.

Friday June 2 1876 Fine in the morning but dull in the afternoon but did not rain. Excellent weather for hoeing. Was hoeing strawberries today with the exception of the time spent in scraping the ceiling of the office which was a tedious & dirty job. Finished hoeing the strawberries today, finishing lot above hall late at night. Left four rows above the house not hoed in case any plants were wanted. Strawberries are not looking nearly so well as they did at this time last year.

Saturday June 3 1876 Foggy in the morning and fine in the afternoon. Was in St. John today. The men finished staking & tying up raspberries today, getting balance of stakes at the mill. Hoed a few of raspberries today. Only two men working for me now Will Spike having left last Thursday.

Sunday June 4 1876 Rained all day with wind from the north. Quite cold.

Plan of Rose Bed in the garden ... ever blooming roses.

Hybrid Perpetual. Chas. Lifebre in Genies bed. In four angles of centre bed as follows: Lord Raglan in north, Mad Plantier in E, Princess of Wales in S Alex Bachmetiff in W. Moss Roses on SW side of garden, Countess de Muranais furthest to NW, Glory Mosses next below, Princess Adelaide Moss Rose was set to NW of the Countess June 9. 8 Hybrid Perpetual roses were set on NE side of garden June 9 as follows beginning at the NW La Reine, Pierce Notting, La France, Marquis de Bocella, Madan Chas Wood, Coquette des Alpres, Gen Washington & one name unknown. Climbing roses around Summer house, Queen of Prairie on SW Russell Cottage on NW side of door Baltimore Belle on SE side of door & champnez next below.

Monday June 5 1876 A stormy day. Did not get anything done outside was writing all day.

Tuesday June 6 1876¹⁸ A dull day but warm growing weather. The two men got about half done hoeing raspberries. A few strawberry blossoms begin to show in the earlier plants of the field. They are later than last year. Commenced to build summer house but did not finish. Rev. W.E. Scovil, rector of the Parish died last night in St. John.

Wednesday June 7 1876 A pleasant day but cloudy. Men did not quite get done hoeing raspberries. Was fitting up summer house & garden myself. Got daisies & pansies transplanted. Only got summer house half done.

Thursday June 8 1876 A fine day. Rev W.E. Scovil was buried today in Kingston. The funeral was very large. Finished hoeing raspberries & the four rows of strawberries which I had kept for plants. Bought a stump & rock extractor for 5 today; it seems to work very well.

Friday June 9 1876 A dull day was fitting up garden today & setting seedlings from hot bed did not get quite done. Set stock, asters, snap dragon, dianthus, [cordy tuft] Adonis, Nemophila, california poppy & other plants. Set daisies in circle yesterday. Set today 14 roses that I procured from the States as follows: 3 over blooming in bed, 6 Hybrid Perpetual on NE side of garden, 1 Moss Rose on SW side of garden, 4 climbing roses around summer house. Harvy was getting stone off piece for

turnips. Arthur is sick today. Late show tulips are in full bloom. Strawberries do not show many blossoms yet. Simple Narcusus is in full bloom. Set 2 Honeysuckle's about summer house today one on SW side Eversweet scents & one on NW or N name not known. Also set Hydrangea Grandeflora in NW side of summer house.

Saturday June 10 1876 A dull day & rainy part of the day. Set out cabbages, planted sage & some cucumber. Finished up garden but there are 2 or 3 beds not spaded yet, plants are not ready to put in them. Tulips are beautiful now. Strawberries in rear of house begin to show some blossoms but are not in full bloom.

Tuesday June 13 1876 Dull & foggy today although the sun shone a little at one time. Was away in Westfield myself today. Men were putting in turnips on piece next Edward's line & getting stone off it. Strawberries are beginning to show in full bloom on the earlier plants but the late ones are not showing much yet. Got a wild grape vine yesterday & will set it tomorrow morning.

Wednesday June 14 1876 Dull & foggy today. Was getting out stone on the hill from buckwheat land. Used a rock extractor (patent) which lifts them out very well. Strawberry plants are looking better than they did. Older ones begin to show a good many blossoms but they are not in full bloom yet. Raspberries are looking well.

Thursday June 15 1876 Raining all day today. It has been dull & foggy so long that the strawberries want hoeing very much – are looking very weedy. Strawberries are looking very well & the older ones are white with blossoms. Sent a lot of rhubarb (373 lbs) to St. John today and got very little for it. McDonnell was putting a window in the old store today.

Friday June 16 1876 Chill in the morning but fine in the afternoon. Was getting out stone on the hill in the forenoon & the men were hoeing in the afternoon. I was at Kingston attending a meeting for nominating a Rector. No one was nominated but another meeting is to be held. Some of the strawberries seem to be in full bloom & look well.

Saturday June 17 1876 Dull & foggy in the morning but partially fine in the afternoon. Was hoeing strawberries all day although it was too wet in the morning. Got about 1½ acres hoed the second time. Set tomato plants this evening. Set petunia plants this evening.

Sunday June 18 1876 Quite fine today although a little foggy in the morning. Was at Kingston church today in the afternoon. None of the strawberries can be said to be in full bloom yet except on the earliest pieces such as Mrs. J.B.F. picked last year & back of house. Where they were hurt by the winter they are later.

Monday June 19 1876 Foggy in the morning & fine during the middle of the day but showery towards night. Fog was set up again this evening. It has been foggy every day now for a long time so that it almost impossible to kill weeds. Hoed strawberries back of house today & part of what were left above the barn. There are only about 13 rows to hoe of the old plants, newly set (last year) above the hall are not hoed the 2nd time yet.

Tuesday June 20 1876 Dull & foggy. The sun scarcely shone any. Finished hoeing strawberries the second time today. Hoed corn & some carrots & turnips above hall. Was getting stone off buckwheat land in the afternoon. Strawberry plants above the hall are very poor.

Wednesday June 21 1876 Dull & foggy & rained in the later part of the day. Was getting stone off the buckwheat field in the forenoon & in the afternoon took off the ceiling in the sitting room & getting a new one plastered on. Marshall plastered it for me & finished just before tea. It's raining hard now.

Thursday June 22 1876 Fine part of the day & showery toward night. E.W. Wetmore was helping me to put a sill under the barn. We got the sill hewed & one of them under. Will probably finish tomorrow forenoon. Most of the strawberries seem to be in full bloom now with perhaps the earlier ones a little past it. Did nothing at the buckwheat field today.

Friday June 23 1876 The first fine day for a long time and in the afternoon after the land got dry a very good day for hoeing. Finished putting the sills under the barn and hoed out the balance of the beets, carrots & turnips. They were very weedy. Towards night were up on the hill working at field for buckwheat. Have got it about half done.

Saturday June 24 1876 Quite a fine day. Prepared land & sowed most of buckwheat on the hill. Sowed Russian Buckwheat.

Monday June 26 1876 A very fine day. Was piling up saw dust in the mill in the forenoon & hoeing raspberries in afternoon. McDonald repaired wagon today. Col. Cheeny strawberries are in full bloom yet.

Tuesday June 27 1876 A very fine day & as good a day for hoeing as we have had this summer. Finished hoeing raspberries today & commenced on strawberries again without cultivator. Hoed garden this morning.

Wednesday June 28 Got one hundred & 6 barrels of ashes from St. John today by Capt. Brittain's scow & it took nearly all day to haul it up. Put some on the buckwheat field (about 26 lbs) one load on the oats & the rest in the ash house. Rolled buckwheat field today.

Thursday June 29 A very fine day & warm. Hoed some of the strawberries & got as far as the row of apple trees next the house from the pasture lane. Am hoeing them this time without the cultivator. Also hoed turnips, carrots & beets & newly set strawberries. Painted the sitting room started for St. John this evening expecting to get to Sussex & Studholm next morning. Before I left the men commenced to hoe potatoes on the hill. The potatoes look quite well. We put the cultivator through them.

Friday June 30 1876 A fine day. Was in Sussex & Studholm today. The men finished hoeing potatoes today & hoed some strawberries (very warm)

Saturday July 1 1876 A fine & warm day. Returned from Sussex about 3 o'clock. Men continued hoeing strawberries, got the piece back of the house done. Garden does not look so well as it did last year. Part of the peonies are in full bloom & a few Scotch roses are out.

flowers required for the garden in 1877 (seeds)

petunias -	to be set in part of the tulip beds	Flax	$\frac{1}{2}$ quarter circle
Verbenas	in remainder of beds (tulips)	Adonis	$\frac{1}{2}$ corner bed
Portulaca	2 beds	Sweet Alyssum	$\frac{1}{2}$ corner bed
Stock	1 large bed & part of corner bed $\frac{1}{2}$ circle	Nemophila	$\frac{1}{2}$ part of corner bed
Phlox 2 beds	1 white & 1 mixed	Mignonetta	$\frac{1}{2}$ of one corner bed
Coxcomb	1 bed	Calliopsis	1 bed
Dianthus	2 beds (2 kinds annual)	Seabrosa	
Dianthus	1 bed (perennial)	Evenlancyeny	
Snap Dragon	4 beds around the centre	Escholtzia	1 tulip bed
Salpiglasis	square centre	Delpmeusk	
Asters	1 quarter circle	Candy Tuft	one corner bed
French Marigold	1 bed dwarf		
Pansy	1 bed

Rose slips in pots number as follows: (potted Nov. 5 1876)

Bourbon	2
Madam Damagine	3
Louis Philippe	4
Duchess de Brabant	5
Isabella Sprunt	6

Good Friday March 30 1877 There has been a great quantity of snow this winter but for the last few days it has gone off rapidly & the traveling has broken up. I was at [H] E. Flewelling's in West. Co. yesterday & attempted to go to Havelock Corner but could not on account of the roads. G.W. Flewelling lost his little boy Willie by Diphtheria & he was buried yesterday. It has been quite prevalent about here lately & very fatal. Frederic Flewelling lost three children by it. The snow has just got off so that the strawberry plants show & they look very well. There is not much prospect of getting to church today the traveling is so bad.

Wednesday May 2 1877 A cold day with wind from NE. Finished setting a piece of strawberry plants on the hill by the brook today. It contains about 2800 yards or 15/26 of an acre. Have about 2 of an acre planted the north of them were planted on the fourth instance. They are next N D W's line beyond the brook. For the last week the weather has been very cold & rainy. The later part of April was very fine & warm almost like June so that some things started very early. Early tulips have been in bloom for some time. On the 5th inst. I sent off to market 170 lbs rhubarb which is the earliest I ever sent it. The wind has been steady & strong from the north since the 6th inst. Snowing part of the time. Everything is much earlier than last year but is so cold now that things are put back. Have few peas planted.

Friday May 11 1877 A fine day men were leveling raspberries & getting piece ready for oats on the hill.

Saturday May 12 1877 A very fine day. Got oats sowed on one acre on hill & got rasp. rows leveled & a few tied up. There was some frost last night & a hard frost the night before.

Monday May 14 1877 A fine day with a little thunder shower at night. Got part of rasp. tied up. Two men were taking off stone where oats were sowed on the hill. Peas are up. Sent 295 lbs rhubarb today making 465 lbs this spring.

Tuesday May 15 1877 A very fine day. Finished tying up rasp. plants & put in piece to oats next Edward's line. Raspberries are not looking well this spring. They should be dug up about May 1st & leveled off at once. Early tulips are in full bloom now.

Wednesday May 16 1877 A fine day. Was making land roller but did not get it quite done. Men finished planting piece of potatoes beyond the brook & commenced to cultivate 10 rows next R J F's line & got part hoed. Some beginning to show blossoms which is very early about 14 days earlier than last year or year before.

Thursday May 17 1877 A fine day. Finished roller & Harry rolled two pieces of land that I had seeded down. The roller worked well, commenced to hoe strawberries about 3 o'clock & hoed about an acre from raspberries towards the house. Several blossoms are showing. Due von Shol & early tulips are in full bloom but late ones are not out yet. It is very smoky there being many fires in the woods.

Friday May 18 1877 Fine in the morning but dull & rainy towards night. Was hoeing strawberries all day today & just got to the hall fence at night having hoed about an acre.

Saturday May 19 1877 Dull in the morning but fine in the afternoon. Finished hoeing strawberries today with those above the hall. Harry was not here today. Hauled some black mud for slop hope. Plowed & sowed to oats & seeded piece above hall. Set a few daisies tonight & planted Gladiolus.

Monday May 21 1877 A very fine day. Planted corn above Hall row to northeast Compton's early field corn in half towards bottom Pop corn in row to northeast in top half common corn in remainder. 3 kinds of beans among corn sowed & rows of carrot seed & one row of beet seed along side of corn. Set 3 pear trees today as follows: Pierre d'Anjou in rhubarb to northeast of garden beside poultry yard fence in rhubarb & _____ in poultry yard. Spaded some beds in the garden today & set some perennials.

Tuesday May 22 1877 A fine day & warm. Hoed the piece of newly set strawberries on the hill in the forenoon. Planted some potatoes on piece next meadow 8 rows next grass 1st five on barn manure & the next three on black mud. The first 3 of those on manure had plaster on them & the first two of those on mud. Commenced to dig two drains in the low place next Howard's line on the hill to connect with those that Bates dug last fall. They are each about 5 rods long. Newly set strawberries are not looking well they were evidently set too early.

Wednesday May 23 1877 A dull day but it did not storm. Set tomatoes & cabbage & planted 36 hills of pole beans. 6 tomatoes were from Rev. D I Wetmore & the remainder from my own hot bed Canada Victor. Planted a few more potatoes on the hill & got a little done at the drains.

Thursday May 24 1877 The Queen's birthday did not do much but wash wagon.

Friday May 25 1877 A stormy day. Set a few plants in the garden in the evening French Marigolds, Caecilia & one bed of Portulaca Harry went to Saint John with a load of rhubarb 424 lbs for myself and some for JSW & V Robert JG. He is to bring a load up this evening. It has been dull for the last 3 days. Late tulips will be in bloom In a few days.

Saturday May 26 1877 A stormy day & cold did not get much done on farm today. Harry went for a load of hay up to Mr. Hill's.

Sunday May 27 1877 Dull in the morning but fine in the afternoon & evening. Late tulips are coming well now. Many of the strawberries are in blossom on the flat between R J F's & the house. Oats are up in piece on the hill.

Monday May 28 1877 A fine day. Planted 4 rows of potatoes on the hill which finishes the planting of potatoes for the year. Got some thing done at the drains but did not finish.

Tuesday May 29 1877 A fine warm day. Finished drains & got 4 rows of southern corn planted for fodder next potatoes. Late tulips are in full bloom. Oats are looking well on the hill. Strawberries in some places are beginning to show blossoms plentifully. It is time they were hoed I have 3 men working for me now but I had four a while ago. I expect to have but 2 for the summer.

Wednesday May 30 1877 A very fine day with the wind from the southwest. Planted 5 more rows of southern corn on the hill & sowed about $\frac{1}{2}$ of an acre of turnip seed sowed oats on about $\frac{1}{4}$ of an acre on the wet swale near the newly set strawberries. Did not get grass seed sowed on it as I expected nor get it harrowed. Hoed & brushed peas near gooseberry patch. Took the stone off of part of the strawberry plants above the hall. Some of the earlier parts of strawberry patch seem to be in full bloom now about 10 days earlier than last year.

Thursday May 31 1877 A fine hot day. I was up with H D W helping Justus Pickett do some planting. Harry & Fred finished the field of oats & got it seeded down & rolled & then were breaking up remainder for buckwheat. Beverly Lyon was taking 'livesforever' out of meadow on the hill - he finished working for me today.

Friday June 1 1877 Commenced to hoe strawberries today on the side next R J F's line. Did not get much done as they were quite weedy. I did not work much at them myself.

Saturday June 2 1877 A fine day & very hot. Hoed a few strawberry plants next to hall lot. The greater part of strawberries are in full bloom & look very well.

Sunday June 3 1877 A fine hot day. There is quite a drought. Strawberries, expect the later varieties are in full bloom.

Monday June 4 1877 A fine hot day. Got a hive of bees from Wm. Sterritt's today. Hoed strawberries between house & hall & part of those above hall. They were quite weedy by the house. Hoed peas also.

Tuesday June 5 1877 A fine hot day. Was hoeing strawberries all day but did not get nearly done.

Wednesday June 6 1877 Fine in the morning but rainy in the afternoon. Hoed strawberries part of forenoon but did not hoe any in the afternoon. Sent off 738 lbs rhubarb today. [Gwen strawberries are quite large]

Thursday June 7 1877 A fine hot day. Finished hoeing strawberries today for the second time. They are looking very well & are a little beyond full bloom. Cut the blossoms off a few of the newly set strawberries (3 rows) & hoed out some buckwheat from a small part of them. Hoed a few rasp. toward night.

Friday June 8 1877 A dull day with wind from southeast but did not rain. Finished hoeing raspberries today, having spent just about one day for three men in cultivating & hoeing them. Strawberries are looking very well.

Saturday June 9 1877 A dull day partly fine in the afternoon. It is quite dry & needs rain. The two men were taking stone off part of the strawberries above hall in the forenoon & in the afternoon we hoed the newly set strawberries on the hill, $\frac{1}{2}$ of an acre. They are looking very well. Hoed and raked off garden this evening. Peonies are in bloom.

Monday June 11 1877 A fine hot day. Was wheeling stone off strawberries most of day & off corn & carrots. Hoed turnips on the hill & a few potatoes.

Tuesday June 12 1877 A fine hot day & very dry. Hoed about 10 rows of potatoes & remainder of day men were working at buckwheat field. Did not get it quite ready to sow. Jas. Kierstead is clearing up a corner for me near the bridge over the brook by buckwheat field. He is to clear the piece which is about $\frac{1}{2}$ of an acre & dig 27 rods of drain for \$15. He commenced Monday. Early Dan O'Rourke peas show blossom today. Col. Cheeney strawberries are in full bloom but others are beyond it.

Wednesday June 13 1877 A foggy day but fine in the afternoon. Got an acre of buckwheat sowed today but did not quite get the field finished. Sowed Russian Buckwheat.

Thursday June 14 1877 Foggy in the morning but fine in the afternoon. Men were working part of the day at buckwheat field & part of the day at getting stone for drains that Kierstead is digging.

Friday June 15 1877 A fine hot day & very dry. The men finished the Buckwheat field & were hoeing potatoes.

Saturday June 16 1877 A dull day & rainy part of the time. Was working at clearing up the corner of the buckwheat field next the bridge.

Sunday June 17 1877 A very fine day. Rained quite heavily last night. Everything looks well after the showers. There was service in Clifton Hall this forenoon. The bees swarmed today & I got the swarm safely hived.

Monday June 18 1877 A fine hot day. Hoed some potatoes near the site of the old house on the hill or rather ploughed them & raked off, they do not look very well. Did not hoe them all as they were not up enough. Hoed corn I had planted for fodder.

Tuesday June 19 1877 A fine day with showers in the afternoon. Hoed corn & beans, beets, carrots & peas. Brushed late peas. Took stone off corn patch & off currant & gooseberry patch. Put plaster on strawberries as follows: On the piece between the two paths from the house yard to the second row of apple trees, on the piece above Hall as follows, beginning in the SW in each case: 3 rows of Col. Cheeney, 4 rows Magnolia & 8 rows Wilsons.... Put bone dust on strawberry plants as follows: on piece between main road & first path between road from house & the old well.... Bone dust on new plants on the hill on the first row of Col. Cheeney to the NE on the row next it @ NE of Wilsons & on the row next that on NE of Magnolias. Plaster on new plants on the hill beginning at the NE to the row of Wilsons next beyond the first 4 rows of Col. Cheeney including the row of Wilsons mentioned.

Wednesday June 20 1877 A fine hot day with a heavy north west wind. There was a big fire in Saint John today & it still continues to burn. Was filling drain dug by Mr. Jas. Kierstead in corner of buckwheat field today & getting stone & stumps off the piece.

Thursday June 21 1877 About three quarters of the city of Saint John was burned last night & yesterday by the fire. It was the most fearful fire that has ever visited this place. Finished putting the stone in two of the drains dug by Mr. Jas Kierstead today & finished hoeing the potatoes in piece beyond the brook. I was at the reach myself.

The great Saint John fire. (Source: New Brunswick Provincial Archives, Fredericton, N.B.)

Friday June 22 1877 Dull & rainy in the forenoon & clear in the afternoon. Was in the city today in the afternoon. The fire destroyed about \$15,000,000. worth of property in fact nearly destroyed the city. Commenced to hoe & pull runners off strawberries today. Harry was not at work. A few ripe strawberries begin to show.

Saturday June 23 1877 A fine day but windy. Got about an acre of strawberries hoed & the runners off. It should have been done a little sooner.

Monday June 25 1877 A fine hot day with a little shower in the afternoon. Men were hoeing strawberries all day & pulling off runners. I was writing myself.

Tuesday June 26 1877 Hoeing strawberries all day but did not get quite done. Will be hoeing, weeding raspberries tomorrow. Picked a few strawberries (6 qts) for market today.

Wednesday June 27 1877 A fine day. Was in Saint John myself but the men were hoeing raspberries, they got about $\frac{1}{2}$ done.⁵⁰

[Clipped to the top of this page is a small scrap of paper. One side has a note, the other a garden list. Side one:]

Clifton July 15 1876, M Thos. Fennel Jr., Haverlock Dear Sir: inst received Application has been made to the Board for aid on your building & I expect it will be obtained as I told you when there, but no answer has been received yet. You appear to be making difficulties about getting an agreement with the teacher as well as she

[Side two seems to be a yearly rotation plan:]

1 $\frac{1}{2}$ acre breaking up with oats, $\frac{1}{2}$ potatoes, $\frac{1}{2}$ corn for fodder turnips & carrots
 $\frac{1}{4}$ acres seeding down with oats 4 year timothy & blown 1st yr. oats.
 2nd yr. potatoes, 3rd yr. corn for fodder, turnips & carrots, 4th yr. oats, 5th, 6th,
 7th & 8th grasses

September 6 1877⁵¹ Picked New Brunswick apples today & had about 5 barrels. They were very fine.

Sept. 8 1877 A fine day finished making 3 drains between the rows of strawberries above the barn yard today. Was out shooting today have been repairing road for hauling brush.

Nov. 22 1877 Put brush on strawberries last week & it just took 5 days. I had three teams on except the last day when there were only 2. One was an ox team. It took about 140 loads or counting one ox load = 1 $\frac{1}{2}$ horse loads = 150 loads for 3 acres

that is about 50 loads to the acre. It got very muddy before finished putting it on, there having been heavy rains. I think it would be better to put the brush on in the last of Oct. before the lands get wet if it would not hurt the strawberries. Cleared about 5 acres of land this fall at a cost of about \$475.

Soiling Cattle

A good list of crops for the purpose.

1st winter rye – cut 3 times, 2nd clover – cut 3 times, 3rd oats & peas sown together at the rate to the acre of 1 bush oats & 2 bush peas – cut only once, 4th fodder corn – cut once. The rye should be used first in the spring & would be followed by the clover. They would run together a little & the clover would lap on to the oats & peas & the oats & peas would lap again on the fodder corn. The oats & peas should be commenced to cut about the time the peas commence to blossom & will last about one month. One cow will require from 75 to 100 lbs per day of green food. Quantity required of each to last one cow for the summer: – $\frac{1}{4}$ acre Minta rye; $\frac{1}{8}$ do (") clover; $\frac{1}{8}$ do oats & peas; $\frac{1}{8}$ do fodder corn; $\frac{1}{8}$ or $\frac{1}{4}$ of an acre for one cow.

April 23 1878 The winter was a very open one & the spring now seems early, the weather being warm & mild. Took some bush off strawberries yesterday next hall lot & took up some raspberries today. Strawberries look pretty well & raspberries look very well. Have taken out part of the strawberries between house & hall lot & expect to use the land for a kitchen garden. Have two hot beds made & the seeds sown in one. Tomatoes, cabbage & e & some flower seeds. They have been sown nearly a week.

Saturday April 27 [sic] Dull & rainy in the morning but proved fine before night. Was very warm today & has been warm for several days. Took the brush off about 2 acres of strawberries today. Strawberry plants look fairly, not so well as they looked last spring. Have about $\frac{1}{2}$ of the raspberries up. The season seems to be quite early. Bed of crocuses were in full bloom today & are beautiful.

Saturday May 4 1878 A dull day. The weather has not been very good for farming for the last week. Finished taking the brush off strawberries today. I think it would have been as well if the strawberries had been left covered till about this time but raspberries should be up earlier. Set about $\frac{1}{4}$ of an acre of raspberries today on the hill near the large stone pile. Commenced to set some strawberries in the same field & got about 1000 set. Pulled & took 6 lbs rhubarb to the city yesterday.

Monday May 6 1878 A dull day. Set about 1000 more strawberry plants on the hill & staked & tied a few raspberries.

Tuesday May 7 1878 Partly fine & partly dull. Finished setting strawberry plants on the hill & got about 2700 set there. They are next new raspberry patch. Set about 800 plants in the four rows alongside raspberries where I took Downers out.

Strawberries do not look nearly so well as they did last spring. I think I uncovered them too early. Got 7 Ben Davis apple trees & two plum trees from a house in Rochester, NY today & set them as follows: – in the lot between NJF's & road from house to main road.... 5 Ben Davis near the end of third row from the road.... 2 Ben Davis on NE end of fourth row from the road... 2 Plum trees Lombard & Imperial Gaye in fourth row from road & just below the two large crab apple trees. Lombard next towards RJF's line. Got about $\frac{1}{2}$ the stakes driven for raspberries.

Wednesday May 8 1878 A fine day but cloudy with wind from northeast. Got a lot of stakes for raspberries from the mill. Tied up a few raspberries just at night. Some early tulips are in bloom.

Friday May 10 1878 Sowed two acres of oats today on two acre lot next rear – manured all with bone dust and south east end with super phosphate.

Saturday May 11 1878 A fine day. Did not get quite all the raspberries tied up. Got 2 acres of oats in one field next to NDW's line & got the piece rolled. Hoed part of the garden last night. Took 466 lbs rhubarb to St. John yesterday.

Monday May 13 1878 A fine day. Got a drain dug & filled in an acre lot near the woods intended for oats on the lower side of the road. The drain was about 4 rods long & empties into the milldam. Got some more stakes from the Moss Glen Mill & got all driven for raspberries & nearly all tied. Early tulips are in full bloom.

Tuesday May 14 1878 A fine day but cloudy. Commenced to hoe strawberries about noon today at RJF's line & hoed about an acre over to old well. The ten rows next RJF's line are badly winter killed & no part of the field looks as well as last year. A few blossoms are beginning TO SHOW. Finished tying raspberries today. Put in a little over an acre of oats today on the lower side of road next woods.

Wednesday May 15 1878 Was in Sussex today. Got about half an acre of potatoes planted beside Mill Dam. Early tulips are in full bloom.

Friday May 17 1878 A fine day. Set off 414 lbs rhubarb today making with what was sent before 880 lbs this spring. Hoed strawberries balance today. Have all cultivated now except those above the hall. Got all those cultivated on the hill by the brook but only got about $\frac{1}{2}$ of them hoed. Strawberries do not look well.

Saturday May 18 1878 A very fine day. Got a few more potatoes planted on piece near Mill Dam & also small piece in rear of potatoes. Oats on two acre lot are up sowed just 7 days ago.

Monday May 20 1878 A very fine day. Rolled piece of oats & peas next NDW's line & got more potatoes planted near Mill Dam. Have now about $\frac{3}{4}$ of an acre planted. Early tulips are in full bloom. Bought a lot of manure from RJF & got part of it hauled up on to strawberry lot or lot on which I intend to set some strawberries next NDW's line beyond the brook. Set 49 apple trees today. I received from LP Sharp Woodstock & 2 plum trees Moores Arctic... 32 Lamiae as follows: – 4 in row

next road & parallel to it between RJF's line & road from house, 4 below path next road from house in two rows parallel to main road, 3 in row next house on SW one on each side of upper path & one 5th above that path.... 2 in first rasp. row, one near above upper path & one this side from top of row.... 19 in spot where P Cheeney were killed but not the two parallel rows from top 17 NB set as follow: - 1 in top of row next house on SW side, 7 in the head of lot where P Cheeney were killed, 2 in the head of first rasp. rows above RJF's lot, in all 32 Famouse & 17 NB = 49. The two Moores Arctic plum were set among rhubarb near bee hives.

Tuesday May 21 1878 Set 6 rows of Wilsons beyond the brook next HDW's line. Saunder's was digging drain part of the day near large stone pile next HDW's.

Wednesday May 22 1878 A dull day set a few more strawberry plants beyond the brook, Scarlet Marigolds, 5 rows. Got drain filled & covered. Commenced to haul manure from Stephen Cronk's. I had bought the lot for \$15. Hauled 2 loads.

Thursday May 23 1878 A dull day, Men were shaving boxes & getting out stuff. Got horses shod. Bought the mare Sophy from M.W. Flewelling for 22½ dollars. Hauled 3, 2 horse loads & 1 one horse load of manure from Stephen Cronk.

Friday May 24 1878 A fine day. Hauled manure from Stephen Cronk's all day. Pulled 159 lbs rhubarb for market today to send GJSW tomorrow. This with 880 lbs sent before makes 1039 lbs this spring.

Saturday May 25 1878 A dull day but did not rain. Set 10 rows more of strawberry plants beyond the brook making in all twenty rows containing 3000 plants. Sowed to oats and seeded down about ¼ of an acre on Mrs. G.F. Whelpley's place did not get it rolled.

Monday May 27 1878 A fairly fine day but showering part of the time. Men were clearing a piece near the bridge for oats & peas. Finished setting dahlias today set a row along the garden fence.

Tuesday May 28 1878 Mrs. R.J. Flewelling was buried in Kingston today, she died on Sunday morning. There was quite a thunder shower this evening although it is clear now 9 pm. Men were hoeing strawberries above the hall the first time & got nearly done.

Friday May 31 1878 A fine day. Got beans & corn planted in kitchen garden and getting rasp. hoed first time.

Saturday June 1 1878 A very fine day. Late tulips are in full bloom. Double white Narcissus in full bloom, set some Balsum Asters & c last night.

Tuesday June 4 1878 Planted fodder corn today beyond brook with a seed planter from Albany. Planted also oats & peas with the same planter near the brook. Sowed to oats & peas & seeded down a small piece near newly set strawberries. Got a few strawberries hoed.

Wednesday June 5 1878 Got a few more strawberries hoed the 2nd time. Planted with the seed planter among newly set raspberries, beans, beets & marigolds & sowed turnip seed above the hall.

Thursday June 6 1878 A fine day. Hoed newly set strawberries & raspberries & hoed some of old strawberries are not near half done second time. Got piece of land above the hall nearly ready for buckwheat.

Saturday June 8 1878 A fine day but toward night looked like storm. Sowed buckwheat on the new piece above the hall today & got it harrowed but did not get it rolled.

Friday June 14 1878 A fine day & finished hoeing strawberries today, second time. The pieces that were planted to fodder corn having failed on account of bad seed (the seed rotting in the ground) it was plowed up & planted again today. The piece next the brook in fodder corn & the piece next the potatoes in oats & vetches. Half the piece of vetches was drilled in & half broadcast. Corn & beans in kitchen garden are well up but look pretty yellow.

Saturday June 15 1878 A foggy day. Set cabbage plants, tomato plants & sowed some Italian rye grass in kitchen garden. Hoed & cleaned up garden today. It should not require hoeing again for a fortnight.

Monday June 17 1878 A dull day. Cleared a small piece at the end of the strawberry rows near the brook on the hill & sowed it to buckwheat.

Wednesday June 19 1878 A fine day. Field of potatoes near mill dam did not come well & today I sowed it to turnip seed in vacant spots. Hoed the potatoes today. Hoed corn in the garden.

Thursday June 20 1878 A very hot day. This is the anniversary of the great fire in Saint John in 1877. Cultivated raspberries with the new cultivator that is the one that is attached to the seed sower. It worked well. Hoed strawberries near the brook over again as they were not well hoed the first time.

Oct 4 1879 Set gooseberries & currants in the kitchen garden & sowed a small piece of winter rye. Nearly all of the first row of currants was set last spring & was red currants (versailles). Red currant cutting were in the upper end of the row E. A. Kent gooseberry in the middle & white Grape currant near the bottom of the row. The rows of currant gooseberries were set as follows: – 2 rows to SW beginning with apple the row versailles red currant, next two rows to North east White grape currant, next two rows Early Kent Gooseberry, next three rows Noughtons seedling gooseberry. The cuttings in each row are of the same kind as the plants in the row.

May 15 1880 Set 9 apple trees today as follows: – on the SW side of pasture lane beginning at bottom 2 Walbridge 1 Bethel 1 Pewaukee 1 Milden 1 Pewaukee 1 Twenty ounce 1 Hubbardson Nonsuch & 1 twenty ounce.

May 18 1880 Set 6 Downing Gooseberry in the head of the 2nd row of Early Kent
 _the apple tree row in Kitchen garden.

Strawberry lots covered with brush in the fall of 1880

On the hill		sq. yards
NW of brook & near NDW's line		3200
near mill dam		1300
SE of brook & NDW's line		2420
Near raspberries & stone heap		<u>948</u>
	total	7868
below the hill near head of rasp. bushes 9 rows		440
Near raspberries at foot of long rows of old ones		700
triangular lot near house	600	
lot next pasture lane		1430
lot next SW of this on the other side of spruce [?]		1540
Col Cheeney & magnolias above the hall		660
Below the lower path next RJF's line		<u>870</u>
		<u>total 6,660</u>
grand total or three acres & 8 yds.		14,528

Another lot below the path that may be covered, next the road that leads from the house to the main road.

[This is the other section of the book containing David Pickett Wetmore's diary. It is an account of work and purchases related to the fruit operation of D. P. Wetmore, and the day book of the Puddington & Wetmore store. To read this section, one must flip the book and begin at the back.]

30 do do being 10 each in the tops of the 3 rows next to raspberries to the northeast of Merritt's lot.

41

11 11 Alexander in upper end of the 4th row to northeast of rasp. next Merritt's lot.

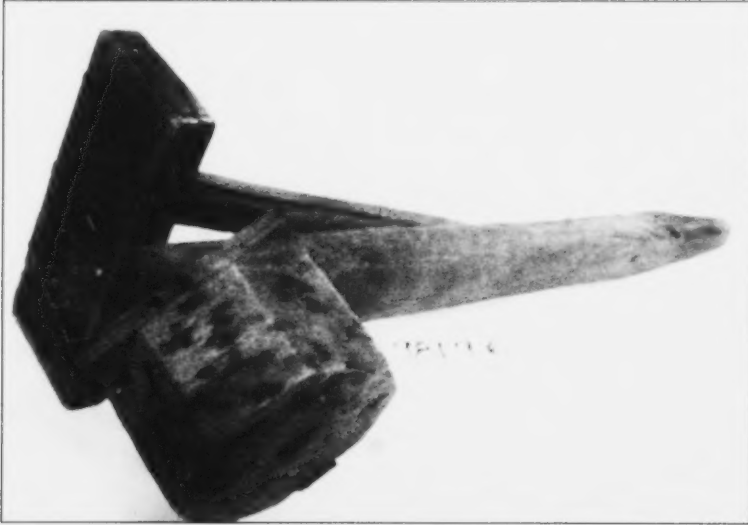

3 3 summer harvey next below Alex.

238 total set to May 17 1873 all of which are living.

Set in spring of 1876 May 22 1876

2 Fameuse in top of row next hall lot (1+2+2) Sops of wine next below, 2 Alex next below, 2 red Astrachan next below, & NB at bottom 1 of row 7 NB in row next road where Gravensteins had killed 2 in row next house on SW side where others had killed 2 to fill place next garden & 9 in new row next hall.

91 [continued at the bottom of the next page] 27 1876 1 wax crab in currant lot, 2 NB on top of hill in oat ground among stones 30 total set to May 22 1876

Berry box form. The boxes had eight sides, a bottom inset and a fitted top for packing neatly for shipping. The person who made them would sit on a bench with the form securely positioned and the small tack tray facing up. The wood was cut to size in thin veneer strips, which were scored so they could be easily bent without splintering as the form turned. There is a metal inset along one side, so when the tacks were hammered in they bent out of harm's way. This form is in the collection of the John Fisher Memorial Museum. (Source: John Fisher Memorial Museum, Kingston, N.B.)

DAY BOOK OF WETMORE & PUDDINGTON COMMENCED JAN, 6 1864

[A newspaper clipping is glued to the inside back cover of the book. It reads as follows:]

The time intervening between harvest and the approach of cold weather, will enable those who love winter flowers, to make proper provision for keeping them. For the purpose of showing how this may be done without great expense, I will give you a few points from personal experience.

Having kept a small collection of plants for several months in a cold pit and a parlor bay window, I concluded last October to try another plan. My wife, who is the first florist of the family, suggested that we enlarge our cold pit and convert it into a small greenhouse. As in these things her wish is law, the excavation of the pit was enlarged to a space 18 x 19 feet in size, with an average depth of nearly four feet below the surface. The location is in a sheltered place, with a south-east exposure. A stone wall, a foot in thickness, was built around the sides of the pit or cellar, as high as the surface of the ground. Above the ground the wall was continued with brick - two layers of four inches each, with two-inch air space between. This was carried to

a height of three feet at the back and eighteen inches in the front, with gables rising still further. This gave a headway of at least six feet inside at the lowest place, and probably ten feet at the highest point. The roof was made with the largest slope towards the sun about one-third of it sloping backward, with a steeper pitch. A ridge pole runs from one end to the other, and the rafters are fitted to it with spaces nine inches wide between them. Glass seven by nine inches in size was used for the covering. There are two openings in the roof for ventilation. All the work was done by men who were without experience in this line, but it has been found to answer the purpose well.

The house is heated in cold weather by a brick furnace and flue, built by an ordinary mason, with some help and advice from the owner. The furnace door is in the outside wall, near one corner, and is reached by a pit made for the purpose, with a shed roof over it. The fire space is large enough for ordinary stove wood, but is fitted with grate bars. From the upper and back part of the fire place a brick flue about five by eight inches, made by setting bricks on edge, runs about ten feet. Here it is connected with a terra-cotta six inch pipe, with a bend which allows the flue to cross the end of the house. The pipe after traversing two sides of the building, passes out through the wall, where another elbow is attached, giving it a perpendicular direction. It ascends about eight feet, and the flue draws so well that hard Lehigh coal is kindled with ease. An attempt at first made to warm the house with a coal stove, was a failure, and killed many plants. The furnace has proved a complete success. The building is fitted inside with shelves and potting tables, in the usual way. Wetmore was obtained from a faucet connected with the service pipe of the premises, and the sprinkling is usually done with a hose, for which there is ample pressure. The entire cost, was about \$125.

During the last winter the house was most entirely cared for by my wife. She attended to the potting, transplanting, and watering of everything, almost without assistance inside. Our hired man was to attend to the fire and provide the earth and compost needed for the plants. The amount of coal consumed was not large – probably between three and four tons. The door of the furnace was rarely shut, only enough to keep the fire alive, yet the temperature of the building seldom fell below 60°, even in the coldest weather. Once a week it was smoked with tobacco stems, to kill the insects. The care of the house, instead of being felt as a tax, was really a recreation to my wife, who has five children to look after, and never neglects her housekeeping affairs.

The result was, that during the winter and spring we accumulated six or eight hundred plants of desirable kinds, enjoyed the sight and perfume of many fresh and beautiful flowers throughout the cold season, and were able to afford pleasure to many visitors and neighbors. Toward spring the seeds of annual flowers and vegetables were sown and by planting time there was an abundant supply on hand.

The shelves are yet covered with many winter-blooming plants, now taking their rest, while our grounds are gay with flowers of home growth and culture. On the whole we are satisfied that our experimental greenhouse has paid largely for the outlay of trouble and money, and we should now be sorry to be without it. – H.T.D., in Country Gent. Doylestown, Pa, July 15, 1873.

[And the great value of such a structure is, that vegetables can be forced so nicely in them – early cabbage, lettuce, tomatoes, cucumbers, &c., &c., and too, a few pots of strawberry plants set around on the outer wall, gives a taste of those luxuries when they are 'good to take'.

The above is a very plain, practical statement and description of a cheap house, and as it is not too late to build one, we make room for it at this time.

The Diary of Araminta Wetmore

MAY 1873 AND MAY 1874

Photo: Rebecca Araminta Wetmore. (Source: Jean MacDonald, Clifton Royal, N.B.)

Rebbecca Araminta ("Minta") Wetmore was the wife of David Pickett Wetmore. Their children included Genevieve (1864), Howard (1867), Ormond (1869), Louise (1870), Adela (1873), Wilfred (1877) and Stanley (1880). Some of the entries in David's book are in her handwriting. Her domestic skills were legendary, and in later years, she was often referred to as "Mrs. Clifton". Several of her homespun woollen blankets, woven on a foot-treadle loom, are available for viewing at the John Fisher Memorial Museum.

Minta was the daughter of F. William Puddington Wetmore and Susannah Wetmore. Her father was a substantial businessman in Clifton. He was a shipbuilder, built and ran a large water-powered mill, kept a store, represented Kings County in the provincial government and became a member of the executive council as Surveyor General.

Thursday May 1st-1873 It has been a lovely day in fact it has become very pleasant all this week. Celia has been with me about 2 months, we have been busy cleaning the house, this is her birthday. I put a quilt on this morning, sent over for Julia W. to come & help us this afternoon. James was here for tea, he is home from Deer Island on account of sickness there. David went to Sussex yesterday to examine superior school, did not get home until noon today. Aunt Angie was here this evening & got some rhubarb roots. Ormond, Ernest & Julie Wetmore were here this evening. David has been uncovering his strawberries the last 2 or 3 evenings, had some splendid bonfires last night & again tonight. Finished my quilt before dark.

R. A. W.

[Rebecca Araminta Wermore]

Friday May 2nd It has been very pleasant again today, looks a little hazy to night as if it might storm tomorrow. David finished taking bush off strawberries tonight, had quite a number of fires again to night, stayed out until ten o'clock. I finished a suit for Ormy to day. Celia has been cleaning the closets of the kitchen today. Celia and I were cleaning the dooryard to night did not get to bed until eleven.

R. A. W.

Saturday May 3rd It has been cold and chilly to day, but has not stormed yet, the wind blew pretty heavy from NE. David was taking up some of his raspberries, planted some peas to day. The ground seems very dry. It is cold and cloudy to night. We cleaned the kitchen today, did not get through until after tea. I am quite tired tonight, will have a rest tomorrow. We are all done housecleaning now but the dining room. I have been waiting for my carpet. This is Mr. E. W's. birthday.

R. A. W.

Sunday May 4th It has been a nice day, quite cool, the storm has blown over. Wind from NW. Sunday school commenced today. Davis & James went up to Kingston church this morning after Sunday school, they were quite late. Genevieve & Louise went up to see Pa awhile. They all went to the hall this afternoon, but Louise &

myself, we took a walk over to Aunt Mary's, she did not go to church, had a stiff neck & bad cold. Celia went over home after church, has not been back yet, it is nearly 9, I must go to bed. It is four years today that How & Annie were married & 25 years today since Uncle Merritt was married R. A. W.

Monday May 5th It was quite showery this morning, we did not wash but cleaned the sitting room. I got my carpet home today and commenced to make it this evening hope to get it done tomorrow & down. It cleaned off very pleasant towards night & is a lovely evening. I just finished a letter to Addie & I must go to bed for it is nearly eleven o'clock. R. A. W.

Tuesday May 6th It has been very pleasant today. We finished the carpet to day & got it down just before tea. A. C. Evanson was here today & got some strawberry plants & brought David some asparagus roots & crab apple trees, just as he left W. Raymond came for some plants, he came in and helped David stretch the carpet down, he was here to tea. I do not feel very well tonight.

Wednesday May 7th

It has been a lovely day again & here I am in bed with a little baby girl beside me born about $\frac{1}{2}$ past two this morning. I feel pretty well, there has been quite a number in to see me today. Could not get anyone to wash for me today. David finished taking up his raspberries today. R. A. W.

Thursday May 8th It has been another splendid day, had a very heavy frost last night. We all had a good sleep last night. I feel very well again today. Celia had to go to washing today, we could not get anyone to do it. David got a lot of apple trees from Sharp & Shea at Woodstock, they came down in the boat and Jos. Gorham brought them down & was here to dinner.

Friday May 9th A splendid day again, this is David's birthday. I am getting along nicely. David & Arthur went up and set out a thousand strawberry plants for Ernest this afternoon, did not get home to tea until dark. Coyngrahams came just as he got through with his tea, intended to stay all night but he stayed over to Aunt Mary's. R. A. W.

Saturday May 10th Another pleasant day. Coyngrams was here to dinner, went away about 3 o'clock & then David set out 107 apple trees, he was pretty tired when he came in.

Sunday May 11th It was quite dull this morning, rained some last night, but cleared off quite pleasant in the afternoon. Annie was over and stayed with me while Celia went to Sunday school. There were a good many in to see me this afternoon. Bel & Hawksley among the others. David & Genevieve went to the hall to service. R. A. W.

May 12th Monday It has been quite dull all day. This is Ormy's birthday, the children had quite fun with some firecrackers. David has been working at the drain this afternoon, just the other side of the hen house. Cut Louise's hair today.

May 13th Tuesday It rained quite hard last night, was raining when I first awoke this morning. Cleaned off about 7 & has been a lovely day. Cassie washed today, and the clothes all dried nicely. W. Pickett's team was here ploughing for David this afternoon. David has been laying out the flower garden this evening. This is Masonic Lodge night, David has gone up. R. A. W.

Wednesday May 14th It has been pleasant again today with a few showers towards night. David finished the flower garden today, it is already for planting the seeds, he set out some more apple trees to night. James E. W. was over helping David awhile this afternoon. Arthur has been quite sick to day. Celia & Cassie have gone to lodge this evening. R. A. W.

Thursday May 15th It was very showery this morning, rain & snow, but cleared off about noon and was very pleasant this afternoon. David & James were setting strawberry plants this afternoon. Celia pulled some rhubarb this afternoon & stewed for tea. R. A. W.

Friday May 16th It has been quite pleasant again today, a little showery. David & James have been setting more strawberry plants today. David & Celia went down to Mary Ann W's. this evening & got a lot of flower roots, it was quite late when they got home.

Saturday May 17th It has been another lovely day. I went down stairs today. Celia has been out all the evening setting out the roots she got last evening. It is ten o'clock I must go to bed.

Sunday May 18th It has been another lovely day. David & the boys went to Kingston church this morning after Sunday school. Charlotte came up this morning, walked & hauled Rolla in his little waggon. Richard came up in the afternoon to service & brought the other children with him.

Monday May 19th It has been a cold showery day. Cassie washed & had to put the clothes in soak it rained and blew so hard. David has been setting more strawberry plants. Celia has been to work in the garden all the evening again.

Tuesday May 20th It has been quite showery again today, but not as cold as yesterday. We got our clothes dry today. Celia went over the river with James this evening.

Wednesday May 21st It has been a lovely day, heavy wind from the south this afternoon, moved my rosebushes & put them in flower garden this morning. David planted some more peas today & planted a bed of cucumber in old garden in front of house, he also planted some beans. Celia went to St. John this morning. It is Lodge night, Cassie has gone to lodge. Sent some rhubarb to town today. 46 lbs.

Thursday May 22nd The wind blew quite heavy from south and looked like rain all the forenoon, did rain a little after dinner. Celia got back from St. John this morning. Mrs. Pentreath from England arrived this morning, came up with Celia, she did not know her.

Friday May 23rd It was quite dull & foggy this morning but was warm & pleasant in the afternoon. The children have been getting brush & making preparations for a bonfire for tomorrow. David finished setting his strawberry plants this evening. Planted a few sugar peas below flower garden.

Saturday May 24th It has been very foggy today. Kate Bruce came up from St. John today and is going to stay until Monday. We had a very heavy thunder shower about tea time, the first one this year. Mr. Matthews yacht was upset near Rothesay in the squall. David put in some carrot seeds today.

Sunday May 25th It has been very warm today. George Pickett took Kate to Kingston this afternoon. David did not go to church. Pa & Ormond were here. David & Ormond went down to see Mrs. Pentreath this afternoon.

Monday May 26th It has been a lovely day, very warm, we got our washing done today. Had an invitation to attend the wedding at Fred Flewelling's this evening. Celia went. David or I did not go but sent a piece of tin. Kate went to St. John this morning.

Tuesday May 27th 1873 It has been a lovely day again. We have been very busy today. I am quite tired to night.

May 1st 1874 Friday² I have not written any for nearly a year. Thought I would try again. It has been very cold today for the time of year, seems more like 1st of April.

The Old Road to Clifton. (Source: Mr. Eldon Pitt, Reeds Point, N.B.)

Last week planted tomato seed in a box & set out my dahlia bulbs. A week ago today J. E. W. had his examination. I was over a little while in the afternoon. Last Sunday we had quite a snow storm. David & Uncle Robert tore the old barn down, it looks a great deal better without it.

Saturday May 2nd It is quite pleasant today, but cold. David began uncovering his strawberries today & also uncovered the flower garden in front of the house. The tulips, crocuses & snowdrops are all up nicely. R. A. W.

Sunday May 3rd It has been showery today. Service in the hall this afternoon, but did not get there, quite a heavy shower just as church was out, cleared off quite warm. I ran up home a little while, Pa & Aunt Charlotte were there alone.

Monday May 4th It has been a lovely day, seems quite like spring. This is Annie's wedding day. I thought I would go take tea with her but she went up to Pa's this afternoon. I washed today. Got ready to go up the hill this evening and Ormond & Ernest came in so I did not go. They had some more bonfires to night.

Tuesday May 5th Very pleasant again today. David made a large wheelbarrow for wheeling off the brush. He says it works nicely. I was up the hill this evening & got some dishes from Aunt Charlotte, came home and found Mrs. & Mr. D. J. Wetmore here, did not get to bed until after eleven.

Wed. May 6th It was very fine again today. Celia came over today to do some sewing for me. I have been clearing out one of the back bedrooms today getting ready to paper. Had some splendid bonfires this evening.

Thursday evening May 7th A lovely day again. Mrs. Justus Wetmore came down & helped me paper the bedroom. I am going to take it for mine & give my room to Pa. He is coming to stop with me awhile. This is Addie's birthday. 1 year old. I had a letter from Bel today, she has been very sick. The doctor has been tending her for 2 weeks. I am afraid she will not be able to come and help me. Ern was in and bid us Good Bye tonight.

Friday May 8th A nice day again. I have been cleaning my bedroom today. Charlotte was in a little while this morning with baby, she came up yesterday. David finished uncovering strawberries today & took up some raspberries, he went to St. John just before dinner, did not get back tonight. Celia went home tonight, expects to go to St. John in the morning.

Sat. May 9th Very pleasant morning again, very heavy southerly wind this afternoon & rained a little. Mrs. Wetter helped me paper another bedroom today. David came home about noon. This is his birthday. Marion came up this afternoon. I have been very busy today, did not get to bed until 12 o'clock. Mrs. James Patterson was here to tea.

Sunday May 10th It has been very pleasant today but quite cold. I was over to Gussie & Annie's a little while this afternoon. David & Gennie [Genevieve] were to the hall to service to night. Richard was up to tea tonight. It is after 9 and I must go to bed. We have not planted anything yet. R. A. W.

Monday May 11th Another lovely day. I done my washing today, got most of the clothes out before dinner. Just as I called the folks to dinner some one shouted fire. Celia has been with me nearly a week & we both rushed up the hill & helped get out what things we could. There was a good deal saved & a great deal burned. Pa & Aunt Charlotte moved down this afternoon to stay awhile with me. Pa seemed quite smart today, but pretty tired tonight.

Tuesday May 12th 1874 A splendid day, very warm, seemed like summer. This is Ormy's birthday, he has been building bonfire tonight. David finished taking up his raspberries today. It is late again tonight I must go to bed.

Wednesday May 13th Another nice day, very heavy southerly wind this afternoon. David put fence around flower garden & ploughed it today, set out quite a lot of rhubarb both sides of the garden. This is Hud's birthday. Pa & Aunt Charlotte were up the hill today & over to R. J. F.'s to dinner. Have been very busy cleaning milk room today.

Thursday May 14th It has been a lovely day again, very warm. David planted some peas & potatoes today. James & Miss Frost came in this evening to have a game of 'croquet' with Pa, he seems quite smart today. Julia Wetmore was here awhile in the evening. I must go to bed it is nearly eleven o'clock again tonight.

May 15th 1874 A nice day again. David went to Sussex this morning to examine school, came back again this evening. Hattie Brein came in this afternoon, has been playing croquet with Pa. I heard from Bel today she is better.

R. A. W.

Sat. May 16th It was quite pleasant this morning, began to rain just after dinner, was quite wet all the afternoon. David & his men set between 3 and 4000 strawberry plants today. Edith was down this evening. I have been very busy today, am very sleepy tonight.

R. A. W.

Sunday May 17th Has been dull all day, a few showers. Richard & Charlotte came in this afternoon, he & David went to church, the rest of us did not go.

Monday May 18th Was very foggy this morning, but I went to washing. Cleared off about ten & has been a delightful day. Bel came down today, she is getting quite well again. I expect her down next week to stay with me. David & Arthur set out about 4000 strawberry plants today, finished piece over to lane. Annie was over a while in the evening. Mrs. & Mr. D. J. W. were here, did not get to bed until ½ past eleven.

Tuesday May 19/74 It has been quite dull all day, rained a little, is very foggy this evening. Celia finished my dress today. James, Miss Frost & Julia were here this evening playing croquet. I done most part of my ironing this evening. David & Arthur set out 2000 strawberry plants for Pa today.

Wed. May 20th It has been a lovely day again. David set out about 1000 more plants today where we had flower garden last summer. Pa went away down Milkish with Hud this afternoon, got tired coming home. Uncle Merritt & Aunt Maggie were here to tea. It is eleven o'clock I must go to bed.

Thursday May 21st It has been a nice day again. Had a little shower of rain about 5. David & I were out setting out flower roots in garden in front of house. Got seeds from Vick today. Henry & Arthur planted piece potatoes at D. W.'s today. Pa started for F'ton this morning. Planted flower seeds in boxes in house.

Friday May 22nd It has been quite dull all day & cold. David has been working some in garden today. I cleaned dish closet in kitchen today. Lottie & Ed were here this afternoon & had a game of croquet. It is late again tonight.

Sat. May 23rd It has been a lovely day again. I have been very busy all day. David finished clearing up garden today, it looks very nice. One bed of tulips (Due van Throp) are in full bloom. They are splendid. It is 12 o'clock I must go to bed.

Sunday May 24th It has been a charming day. This afternoon I took the horse & drove down to Charlotte's with Louise and Addie, Celia was down there & came back with me, we called in to see Aunt Phebe, she is quite poorly. Henry W. had his boy christened tonight - E.P. It is a lovely moonlight night.

Monday May 25th It was quite pleasant this morning, rained a little about 5 o'clock. Aunt Charlotte done her washing today, got her clothes dry. David planted his corn, beans, pumpkins, squashes today. Aunt Charlotte & I went over to Annie's a little while, she & Carrie were in the garden to work. I planted a few more flower seeds in garden. Aunt Maggie & Uncle Merritt were here this evening. It is nearly 12 o'clock. The boys had quite a bonfire tonight to celebrate the Queen's birthday.

Tuesday May 26th It has been dull & foggy all day. David has been tying up some of his blackberries today. Aunt Charlotte has not got back yet.

Wed. May 27th It was foggy this morning, but cleared off lovely about ten. I did my washing, got all my clothes dry, had several callers today.

Thursday May 28th It has been a lovely day again. Pa got home from F'ton today. I have been ironing this evening, am quite tired. How & Annie were here playing croquet, it is after ten, I must go to bed. I pulled some rhubarb today for the first, a fortnight later than last year. Pa got back from F'ton this afternoon.

The Union Agricultural Society

MINUTE AND ACCOUNT BOOK

1882-1907

The agricultural fair. (Source: Kings County Museum, Hampton, N.B.)

The Agricultural Society minute and account book is a hardcover, hand-sewn volume with a leather spine measuring 14 in. x 8½ in. The pages are edged in gold, and the cover has a three-colour effect (black/brown on cream). The following is written in pencil on the inside cover:

May 1889 address for Reid's superphosphate 'Thos. Reid Box 436 St John, N.B.

The remains of a piece of paper are stuck to this area.

Union Agricultural Society book. (Source: John Fisher Memorial Museum, Kingston, N.B.)

There seem to be several pages missing at the beginning of the book, which starts at No. 9 of a list of farm fair winners. Early portions of the following list appear before a notation indicating the date, October 18, 1882. The date that applies to this initial set of winners is a matter of speculation.

3rd yearling live	\$0.75	2nd heifer 2 yrs old Native	\$1.20
2nd ram Lamb	\$1.00	paid	\$3.20

Kingston Union Agricultural Hall, c. 1882. (Source: John Fisher Memorial Museum, Kingston, N.B.)

**At a General Meeting of the
Kings County Union¹
Agricultural Society held at
the Hall,² Kingston, on
Saturday the 28th Day of
October 1882.**

The By-laws of the Society
were amended as follows:

1. That any person subscribing and paying annually the sum of one Dollar previous to the 20th Day of November and after that date the sum of one Dollar and fifty cents Shall be entitled to a membership and all privileges of the Society
2. That there shall be a General Meeting of the members of this Society in the last week of October in each and every year, at which meeting the members shall choose not less than fifteen Directors to manage and transact the business of the Society: – which Said Directors shall hold the office for one year or until others are chosen in their stead.
3. That the Directors when so chosen shall elect one of their number to be president, they shall also elect from the Body Two Vice presidents, They shall also appoint a Secretary and Treasurer from the members of the Society. The Secretary having also a voice at the board of Directors.
4. Every member shall have a vote for each director and if absent may vote by proxy provided such proxy be a member and produce a sufficient authority in writing therefore.
5. That the President, Vice Presidents and Directors shall manage and transact all the affairs of the Society but shall not proceed to business unless eight Directors be present of whom the President or one of the Vice Presidents shall be one.

6. That the secretary shall call special meetings of Directors when ordered by the President or one of the Vice Presidents or a majority of the Directors. And upon application of two thirds of the members of the Society may call a general meeting of members.
7. That the by-laws of this Society shall not be altered unless with the consent of the majority of the members.

Wm E Pickett Secretary.

At the meeting of the Kings County Union Agricultural Society held at the Hall, Kingston on the 28th Oct. 1882

The premiums awarded at their exhibition held at Springfield on the 18th inst. were paid amounting to \$89.48. Committee on preparing regulations for premium list report:

On motion the report is taken up section by section and passed as follows: -

Section 1st The Directors of the Union Agriculture Society offer the following prizes to members on field crops for the year 1884.

Greatest weight of Early Rose Potatoes from $\frac{1}{4}$ of an acre: - 1st Prize \$8.00

2nd	"	6.00
3rd	"	4.00
4th	"	3.00
5th	"	2.00

Greatest weight of Swede turnips from $\frac{1}{4}$ of an acre: - 1st Prize \$8.00

2nd	"	6.00
3rd	"	4.00
4th	"	3.00
5th	"	2.00

Greatest weight of intermediate carrots from $\frac{1}{4}$ of an acre: - 1st Prize \$8.00

2nd	"	6.00
3rd	"	4.00
4th	"	3.00
5th	"	2.00

- 2nd Competitors must notify the secretary of their intention to compete not later than July 1st when Judges will be appointed in the different sections, who will see the crops harvested and weighed.
- 3rd The charges of the judges for this, if any, will have to be borne by persons competing.
- 4th The judges will see that the turnips and carrots are properly trimmed fairly free from dirt and sound. Potatoes must be wholly sound and fairly clean but small potatoes not rejected.
- 5th The judges in measuring the land will measure from the centre between rows where the competitor requests and then take a sufficient length to give the required size.
- 6th The judges will be required to make affidavits before a magistrate to the correctness of their statements of the weight &c of crops, and must report to the Directors at the annual meeting of Society the last week in October, after which the prizes will be awarded.

- 7th Prize winners will be required, before receiving their prize, to give a statement of quality and condition of land manner and cost of cultivation, quality and kind of manure and how applied.

Committee on repairs of Hall render a short report of the work done and cost \$27.29

Report accepted

On motion the following bills were ordered to be paid: -

D P Wetmore bill for lamps, locks &c	\$10.20
S Frost " can oil, nails &c	1.94
James Waddell for boards	9.90
F W Flewelling hauling "	2.25
R W Wetmore work on Hall	3.00

Matter relating to rent of Hall taken up and following rates of charges passed.

Free for educational & religious or charitable purposes with the exception of a sufficient sum to pay for light and wood, say .50 cents when used in the evening and in cold weather.

For other purposes, when rented for the evening and used until 10 o'clock PM \$2.00

when used until after 10 o'clock PM \$2.50

" " " " 12 \$3.00

" " " " 3 AM \$3.50

All traveling shows &c to be charged at least \$3.00 even if the Hall is not used later than 10 PM

The person in charge of the Hall to get 50 cents for each time it is rented but to get nothing for meetings of the Directors & the general and special meetings of the Society.

He is to keep the Hall clean and in good order sufficient for public meetings and to keep the lamps cleaned and filled.

Committees or persons renting will have to be responsible for damage done beyond the ordinary wear and tear, and the person in charge will either have to be present or get some responsible person to act for him.

In case of doubt the person in charge to refer to officers of Society.

Hall given in charge to Horace Northrup until next annual meeting.

On motion meeting adjourned.

Meeting adjourned

W E Pickett, Secretary

In accordance with directions given by the Directors of this Society; **A Sociable tea Meeting of members of this Society – and others, was held at the Hall, Kingston, Dec. 31st 1884** at which, although traveling was not as good as expected to be, a large number were present and spent a pleasant evening.

Last fall it was proposed by some of the Directors, that seed buckwheat should be had by this society for the use of members. The President communicated with all the Directors, and made some inquiries about the grain, but being late in the Season it was deferred until Spring. When 150 Bush was bought from Victoria County of which about half was disposed of to members of Society – the rest sold at a Public Sale held at Clifton, at a small loss to Society.

Annual Meeting Oct 31st 1885 continued.

The following persons were elected officers for the ensuing year:

D P Wetmore	N E Gorham
Jos H Gorham	J W Chaloner
E H Merritt	C D Fairweather
R W Wetmore	G H Flewelling
C Brien	Justus S Wetmore
H D Wetmore	C W A Puddington
Jas Puddington	D D Northrup
John Hill	

further election: D P Wetmore . President

C D Fairweather 1st VP

Jos H Gorham 2nd VP

W E Pickett. Secretary Treasurer

Moved and seconded that no exhibition be held the coming year.

Carried unanimously

Jas E Fairweather unanimously nominated as a member of the Board of Agriculture

Moved, seconded and resolved that: – The bull (Rothsay Chief) be offered for sale at an upset price of \$15. dollars and if sold shall be kept within the bounds of this Society for 2 years, and that his services be available to members of the Society at .25 for service and to those not members the sum of \$1.00

Moved and seconded that a committee be appointed to procure Boar Pigs from (lunatic) Asylum

Carried

The bull (Rothsay Chief) was sold to O W Wetmore by auction for the sum of \$15.00 on above condition

After a long discussion in regard to purchasing Bulls the following resolution was moved by R E Wetmore and seconded.

Resolved: That this Society recognizes the propriety of encouraging thorough bred meat cattle by giving a premium on registered Bulls for actual service done, and that as soon as it's funds will permit, will endeavor to establish a system for that purpose in the following manner.

For one year from _____ this Society will pay to members who are owners or keepers of Registered Bulls 75 cents for each service rendered to cows owned by members but not by themselves under the following conditions:

1. The Bulls must be registered in the N.B.H.B.
2. A certificate of the services rendered from members having cows serviced, and also of the payment of a sum not less than 25 cents for each service must be handed in to the secretary, by the owner or keeper of the respective bulls at the end of the year, when if the statements are all correct, the premium shall be paid.
3. The certificate shall be made out on a blank form furnished by the Secretary to members and in the following manner.

I hereby certify that the Breed Bull _____ name _____ no. NBHB
has serviced _____ number _____ cows for me within the year commencing
from _____ for which services I have paid
\$ _____ name _____

_____ signature _____

Date _____

The above resolution laid over for a future meeting.*

Moved and seconded

That a committee be appointed to make inquiries as to agricultural implements and report at some future meeting of Society. Carried

E H Merritt, D D Northrup and D P Wetmore, Pres. appointed such committee

Moved and seconded and resolved

That: - This Society concern in resolutions passed by St John Agricultural Society August 27th last relating to importation of horses and Secretary notify them of such resolution.

On motion meeting adjourned

W E Pickett, Secretary

Nov. 12th 1885

**At a meeting of the Directors of the Union Agricultural Society, held at the Hall
Kingston Jan 30th 1886**

Present: D P Wetmore, President

C D Fairweather, 1 VP

J H Gorham, 2 VP

D D Northrup

J W Chaloner

Jas Puddington

W E Pickett Secretary

C W A Puddington

John Hill

N E Gorham

G H Fairweather Esq

Appreciation from knitting circle to have use of Hall free for entertainment

No action taken

Moved and seconded that Mr Hill take charge of Hall for one year under rules laid down by Society, excepting that he is not supposed to attend to the lamps.

Carried

Question of stock taken up. Moved and sec. that a comm. be appointed to ascertain if an Ayrshire Bull can be purchased reasonable rate and if so to purchase.

Carried

Moved and sec. that N E Gorham Esq be such comm.

Carried

Moved and sec. that if in M^r Gorham's travels he should find that two bulls could be advantageously purchased that he should communicate with the President and Secretary & that they together should have power to purchase.

Carried

Agricultural implements Moved and sec. that two side hill plows be purchased to be placed one in upper and one in lower end of district to be let to members of Society under conditions to be named.

Moved and sec. that one of the horse hoes and one of the Planet Junior horse hoe be purchased for use of members of this Society.

Carried

According to the Farmer's Advocate advertisement, "the new Planet Jr hollow steel standard horse hoe, has no equal in the world". There is one in the collection of the John Fisher Memorial Museum. (Source: John Fisher Memorial Museum, Kingston, N.B.)

Potato planter. "If ordinary care is used in sorting the seed so as to have them nearly one size and not too small, the machine will plant them almost perfect." Or so the literature said! (Source: John Fisher Memorial Museum, Kingston, N.B.)

Moved and Sec. that a committee be appointed to inquire as to desirability of purchasing a potato planter.

Carried

Moved. President appointed such comm. and see that a comm. be appointed to inquire into cost &c of chemical manure.

Carried

President appointing comm.

On motion to adjourn

W E Pickett, Secr.

1886 Feb 9th Committee appointed at last meeting of Directors to purchase an Ayrshire Bull (N E Gorham Esq.) attended to that duty and purchased the Bull Rob Roy, McGregor No 232 NBHB from Myles H Fowler Esq. for the sum of \$40.00, expenses to Kingston \$2.00. Bull was advertised for sale this day at Kingston. And was sold to John W Chaloner for the sum of \$20.50 to be kept within the limits of the Society until August 1887 available to members at .25 cents each service to others not less than .50 cents. It was decided to purchase another Ayrshire Bull Muldoon #226 NBNB for \$38.00. He was sold to N E Gorham for the sum of \$18 to be kept for one year on same condition as the other. The bull was delivered here by M^r Fowler Feb 10th and taken by M^r Gorham on the 11th.

Society's note given to Myles H Fowler for \$38 payable in six months

Kingston Oct 30th 1886

Meeting of the Directors of the Union Agricultural Society at 9:30 A.M. one and one half hours before the general annual meeting for the closing business of the year.

Directors present: D P Wetmore, Pres.

Justus Wetmore

D D Northrup

J W Chaloner

Jos H Gorham (late)

John Hill

W W Wetmore

C W A Puddington

N E Gorham

C D Fairweather

Cunningham Brien

James W Puddington

Minutes of last meeting read and approved.

Moved that action of the President in the purchase of additional implements & placing in charge of Justus S Wetmore, E P Fullerton and D P Wetmore be confirmed.

Carried

The implements purchased were one side hill plow (one horse) placed in charge of J S Wetmore, one Planet jr. cultivator placed in charge of E P Fullerton & one Planet jr. cultivator placed in charge of D P Wetmore.

Moved that the action of the President in purchasing two boar pigs to be sold at this meeting be confirmed.

Carried

(the two boar pigs were purchased for \$16.50)

Moved that M^r Hill's report on rent of the Hall be accepted. Carried

Rents received \$5.50 less expenses \$2.50 net \$3.00

Resolved that John Hill's bill of \$1.50 for keep of bull last year be paid.

Moved that the action of the President in purchasing additional superphosphate for use of Society last summer to be sold at cost & charges as confirmed. Carried

Moved that the action of the President in purchasing 10 tons of heavy feed to be sold at costs & charges to members be confirmed. Carried

The purchases by the President of Implements, superphosphate & heavy feed & boar pigs referred to above & confirmed were made at the request of a number of Directors without calling a regular meeting of directors in order to save the expense of such meeting.

Moved that Samuel Foster's bill for oil for the use at the Hall be paid.
Carried amount of bill \$1.34

Moved that James E Fairweather be nominated as a member of the Board of Agriculture for district #2 by this Society for the ensuing year.
Carried unanimously

John W Chaloner reported the Diamond Point Cultivator purchased last summer was changed for a Planet jr. afterwards because when the members saw the planet Jr. it was thought to be the best cultivator.

The implements now owned by the Society & placed at different points for the use of members on hire are as follows: -

Implements	by whom kept	rent per day	cost of
1 Syracuse side hill plough	J W Chaloner	\$.10	\$13.15
1 " " " "	C W A Puddington	.10	13.15
1 " " " "	J S Wetmore	.10	9.15
1 planet jr. cultivator	J W Chaloner	.10	10.65
1 " " " "	D P Wetmore	.10	10.65
roller cover & masker for do	D P Wetmore		8.50
1 " " " "	C W A Puddington	.10	10.65
1 " " " "	E P Fullerton	.10	10.65
1 two horse hoe	J S Wetmore	.10	7.15
	total cost		93.70

Reports of those having charge of Implements.

J W Chaloner received for use of cultivator	.82,	for use of plough	1.55	total	2.37
C W A Puddington " " " "	cultivator	.06,	" " " plough	.95	" 1.01
J S Wetmore " " "	horse hoe	.00,	" " " plough	.30	" .30
D P Wetmore " "	cultivator	.66,			" .60
E P Fullerton " "	cultivator	.00			.00
					\$4.34

E P Fullerton reported that he had received the cultivator so late that it had been let very little & that there was a little due on it but he had not received it yet. The member who had it before he did (Walker Long) had made him no return & at present was away from home. The amount of \$4.34 was paid into the Society by the members who had charge of the implements.

The president reported that he had purchased 10652 lbs of the **Reeds superphosphate** at \$38.00 per ton and 3481 lbs of the cumberland superphosphate at \$42.50 per ton for a cost of \$279.34 all of which had been sold to the members at cost & charges. The President also reported that he had purchased 10 tons & 20 lbs of the heavy feed from C H Peters, 5 tons & 20 lbs for 93.59 including expenses & 5 tons for 103.92 including expenses. All of which was sold to members at cost & charges. The boar pigs sold at auction on six months time with approved security to the following persons. Chas Piers one at \$11.25 Ed Peters one at \$7.00

General meeting opened at 11 A.M. when the following persons became members.

Directors were elected as follows:

D P Wetmore (100 votes)	R W Wetmore (96 votes)
E H Merritt (95 votes)	Cunningham Brien (88)
Henry Redmore (86)	James I Brien (98)
J W Puddington (50)	E P Fullerton (93)
Albert White (86)	E Gorham (99)
Wm Hazen (88)	John Hill (100)
D D Northrup (49)	John Chaloner (91)
C D Fairweather (95)	Robert Godfrey (66)
Lee Nutter (86)	Chas Scribner (56)
Edwin Peters (91)	J B Flewelling (85)

On motion resolved that the Society hold a Sociable at Clifton during the coming year President & secr. be a committee to arrange a time &c for Sociable.

On motion resolved that there be no exhibition this coming year.

C D Fairweather was elected President
Edwin Peters 1st Vice President
R W Wetmore 2nd Vice President
D P Wetmore Secretary Treasurer

Resolved that a fanning mill be purchased and placed in the lower Midland district on hire to the members.

Fanning mill, as advertised in the Farmer's Advocate of 1885: "with a capacity of 80-90 bushels per hour, each mill for separating oats from grain does a thoroughly first class job that any farmer or grain dealer will be pleased with." (Source: John Fisher Memorial Museum, Kingston, N.B.)

Resolved unanimously that thanks of this Society be tendered to our late secretary Wm E Pickett for his faithful services while secretary of this society and that the Society deeply sympathizes with him in his affliction trusting that he may soon be restored to his late good health.

Resolved that the meeting adjourn

D P Wetmore Sec.

Clifton Nov 13 1886

At a meeting of the Directors of the Union Agricultural Society in Clifton Hall called by the President for general business the following Directors were present:

C D Fairweather, President
D P Wetmore, sec. tres.
J W Chaloner
P Fullerton
Henry Redmore
Cunningham Brien

R Wetmore, Vice President
D D Northrup
John Hill
J B Flewelling
James J Brien

The President stated that a bull was asked for by a certain section of the Society & on account of this & some other matters he had called the meeting.

Received from E P Fullerton .30 cents, here received for the cultivator in his charge.

On motion resolved that the Society purchase a thoroughbred Ayrshire Bull if one can be found at a reasonable rate.

Resolved that if one can be purchased, the president be authorized to have it sold at auction to be kept in the limits of the Society. On motion resolved that a boar pig be purchased & sold to be kept in the limits of the Society, this is if a pig can be found at a reasonable rate (sale to take place at J B Flewellings)

A petition from Clifton was presented asking that a fanning mill be provided for the use of the members at Clifton & vicinity on hire. (petition signed by 14 members).
Res. that the [?] of the petition be complied with.

Res. that a cultivator be placed on Long Island for hire by members.

On motion resolved that a Hay Cutter be purchased to be placed in the upper end of the territory of the Society

Moved and seconded that a hay cutter be placed at Moss Glen.

On motion resolved that Rev D I Wetmore bill for printing form of agreement for members having charge of implements be paid. Amount of bill \$1.00

Resolved that the President and Secretary be a committee to take into consideration the purchasing of implements by the Society, and arrange to procure and place the same as near as may be to suit the wants of the members in proportion to the state of the funds of the Society, and the number and claims of the members in the several sections, desiring the same.

Resolved that the secr. & J W Chaloner be a committee to purchase the Ayrshire bull & boar pig.

Resolved that the secr. be authorized to arrange rates on implements & to have printed a list of these changes with conditions of care required to be given the implements, for distribution amongst the members.

Resolved that the president & secretary be a committee to carry out the Sociable with power to add to their [?]

Resolved that the Hay Cutter for the upper district be placed in charge of
J M Chaloner

On motion meeting adjourned D P Wetmore secr.

**Meeting of the Directors of the Union Agricultural Society at Kingston Feb 18 1888
(at Samuel Foster's)**

By some misunderstanding the key of the Agricultural Hall was not in the neighborhood, being held by some parties who were using it for a singing school room & the meeting was held at Saml. Foster's. There was some discussion concerning the right of allowing the use of the Hall for a singing school but no definite action was taken.*

On motion resolved that material of 25 tons of chemical manure be imported.

On motion resolved that the manure when mixed be sold at public auction.

On motion resolved that the Secr. Treasurer be a committee to purchase chemicals.

On motion meeting adjourned to meet again at Clifton Hall on the evening of March 3rd at 7 o'clock.

D P Wetmore

Meeting of Directors of the Union Agricultural Society at Clifton on the evening of March 3rd.

Present: R W Wetmore, vice president, Hedley V Dickson, vice president, D P Wetmore sec. treasurer, H D Wetmore, Cunningham Brien, N E Gorham, E H Merritt, Jos H Gorham.

On motion resolved that a committee of five be appointed to ascertain the advisability of holding an exhibition this year & if for desirable to have another meeting of the directors called. The vice pres. appointed: E H Merritt, J H Gorham, Hedley V Dickson, D P Wetmore, N E Gorham.

On motion meeting adjourned.

D P Wetmore

Meeting of the Directors of the Union Ag Society April 25 1888 in the Hall at Kingston.

Ordered that the fertilizer be sold at the following upset prices: -

Potash mixed by the society	cost	\$44.00	upset price	\$40.00
Grass & Grain " "	cost	42.00	" "	37.00
fruit & vine " "		38.00	" "	34.00

Meeting of the Union Ag. Society at Kingston, Sept 29, 1888, called by the president.

On motion resolved that this society send two delegates to the Gov. stock sale.

On motion resolved that the society pay each delegate \$3.00 toward his expenses in attending sale.

On motion resolved that the delegates be D P Wetmore & John W Chaloner.

On motion resolve that a public sale of the implements belonging to the society on Saturday evening the 13th inst at 7 o'clock, also that a public meeting be called at that time for the purpose of organizing a new society.

On motion the meeting adjourned.

DP Wetmore

Meeting of Directors of the Union Ag Society at Kingston, Oct 13th 1888

(8 present) Decided to take the bull calf purchased by Hon G H Flewelling at Fredericton. No 4 sold by the Government. Also the boar pig purchased by the secr. from J E Fairweather for \$12.00 & \$1.50 for bringing him to Kingston. Bull to be kept for 1 year in district no 23, charge to members .25 cents others \$1.00. Boar pig to be kept till June 1889 charge to members .50 cents others \$1.00

DP Wetmore

This was not a meeting called of the directors but 8 of them together at the time & decided to take their animals

DPW

Terms 6 months audit

Side hill plow sold Capt. Shampier (pd)	\$ 7.76	
Fanning Mill & separator held by society at upset price		\$16.00
afterward taken by DP Wetmore		
Potato Planter held by Society at upset price	\$60.00	
Ayrshire bull bought by David Jones (note)		\$ 7.50
boar pig sold to E H Merritt (pd)		\$ 7.76

[The following is in very small script at the bottom of the page, and may add to the story just by the size of the script.]

After sale a public meeting was held for the purpose of organizing a new Agr. Society under the new [?] E H Merritt who had acted as chairman of the Directors in the absence of the president took the chair & the sec. of the old society acted as sect. It was suggested that the old officers act as previous officers till society was formed. After discussion many joined [?] in all. It was resolved that if found profitable members wishing it [?] with the county [?] at \$1.00 per year. Also that steps be taken towards nucleus of a library. DPW sec.

The Annual meeting of the Ag. Society for district 23 was held in the Hall at Kingston on Saturday the 22nd December 1888. Meeting called to order by the provisional president C D Fairweather Esq.

Election of Directors then took place & resulted as follows:

D P Wetmore	R W Wetmore	J S Wetmore
A B White	E P Fullerton	Henry Redmore
Wm Haslett jr	Norman Puddington	E H Merritt
R C Williams	N E Gorham	Jos H Gorham
Lee Nutter	John Ganong	Geo G Erb
Hezekiah Scribner	Edwin J Peters	C D Fairweather
D D Northrup	John Hill	Hedley V Dickson
Jacob Cosman		

It was previously resolved that there be not less than 20 Directors with a proviso that two allowed from Kars if a sufficient number of people there joined.

On motion resolved that the offer of the Provincial Farmers association of a lecturer be accepted provided an evening meeting be held.

On motion resolved that the society pay the entrance fee of delegates to the Provincial Farmers Association.

On motion resolved that members requiring it be furnished by the society with the Country Gentleman^r at \$1.00 per annum

At a Directors meeting the following were elected officers: -

D D Northrup, president
R W Wetmore, 1st vice
H V Dickson, 2nd vice
D P Wetmore, secr-treasurer

The last president or President of the Union Ag Society was nominated but declined.

D P Wetmore

Before the meeting proceeded & business the secr. explained that the new society was not yet incorporated but it was advised by the Secr. For Agriculture to go on with the election of officers & have them confirm or reject when the society was incorporated. On motion it was resolved to proceed with the election with that understanding.

D P Wetmore, secr.

Directors who will find out what fertilizers are required and will look after the sale of implements:

Rob. Williams	Long Reach
Jacob Cosman, D D Northrup	Kingston
A B White	Midland
Wm Haslett	Whitehead
Edwin Peters, Hezekiah Scribner	Upper Midland
E H Merritt	Moss Glen
John F Ganong, Geo G Erb	Long Point
D P Wetmore	Clifton & Rothesay
W Lee Nutter	Urquaharts
Hedley V Dickson	The Neck
Jas W Toole, Miles G Jenkins	Kars

**Meeting of the directors of the Agricultural Society for District No 23 at Clifton Hall
Jan 12 1889**

Present D D Northrup, president
R W Wetmore, 1st vice president
D P Wetmore, secretary & treasurer

J S Wetmore, A B White, E P Fullerton, Wm Haslett jr, Norman Puddington, E H Merritt, R C Williams, N E Gorham, Jacob Cosman, Edwin J Peters esq.

Minutes of the annual meeting read and minutes of Directors meeting at Kingston read & confirmed. Discussion as to whether an exhibition should be held without result. On motion resolved that there be a committee appointed to import fertilizers as found required by members, after enquiry is made through the Directors. The president appointed the sec. D P Wetmore, R W Wetmore & Jacob Cosman as above committee.

On motion resolved that \$30.00 be expended in the purchase of agricultural books as the nucleus of the library. Res. that R W Wetmore be a committee on the purchasing of books.

On motion resolved that Jas W Toole & Miles G Jenkins of Kars be added to the list of Directors. This was done on the strength of a resolution passed at the annual meeting providing that two directors be allowed from Kars if the people joined from that vicinity.

On motion that E J Peters esq., D P Wetmore, Jacob Cosman, E H Merritt & N E Gorham be delegates to the Provincial Farmers Association at F'ton on the 16th 17 & 18 of January inst. all the above appointed delegates, but one, stated previous to their appointment that they did not expect to be able to be present at F'ton. Bill presented by the secr. for \$5.00 paid the secr. of the Prov. Farmers Association for lecture at Clifton be Hon Q A Gilbert. On motion resolved that the Hall be paid.

On motion the meeting adjourned

D P Wetmore, secr.

The lecture on institute held at Clifton under the auspices of the Provincial Farmers Association was eminently successful there being between one & two hundred people present. The subjects treated were silage and dairying.

D P Wetmore

Kingston April 27 1889

General meeting of the Ag. Society for District 23 for the purpose of deciding whether actions taken at meetings before the Society was incorporated be confirmed. On motion Capt. Shampier took the chair. On motion resolved that the meeting held before the incorporation of the Society on Dec. 22 1888 be accepted as the annual meeting of the Society & the actions at that meeting be hereby accepted & confirmed. On motion meeting adjourned sine die

signed Raymond [?] [sec]

Directors of the Union Agricultural Society

Met at Clifton Hall Nov 23 1889 for closing up the business of society. H G H Flewelling & H V Dickson had been appointed auditors by the president & they reported that they had examined the acct. & found them satisfactory. There was still owed to the society by members \$164.12 on acct of fertilizers & the sec. had overpaid \$142.14

After some discussion it was resolved that a committee be appointed with the sec. to assist in settling up the account of Society & to deed the Hall at Kingston to the

new society if it is formed, that it can be done legally.

On motion resolved that D D Northrup, D P Wetmore & R W Wetmore be the committee.

On motion the board of directors adjourned.

Agricultural Society for District No 23 Annual Meeting, Clifton Hall Nov. 23 1889

Auditor's report read showing a balance in the Society's hands of \$19.57, a balance owing to Jardine & Co by the Society of \$528.11 & a balance due the Society on fertilizer & implements &c in acct. & notes \$588.23, leaving a balance to the credit on the Society when all accts were paid of \$42.36. On motion resolved that the auditors acct. be received.

On motion resolved that we proceed to the election of Directors for 1890. On motion resolved that a committee of three be appointed to nominate Directors. D P Wetmore, Capt. Shampier & R C Williams appointed committee.

Directors were then nominated and elected as follows: -

D P Wetmore, R W Wetmore, A B White, Henry Redmore, Norman Puddington, E H Merritt, R C Williams, Jos H Gorham, Geo G Erb, Hezekiah Scribner, Edwin J Peters, Danl. D Northrup, Hedley V Dickson, Capt. W Shampier, Miles G Jenkins.

C D Fairweather, Chas Scribner, Jas W Toole

Moved and seconded that there be an exhibition this year. Moved as an amendment that a portion of the funds be saved this year for an exhibition next year, but that there be no exhibition this year. Amendment carried unanimously.

On motion that the Hon G H Flewelling be auditor of secr. Treasurer's acct. It was decided to purchase fertilizer or raw material for fertilizer.

On motion adjourned.

Meeting of Directors of Agricultural Society for No 23 immediately after ann. meeting.

Present: - D P Wetmore, Henry Redmore, R C Williams, Jos H Gorham, Geo G Erb, Hezekiah Scribner, D D Northrup, Capt. Wm Shampier & Chas Scribner

Officers for the ensuing year were elected as follows: -

R C Williams, President
Edwin J Peters, 1st Vice President
D D Northrup, 2nd Vice President
D P Wetmore, secretary treasurer

On motion resolved that the bills for repairs on the Agricultural Hall at Kingston, D D Northrup \$9.30, Horace Northrup \$2.00 & R W Wetmore \$1.40 be paid.

On motion resolved that the country gentleman^m be supplied to members at the same rate as last year. (\$1.00) per [?] the society paying the difference to editions.

On motion resolved that D P Wetmore, R C Williams & Jos H Gorham be a committee to arrange for the purchase of fertilizer & also to arrange for distribution to members.

On motion meeting adjourned

D P Wetmore, secr.

**Agricultural Society for District No 23 Annual Meeting at Kingston Hall
Nov. 29th 1890**

Meeting was opened by the President. On motion resolved that O W Wetmore act as secretary 'pro tem'.

Secr. then read an estimated report of the expenditures and receipts of the Society for 1890. The report was not exact as the Secr. was unable to get it ready on account of sickness.¹¹

On motion resolved that the report be received and that it stand until the Secr. was interviewed or until he returned from Boston. About forty names were handed in for forming a new Society and Captain Champier proposed that the members present at the meeting should take the responsibility of securing the remaining membership equally. (that is to make up the amounts required when needed). The following members signified their willingness.

Captain Champier, D D Northrup, W Lee Nutter, R C Williams, Joseph Gorham, O W Wetmore, John Frost, G H Flewelling, R W Wetmore, H Scribner.

On motion resolved that we elect directors for the ensuing year.

On motion resolved that last years directors be continued and that some new ones be added. On motion resolved that John Frost become a director.

On motion resolved that Geo Bates of Springfield become a director.

On motion resolved that N E Gorham become a director.

On motion resolved that Cunningham Brien become a director.

Meeting adjourned.

O W Wetmore, acting secr.

Kingston, c. 1890. (Source: John Fisher Memorial Museum, Kingston, N.B.)

Meeting of Directors of New Society after the other meeting Nov. 29 1890

On motion resolved that we elect officers for ensuing year.

On motion resolved that R C Williams be President

On motion resolved that D D Northrup be Vice president.

On motion resolved that E J Peters be 2nd vice

On motion resolved that O W Wetmore be secr. Treas.

On motion resolved that we have an exhibition next year and that definite action be taken at our next meeting.

On motion resolved that the paper 'Country Gentleman' be furnished the members at the same rate as last year.

On motion resolved that we adjourn to meet again at notice by the Pres. W Wetmore

Directors for 1891 then stand as follows: -

D P Wetmore, Clifton
Norman Puddington, Moss Glen
A B White, White's Mills
R C Williams, Long Reach
Geo G Erb, Scribner PO
Edwin J Peters, Elmhurst
Hedley V Dickson, Nawwigewauk
John Frost, Hampton
N E Gorham, Long Reach

R W Wetmore, Clifton
E H Merritt, Moss Glen
Henry Redmore, Whitehead
Jos H Gorham, Greys Mills
Hezekiah Scribner, Scribner PO
Danl. D Northrup, Kingston
Capt. Champier, Kingston
Cunningham Brien, Moss Glen

Meeting of Directors of Agricultural Society for Dist. No 23 held at Clifton

Jan 15th 1891

Meeting opened as usual by President, there were present:

J H Gorham
A B White
Capt. Champier
R W Wetmore

D D Northrup
N N Puddington
R C Williams
John Frost

The members then had considerable discussion in regard to chemical fertilizer and after some deliberation decided that it was better as a general rule to use the raw material and mix it here than to use Carritte (ready mixed).

On motion resolved that the minutes of last meeting be received and placed on fyle. The Secr. then read the Secr. Treas report of transactions 1890 (corrected) and it was resolved that it be received and placed in the auditors hands.

On motion resolved that a committee be appointed to prepare a premium list for the exhibition in the fall 1891.

The president then appointed Capt. Champier, Joseph Gorham, R W Wetmore. On motion resolved that a Comm. of three be appointed to see about purchasing fertilizers and to arrange as to quantity &c.

On motion resolved that the Pres. be one of the comm. and also Capt. Champier and the Secr.

The Secr. then read a statement of amounts due the Society from 1890 and account with treasurer.

On motion resolved that the Old Union Agr Society accounts be placed in a magistrates hands for collection.

On motion resolved that we adjourn.

O W Wetmore, secr.

Meeting of Directors of Agricultural Society held at Kingston March 13th 1891
Opened by President as usual, minutes were read and confirmed.

The comm. on fertilizer reported that they had purchased raw material enough to mix 20 tons of fertilizer and that it was a shade cheaper than last year. The report was agreeable to the directors. There was considerable discussion as to the best way of using the chemicals.

The comm. appointed to arrange prize lists for the exhibition then reported that they had arranged a list to the best of their judgment. It was then read by sections and the changes from other years explained. It was agreed to with some slight change, especially on regard to butter.

On motion resolved that a committee be appointed to arrange for ground for the exhibition of cattle and horses and to arrange a place for tying them to.

Pres. appointed Joseph H Gorham, D D Northrup, W Lee Nutter.

On motion resolved that delegates be appointed to attend the Prov. Farmers Assn. R W Wetmore, John Frost, Capt. Champier, Joseph Gorham, O W Wetmore are appointed.

On motion resolved that the expenses of O W Wetmore be paid by the society if he would attend.

On motion resolved that an arrangement be made with W F Burditt & Co about getting implements as in other years.

On motion resolved that we adjourn.

O W Wetmore,

Secr.Directors present at meeting March 13 1891:

E J Peters
N W Puddington
Capt. Champier
D D Northrup
R C Williams

W Lee Nutter
Joseph Gorham
R W Wetmore
O W Wetmore

Agricultural Hall at Kingston & lot	
cost price including expenses	\$250.00
present value	\$300.00

**Meeting of the directors of the Ag Society for No 23 in the Hall at Clifton
June 8th 1891**

W Wetmore's resignation as sec. was accepted, he being absent in a foreign country. After some discussion D P Wetmore was elected as sec. He to send an assistant if he could not attend meetings. Mr D P Wetmore stated that he had taken it upon himself to order 3 bbl of superphosphate (Reid's) & had also ordered some ammonia & potash from Prov. Chem Co. to even up lots. Agreed to by meeting.

The President stated that he had loan of \$300.00 from Mrs. Cosman to pay Prov. Chem. Co. on May 1st. After some discussion concerning premium list the secr. was directed to write secr of Agriculture & ask why it was delegated in F'ton. Directors present at this meeting:

R C Williams, President, R W Wetmore, N V Dickson, E J Peters, D D Northrup, D P Wetmore, Jos H Gorham, Norman Puddington, Capt. Shamper

On motion resolved that a comm. be appointed to make a selection of Judges for exhibition. On motion resolved that the president be one of this committee. The pres. then appointed Capt. Shamper, Jos H Gorham with the pres. R C Williams

On motion moved and seconded that the time of the exhibition be the Wednesday nearest the 10th of Oct. Moved as an amendment that the time be left to the president & secretary. On motion resolved that the grounds comm. be authorized to put the grounds & Hall in order for exhibition. On motion resolved that a comm. of

management of exhibition be appointed. Pres. appointed R W Wetmore, Hedley Dixon, E J Peters for inside of hall & Capt. Shamber, Norman Puddington & D D Wetmore for management of outside, with power to help needed. On motion resolved that the pres. & secr. patch up any odds & ends that are necessary.

Meeting adjourned

David Pickett Wetmore, sec.

Meeting of Directors of Ag Society at Kingston Sept. 19th 1891

Mr Upham [?] through N V Dixon that the fertilizer that was sent was unmixed & that not knowing this circumstance he used the fertilizer as it came & got no result. On motion the society accepted [?] in payment for the amount \$18.86.

Minutes of last meeting read & approved.

After considerable discussion a number of persons were named for Judges at the exhibition & the secr was requested to write them.

Thorough bred cattle, swine	S S Hall & A C Fairweather (except on Jerseys)
steers	Daniel McDougall
Grade Cattle	Miles N Fowler, Grooms Cove Hampton
Sheep	Miles N Fowler & Daniel McDougall
Horses	J B Hamm, St John & Mr Manchester vet surgeon St John (could not come)
Agricultural Produce	S L Peters, Queenstown
Hort. Produce	W N Sterritt, Greys Mills
Dairy Produce	W H Merritt (didn't) or Daniel Vanwart (accepted) 207 Charlotte St or John Armstrong of Armstrong Bros.
Woolen Articles	Miss Anabelle McDougal (accepted)
Poultry	Miss Anabelle McDougal & Mrs. Chas Whiting

After some further discussion concerning fertilizer during which the secr. was requested, by the Pres., to act as a comm. to ascertain the cheapest manner of getting the raw material, the meeting was adjourned.

DP Wetmore

Meeting of the Directors of the Agricultural Society for No 23 at Clifton Hall on Oct. 1st 1891, for the purpose of considering the question of sending a delegate to the Gov. stock sale at F^ton on Oct 7th

Present: RC Williams, president
 DD Northrup, 1st vice president
 EJ Peters, 2nd vice president
 DP Wetmore, sec & treas
 C Brien
 Norman Puddington RW Wetmore NE Gorham

On motion resolved that a delegate be sent to the stock sale at F^ton on the 7th inst.
 Moved and seconded that RW Wetmore be the delegate. Mr Wetmore stated that he could not go & the motion was withdrawn.

Moved and seconded that Edwin J Peters be the delegate. Carried

On motion resolved that the Pres. R W Wetmore, DD Northrup & Norman Puddington be a committee to purchase some stock at the exhibition if found desirable & to have it sold there.

On motion adjourned
 DP Wetmore

Directors Meeting of Ag Society No 23 held just before the annual meeting in the Hall at Clifton Dec 22 1891.

The Sec. being absent in U.S.,¹² his assistant read the minutes of the last meeting. Moved by Capt. Shamper & carried that each one present who promised to make up deficit pay .15 cents to make up \$1. & that the secr. collect the four not paid. (this practically lets the sec. pay the \$4.00 lacking D P W)

Five then paid making up .90 cents [?] Capt. Shamper, John Frost, DD Northrup, R W Williams & Jos Gorham.

Moved by J Frost seconded by Capt Shamper that the report be received & reported to the auditor: - carried

Moved by J Frost seconded by Capt Shamper that R W Wetmore be auditor: -
 Carried Bills rendered for expenses at exhibition amounted to \$16.40 were ordered
 to be paid. There were three bills, one from D D Northrup, one from Geo Chaloner
 & one from A Whelpley. Resolved that the premium list be paid as the secretary
 had it arranged, that is with 20% discount on account of the premiums drawn being
 more than the law allowed.

Adjourned
 signed M Wright
 Flewelling, assistant
 Secretary

Annual Meeting of the Agricultural Society No 23 at Clifton Hall Dec. 22 1891

Resolved that a new society be organized. (Remarks by DPW sec. A new society
 could not be organized unless there were at least 50 members & \$100 paid so
 movement was premature)

The twelve present elected Directors as follows: - DP Wetmore, NW Puddington,
 AB White, EJ Peters, HV Dickson, John Frost, RW Wetmore, H Redmore,
 EH Merritt, JH Gorham, Hezekiah Scribner, DD Northrup, Capt Shamper, C Brien,
 RC Williams, Geo Erb, SL Lamb, Chas Foster, HD Wetmore, Lee Nutter, & JO Dann.

On motion resolved that the country gentleman be furnished members at \$1. Per
 ann as previous the society losing the balance.

On motion resolved that the committee on fertilizer be RC Williams, HV Dickson,
 Capt Shamper & DP Wetmore.

On motion resolved that the committee on stock be John Frost, E H Merritt &
 Jos Gorham.

On motion meeting adjourned
 assistant secretary

sign M Wright Flewelling.

At a meeting of the new directors same date as above, the following officers were
 elected, RC Williams, president, Capt Shamper 1st vice president, Chas Foster 2nd
 vice president, DP Wetmore sec & treas.

Sign M Wright Flewelling,
 assistant secretary

(As the work at the annual meeting would not be valid because the society was not
 organized according to law, it would be well when the society is fully organized to
 either confirm the above business or do it over anew. If this were not done it might
 make trouble if we attempt to collect debts by law DPW)

Annual Meeting Agricultural Society No 23 (continued from last fall)

After a good deal of discussion the Society was organized by there being \$100. raised or guaranteed & more than 50 names.

On motion resolved that the work done on Dec 22 1891 when it was attempted to organize a Society be confirmed & that the directors then elected be the directors of the Society for 1892.

On motion resolved that the sec. be authorized to purchase about forty tons of fertilizers for the society on the best terms he can get & sell to members as can be best arranged.

Meeting adjourned, DP Wetmore

[page glued in]

We the undersigned members of the Agricultural Society No 23 agree to make up the deficiency proportionately in case the fees do not come up to \$100 for 1892.
Clifton Kings Co., Mar 24 1892

Annual Meeting of Ag Society No 23 at the Hall in Kingston. Dec 20 1892

Geo G Erb had got a lot of fertilizer that got injured on the wharf at Long Point by water on which he claimed the society should pay the loss.

Ordered that the sec. write him to come down to the next meeting of the directors & the matter would then be considered.

Moved by DP Wetmore and seconded that fertilizers be procured this year & that they be supplied to the members at not less than costs and charges.

Carried

On motion resolved that 5 per cent discount be allowed on all lots of \$20. & more.

On motion resolved that no member be allowed to purchase more than twenty dollars worth of the fertilizer unless he is a subscriber to the funds of the society of at least two dollars & not more than fourty dollars worth unless he is a subscriber to at least three dollars & so on proportionately.

On motion resolved that the Country Gentleman be supplied to members at \$1. for 1893.

On motion resolved that the sec. be authorized to make arrangements with dealers to get a discount for members on presentation of members certificate.

On motion resolved that a Farmers Supper & conference be held in the Hall at Clifton on Jan 5 1893. Tea to be on the table at 5 o'clock P.M. sec. to send invitations to members & others.

On motion resolved that Smith Pickett be paid \$2.00 for viewing & repairing fence about Hall.

As there was but a small number of members present it was decided not to elect officers until another meeting.

On motion meeting adjourned.

E H Merritt's cows are jerseys		

After supper was over the meeting opened with a Farmers song by the choir followed by a short address from the President. There was then an address by the Sec. followed by another song by the choir. This was followed by an address from Dr. H C Wetmore, Rev H S Wainwright & others with also more music from the choir.

Directors were elected as follows. D P Wetmore, N W Puddington, A B White, E J Peters, H V Dickson, John Frost, R W Wetmore, H Redmore, E H Merritt, J H Gorham, Hezekiah Scribner, D D Northrup, Capt. Shampier, C Brien, R C Williams, Geo G Erb, S L Lamb, H D Wetmore, Lee Nutter, J O Dann, Theodore Holder, Jas E Ganong.

On motion resolved that the society pay the expenses of two delegates to attend the Farmers & Dairymen's Association at F'ton on Jan 25th & 27th.

On motion resolved that the president appoint the delegates to attend said meeting.

The president appointed Saturday the 14th inst at 2 o'clock for a directors meeting. The meeting which had been an enjoyable one throughout closed by singing God Save the Queen.¹³

D P Wetmore, sec.

**Meeting of the directors of the Agricultural society No 23 at Clifton Hall
Jan 14th 1893.**

Present: R C Williams, president D P Wetmore, sec treas., D D Northrup, R W Wetmore, Theo Holder, Geo G Erb, Jas E Ganong, H V Dickson, John Frost, & Samuel Erb.

On motion resolved that the name of Jas E Ganong be added to the list of directors.

On motion resolved that R C Williams be president for 1893.

On motion resolved that D P Wetmore be sec. trea., On motion resolved that O W Wetmore be assistant sec., On motion resolved that D P Wetmore bill for cards paper oil &c in re farmers supper & conference at Clifton amounting to \$3.65 be paid.

On motion resolved that the sec. be authorized to make arrangements to purchase what fertilizer seemed to be required & when he can get it the cheapest for a good artist (amount suppose to be about 40 tons)

The president appointed D P Wetmore & H V Dickson as delegates to attend the Farmers & Dairymen's Association at F'ton on the 25th, 26th & 27th inst.

On motion resolved that the sec. be authorized to make arrangements concerning the damaged fertilizer at Long Point in the spring of 1892, to settle with the parties who lost the fertilizer & to see what can be done towards collecting the loss from the sta. Springfield.

(the general idea seemed to be to allow the parties losing the fertilizer a discount equal to the amount washed by the water. The boat left the bags on the end of the wharf when the water was rising & nearly over it, when there was a good high water wharf.)

On motion resolved that the sec. notify Baird Williams that his unsecured note cannot be accepted by the society, as they can not use it. (Mr Williams was offering this note to settle balances due for several years.)

On motion resolved that a Farmers supper & institution be held in the Hall at Elmsdale on the 1st day of February 1893 the sec to send invitations.

On motion meeting adjourned.

D P Wetmore, sec.

Elmsdale Feb 1 1893

About 250 persons sat down to the farmers supper in the hall here. After supper addresses were delivered by the president Thos A Peter's president of the F & D Association, D P Wetmore, A S White, J W Hart supt. of Gov Dairy station at Sussex, S L Peters, who made tests of 16 samples of milk. Hon G H Flewelling & B Crawford.

Mr Peters stated that the tests showed a very large per centage of cream & that if the samples were properly taken there must be a wonderfully good lot of cows in the neighbourhood. In answer to a question J W Hart stated that a cow would test from one to two per cent greater in butter fat, after she had been say 9 months in milk, then she would when fresh & giving full flow. That is if a cow tested 3 per cent when in full flow she would be likely to test 5 per cent after having been 9 months milking when she was giving very much less. Of course he said this would be more butter fat from the large quantity but the proportion of fat would be less.

It was also elicited from questions that a cow that was giving say only 10 lbs milk per day, 2 months after calving from being improperly fed or from neglect would test higher then than she would when fed so that she would give 25 lbs per day. Of course before this would be more butter fat in the large quantity but the percentage would be less. Some one said would not the quality depend largely on the kind of feed. Mr Hart replied, the kind of feed might make a little difference in the quality, but one thing was for sure & that was that when the flow of milk was increased the percentage of butter fat was reduced more or less.

After a very successful meeting it was closed by singing God Save the Queen.

Meeting of Directors of Agricultural Society No 23 at Kingston Hall Feb 7 1893

A proposition had been made to repair the Hall provided that at least 25 more people would join the society from the vicinity of Kingston & that their fees & what would come to the society from the government on those new names & also the fees & government grant on those names already belonging to society in Kingston No 1 be used towards repairing Hall.

The secretary reported that Capt Shamper had handed in seven names who would join society in case the Hall were repaired, but that nothing had been paid in. Capt Shamper was asked if he would guarantee the payment on these names but he declined.

The president said that he & Mr Ganong were a committee to see if they could not purchase the Hall.

After a good deal of discussion during which it was elicited that there were only 14 members in Kingston No 1 exclusive of those who had given in their names conditionally. The following resolution was carried: -

Moved by Capt Shamper seconded by Jas E Ganong that the Hall be advertised & sold on the 1st day of March at 11 o'clock A.M. at public auction, in said Hall. On motion resolved that the terms of the sale be nine & eighteen months notes with approved security at 5% interest, or 2? per cent discount for cash.

On motion resolved that a committee be appointed to ascertain if thorough bred Imperial Yorkshire pigs can be purchased at reasonable figures & if prices & stock are found favourable to be authorized to purchase 3 sow pigs & a boar pig. On motion resolved that if pigs are purchased they be sold at Williams's Landing, at such time as the committee shall fix to be advertised them. (Capt Shamper & Jos H Gorham were appointed said committee) There was some discussion as to purchasing sheep, but it was agreed to defer the consideration of this question till later in the year. On motion resolved that the society purchase a Babcock Milk Tester, if about the same capacity as the one Mr S L Peters used. The sec. was appointed a committee to look after this. It was requested that the sec. ascertain whether it would be feasible to hold a Farmers supper & Institute at Kingston & to arrange for it if the people wished it.

Meeting adjourned

DP Wetmore, sec.

March 1 1893

Meeting at Kingston Hall for the purpose of selling the Hall, J Lee Flewelling auctioneer.

Sold to James White for \$66.00

Mar 8 1893

The society held a farmers supper & institute at Round Hill Greenwich at this date in the Hall near McLeods Corner. The meeting after the supper was to have been held in the meeting house but for some reason it could not be obtained & the smaller building was used. The Hall was packed to it's utmost capacity & some people could not get in. After supper was over addresses were delivered by the president S L Peters, J W Hart, D P Wetmore, Ludlow Belyea & others. S L Peters made tests of 16 samples of milk, the testing & reading of which caused a great deal of interest.

The Hall was so packed during the addresses that it was difficult to keep good order but a great deal of interest was manifested in the proceedings notwithstanding. The meeting closed about 10 P.M. by singing God Save the Queen.

DP Wetmore, sec.

EXHIBITION & FAIR.

The Exhibition of

AGRICULTURAL SOCIETY

No. 23, will be held in the HALL at

KINGSTON

on WEDNESDAY, OCTOBER 24th, 1890.

Any person can exhibit by becoming a member of the Society and paying fee of \$1.00 before September 1st, after that date \$2.00 will be charged, but two years subscription will be allowed.

Premium Lists on application to Secretary.

Open from 10 a.m. till 4 p.m.

O. W. WETMORE, Sec'y.

Although there appears to be a loss of recorded minutes and prize lists for a period of years, there was at least one exhibition and fair during those years, as this broadsheet shows. (Source: New Brunswick Provincial Museum, Fredericton, N.B.)

The minute book. (Source: John Fisher Memorial Museum, Kingston, N.B.)

Tompkins from Southampton, York County who spoke on the 'Cultivation of Soil', and W W Hubbard of Halifax, Nova Scotia who spoke on the Feeding and Care of Dairy Cow.

[The facing page is blank. There are no minutes.]

Kingston No 23 held the next meeting at Kingston on the 9th of January with 300 in attendance. A Farmers Supper was previous to the meeting, quite a number took part in the discussion and altogether a very satisfactory meeting. Two speakers, F E Sharp from Midlands, Kings County spoke on Poultry Production, and received a fair value to his paper, whereas Simpson Rennie, from Enilliken, Ontario received a good grade for his talk on Cultivation of common field root & potatoes.

Kingston No 23 met at Springfield on the 27th of January, 1902, only 25 in attendance, on a very cold night with more snow. Hardly fit for horse to venture out as it was icy and ground frozen. A number took part in discussion and had a very good meeting for number present. The speaker was Chas Peters from Elmhurst, the topic was 'clover as a soil re-newer' for which he received a tick in the good column.

Following the death of David Pickett Wetmore (just after he had ordered the milk-testing machine), the minutes of the Agricultural Society became more business orientated and contained less social comment. Eventually, a governmental fill-in-the-blank format was adopted. In the third hardcover book (8 1/2 in. x 14 in., leather spine), which includes the New Brunswick Farmer's Institute Acts, Rules & Regulations, there are minutes of meetings held after 1901.

Report of meeting held
at _____ **Clifton** _____ **on**
the _____ **1st** _____ **days**
of _____ **November** _____ **1901**

On that occasion the meeting was held in the evening with 35 in attendance, it was a dark stormy night and bad traveling. However, there were two speakers: W S

Kingston No 23 met on the evening of February the 28th , 1902, in Clifton, where 250 were in attendance. However, a supper was held before the evening discussion and a good meeting was held, a large number taking part. O W Wetmore of Clifton spoke on the cultivation and care of strawberries, while Wm Hazlett, of Whitehead, spoke on the care of old patches of strawberries. [It's noted here that neither was graded, but that could be because O W was secretary!]

Kingston No 23 did not meet again that year until they met at Whites Mills on the 7th of October 1902 when 90 were in attendance. Both speakers were well received. Mr Tompkins seems to be a favorite at such meetings. W S Tompkins spoke on cultivation of root crops and D Drummond from Ontario spoke about 'grading-up a dairy herd', both received ticks in the 'good' column

Kingston No 23 Met in Clifton on the 15th of January 1903 with 200 in attendance. A good meeting, no outside speakers, but a good discussion in clover growing and had a supper before the meeting. The three speakers leading the discussion were: E J Peters, R W Wetmore and O W Wetmore... No one was graded on performance.

Kingston No 23, met next at Perry Point on the 5th of February 1903, when 40 gathered on a bad stormy night. Mr F V Hamm who was to address us on poultry was prevented from getting here. However a discussion on the winter care of fowls for laying was led by H V Dickson, Jubilee, E A Flewelling, Perry Point, A R Wetmore of Jubilee and O W Wetmore of Clifton.

Kingston No 23 gathered at Long Reach on the 13th of February 1903 when 180 were in attendance. A good meeting, a number of local men took part and J W Wetmore from St John gave some good pointers on preparing poultry for a St John market. As well Harry Smith of Long Reach spoke on the care of the orchard, R E Lyon spoke on Poultry as did Wm Shamper of Kingston, while O W Wetmore spoke on small fruits.

Kingston No 23 reported on their meeting held in Kingston the 10th of March 1903 when 250 were in attendance. A fine meeting, a number of local men took part and Mr C F Alward, of Havelock, gave an interesting address on the care of the dairy calf. Wm Shamper of Kingston spoke to the topic as well as a number of others made some remarks.

Kingston No 23 met at Kingston on the 9th of October 1903 when 30 were in attendance. A good discussion took place but the crowd was small. Mr C D F Alward of Havelock returned with a paper on the winter feeding of the dairy cow and F G Raynor from Rose Hall, Ontario spoke on grading up a dairy herd, both received a tick in the 'good' column.

Flewelling Mill at Perry Point, by the bridge to Jubilee. (Source: John Fisher Memorial Museum, Kingston, N.B.)

Kingston No 23 then headed to Long Reach for a meeting on the 10th of October 1903 where 40 attended a good meeting but not a large number present for the good discussion when F G Raynor spoke on the care of the orchard and C F Alward of Havelock led a discussion with R E Lyon of Long Reach on cultivation of soil and soil moisture.

Kingston No 23 Farmers' Institute next met at Kingston on the 15th of February 1904. 300 attended a fine meeting and good discussion on winter care of laying fowl. A great many took part in the discussion. F V Hamm, Silver Falls, St John led the discussion and received a 'good' in the value column, [and a note at the bottom saying] 'Mr Hamm treated his subject in good shape and audience paid close attention.

Kingston No 23 reports the next meeting at Clifton on the 25th of February 1904 with 250 in attendance. One of the best meetings we ever had addressed by Saxby Blair. The audience were very attentive and the address could hardly be beaten. Saxby Blair, from Experimental Farm Nova Scotia spoke on 'How best to retain soil moisture' and received a extra good on the good column.

Kingston No 23 had the next meeting on the 2nd of November 1904 in Gondola Point when 35 attended a small attendance but an interesting meeting when nearly everybody took part in the discussion. Mr Frazer from Ontario spoke on the benefits of growing clover.

Kingston No 23 met at Bayswater on the 3rd of November 1904 when 50 attended on a dark stormy night, but a very interesting meeting and good discussion. Mr Frazer from Ontario spoke on the cultivation of the soil and clover as a fertilizer. Capt. E C Worden & [Harvie?] Currie of Bayswater, Hurbert Hughes of Milkish & Joseph Long of Milkish took part in the discussion.

Kingston No 23 held the next meeting at Kingston on the 20th of December 1904 when 30 attended to suggest subjects for discussion.

Kingston No 23 next gathered at Kingston on the 20th of January 1905 when 40 enjoyed a good discussion on clover and opinion was general that we all should increase the acreage.

[For this meeting, there are also recorded minutes.]

Kingston January 20th 1905

Meeting called to order by Pres. at 8:30 P.M.. Sec'y read minutes and they were confirmed. The sec'y then opened the discussion on clover and urged the farmers to try and grow more as it not only made better feed when properly cured but increased the fertility of the land taking the valuable ingredients (nitrogen from the air). If it was necessary to grow timothy in would be far better to seed with one-half clover as the clover roots in decaying will give you at least 5 years good timothy. Good cultivation before hand seemed to be one of the main things to give to ensure a good catch when seeding.

Chas Peters stated at Guelph, that clover was sown with grass year after year on the same ground and with good results. Stanley Wetmore stated that had got a good crop of clover and ploughed under and seeded with oats again, and found the straw very large but the oats not so good.

Nearly everybody thought that clover should be cut early and get two cuttings a year. Mr Hamilton, Principal of Kingston School then gave some very interesting remarks on the influence of bacteria on different farm crops. He said that good cultivation was one of the main things to insure bacteria working well in connection with clover growing.

After a number of suggestions it was resolved that the discussion be on poultry at our next meeting at this building on February 1st and that Mr F V Hamm of Silver

Falls, be asked to open the discussion.

On motion meeting adjourned.

O W Wetmore, sec'y

Kingston No 23 met at Kingston in the new Macdonald Consolidated School¹² on the 15th of February 1905 with only 15 in attendance due to bad travelling. However F V Hamm of the Marsh Bridge Poultry Farm, St John gave a good address on poultry.

Kingston No 23 met at Kingston on the 30th of October 1905. 50 attended a good meeting, not a large attendance, however all the speakers received an attentive hearing and there was quite a lot of discussion, especially on Mr Cotterall's address. Mr G R Cotterall, from Ontario, spoke on Poultry for market eggs. F E Sharp, Midlands, spoke on how to return moisture to the soil. And F W Broderick spoke on selection of seeds.

Kingston No 23 met next at Long Point on the 31st of October 1905. 35 participated in an evenings lively discussion following the address. G R Cotterall again spoke to poultry for egg market, F E Sharp on soil moisture and F G Broderick on the selection of seed.

Kingston No 23 met at Clifton on the 19th of January 1906 with 250 in attendance. Following a large gathering for supper addresses were given by F V Hamm of Marsh Bridge Poultry Farm on poultry for laying and market.

Kingston No 23 met at Kingston on the 9th of February 1906 with 150 at an evening gathering. Mr Daigle was expected but did not arrive due to it being a stormy night, but a good meeting was had. Mr Bell from St John spoke on the need of co-operation in dairying. Mr D W Hamilton spoke on bacteria in milk.

Kingston No 23 met in Kingston on the 14th of June 1906, in the afternoon there were 75 in attendance which swelled to 150 in the evening. Explanation of different weeds on R C William's place. Prof. Longhead gave an interesting address in the evening with a picnic supper in the hall.

Kingston No 23 met at Kingston on the 5th of November 1906 with 75 attending, and a good meeting with a large number of ladies present. Duncan Anderson, Orilla Ontario spoke on clover growing and farm education. And Mr N Dow, of Woodstock, NB spoke on dairying.

Kingston No 23 met the following evening at Rothesay, a very dark night and not many turned out (35), but a good meeting. Mr Duncan was rated good for his discussion clover growing and rotation while N Dow was rated fairly good with his address on dairying.

Kingston No 23 met in Kingston on the 1st of February 1907, 300 attended and was declared one of the largest crowds we ever had at an institute meeting. S L Peters, Queenstown spoke on New Brunswick as a home and O W Wetmore of Clifton spoke on the advantages of the Institute.

Kingston No 23 reported a meeting on the 22nd of February 1907 at Long Reach. 150 turned out on a fairly good night, and although one speaker who had agreed could not attend, it was an enthusiastic crowd to the growing and cultivation advantages of clover address given by O W Wetmore with discussion led by S T Holder.

Kingston No 23 met on the 1st of March 1907 at Clifton. 250 enjoyed a fine meeting, however supper before the meeting made it somewhat late. There was quite a discussion following the addresses which were very interesting. Wm McIntosh of St John spoke on injury caused by insects and worms, and Walter Bell of King St. St John spoke on the care of cattle and care for creamy cream. Kingston No 23 meeting of the 26th of October 1907 was held at Kingston when 42 turned out to an evening meeting. A rather dark night and the crowd was not large but were attentive and a good many questions were asked. The speakers were Dr. Standish from Ontario who gave an address on breeding horses, and F E Sharp of Midland who again discussed the cultivation of the soil, followed by O W Wetmore on clover and cultivation.

[The last entry just states that there was no meeting. Although the speakers showed, it was dark and stormy, and few turned out. Towards the back of the book, in a section set aside for the annual report, there are several entries that add information to the whole. These pages are fill-in-the-blank forms, which in themselves are interesting.]

[Form B]

Annual Report, Kingston No 23, Nov 30th 1901, held at Clifton in the evening, 25 in attendance, 2 papers or addresses given, organizational meeting.

[For the same annual report (on Form C), the communities and halls where the meetings were to take place are indicated, as well as distances to the nearest railway stations. Four localities were named.]

- Kingston at the Kingston Hall, one day duration in the county of Kings with the nearest railway station at Jubilee 4 miles away.
- Whites Mills at the Pearl Hall, one day duration in the county of Kings and 8 miles from the Rothesay station.
- Scribners with no hall identified, one day duration in the county of Kings 6 miles from either Hampton or Jubilee stations.

- Gondola Point, at the Garfield Hall, of one day duration in the county of Kings and 4 miles from the Rothesay station.

[On Form D is the list of officers for 1901, identifying them by occupation and address. Since they are all listed as farmers, only the position, name and address are given here.]

President	Capt. Wm Shamber, Kingston, Kings County
Vice President	H V Dickson, Jubilee, " "
Secretary-Treasurer	O W Wetmore, Clifton " "

T Fred Wood, Carters Pt.	W Wetmore, Clifton
Thos Middleton, Holderville	John Frost, Hampton
Wm Hazlett, Whitehead	Frank Northrup, Kingston
L T Crawford, Kingston	A D Northrup, Kingston

[On Form B, there is the following for the annual meeting for the year ending November 30, 1902.]

Kingston held an evening meeting when 300 attended, 2 addresses were given and 140 members joined. Long Point Springfield held an evening meeting with one speaker when 25 attended on a very cold night. Clifton held an evening meeting with 2 speakers and 250 attended, while the meeting at Gondola Point was postponed due to bad weather and the meeting at Whites Mills attracted 90 people to hear 2 speakers.

[The location information on Form C includes the following:]

- Kingston at the Temperance Hall, one day duration in the county of Kings, nearest railway Jubilee.
- Long Reach at the Victoria Hall, one day duration in the county of Kings and if in summer would come by boat.
- The winter meeting to be held at Kingston and the other in the fall say October.
- Gondola Point, Garfield Hall, one day nearest station Rothesay
- Perry Point, Public Hall, one day nearest station Jubilee
- Clifton, Public, one day Rothesay station
- Whites Mills, Pearl Hall, one day Rothesay station.

The Diary of Howard Douglas Wetmore

FARM JOURNAL AND DIARY
1884-1891

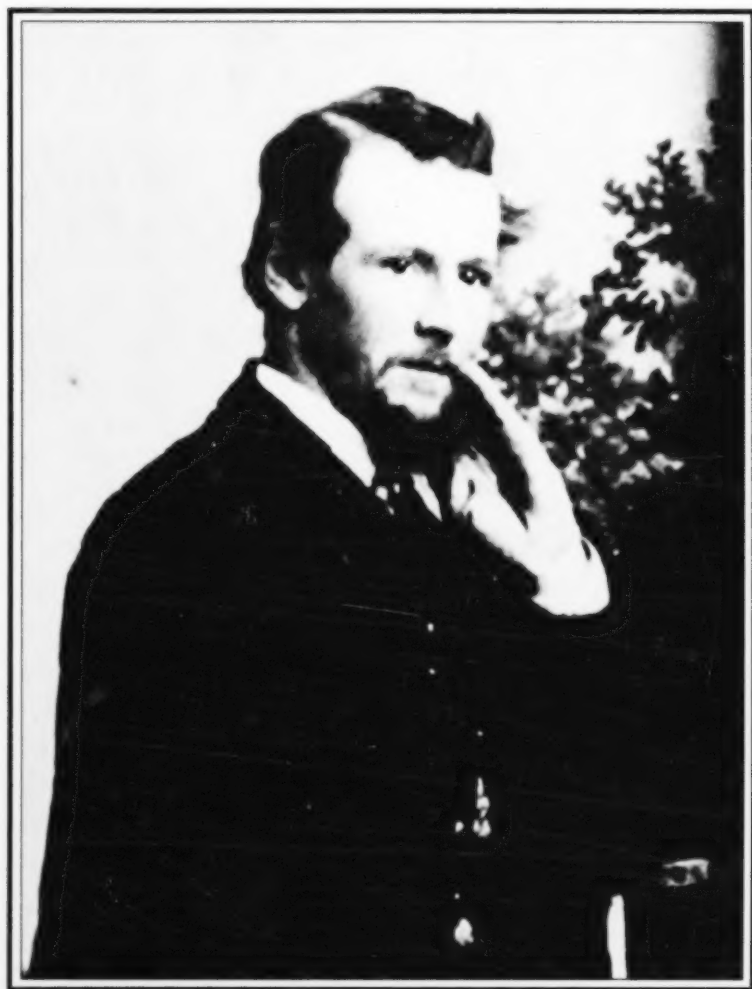

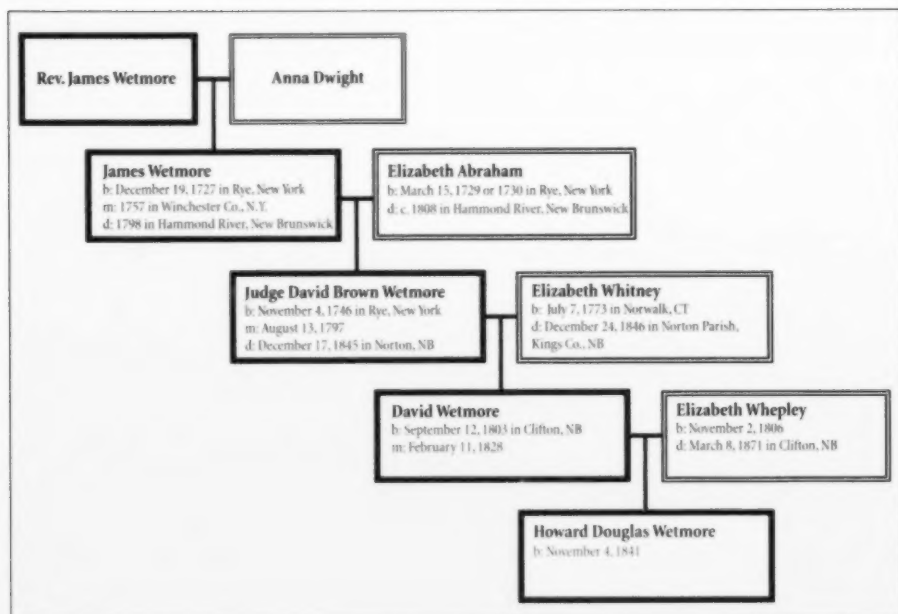

Photo: Howard Douglas Wetmore (Source: John Fisher Memorial Museum, Kingston, N.B.)

Ancestors of Howard Douglas Wetmore

Howard Douglas Wetmore was a younger brother of David Pickett Wetmore, both grandsons of David Brown Wetmore, a United Empire Loyalist. After spending some time in Westfield, Massachusetts, where he worked as a carpenter, Howard returned to Clifton to farm. He cultivated mainly strawberries. He was also captain of No. 1 Company of the 74th Battalion of the Kings County Militia, secretary of the trustees of the superior school at Clifton, an active worker for the temperance movement and a Freemason. His first marriage was to Annie Whepley (daughter of James S. Whepley), and his second, to Clara Frost (daughter of Harvey Frost, of Norton). A father of seven, Howard was a regular diarist from 1884 to 1891, writing every day but Sunday.

1884 April

Tues 1st Cool and dull. Drove to little island this morning for load of sand. Took banking away from cellar in the afternoon.

Wed. 2nd Fine and spring like. Made new shaft for express wagon today. Ice and snow wasting fast.

Th 3rd Cold and rainy. Cow "Gypsy" had a calf today. Working at repairing harness, grinding tools &c. Making up berry boxes in the evening.

Fri 4th Wet and cold again today. Working about house and shop. Getting out lumber for new window in old kitchen.

Sat 5th Wet day again – wind NE. Ice looking bad in the river, although teams are crossing it yet. Working at sash. Set two hens today.

Mon 7th No change in the weather yet. Working at sash today. Family took tea at G H Flewelling's this evening. Mail wagon crossed ice this morning – last time.

Tues 8th Finished sash. Commenced hewing stick for sled runners. Fine this afternoon. Another hen set. Ice wasting fast. Mail driver went to Moss Glen to cross today. Lodge meeting this evening.

Wed 9th Went up on hill and cut 150 raspberry stakes this morning. Working at stick for sled runners this afternoon. Took tea with Mr Wright's with family.

Th 10th Snowing steadily all day and thawing NE wind. Working in shop at various jobs. Hauled raspberry stakes down this afternoon. Snow about 3 inches. Ice looking bad – no crossing for two days. Another hen set this morning.

Fri 11th Good Friday. Snow of yesterday lay quite deep this morning. Hauled some fencing around the fields, and hauled soft wood from bridge to the house. Fine afternoon Ferry not open yet.

Sat 12th Chopping wood at door today. Hewed stick for bob sled runners. And one 3 inch birch plank. Ferry seems open this evening. Fine to warm.

Mon 14th Cool and fine. Ice wasting fast. First team crossed at ferry today. Chopping wood at door. Tapped some trees today. Drove to Kingston church yesterday (Easter Sunday). Fine but muddy traveling. First lambs came today.

Tues 15th Fine & warm. Hewed sticks for shafts and doing other work about the house and barn. Put away sled and got out farm wagon today. Got horse shod. Bought a pig from J S Wetmore.

Wed 16th Raining, all day with SE wind, (strong) J S W killed calf for me. Working about house & shop

Th 17th Went to St. John today with veal for market. Found market so dull, left it with Cosman & Wetmore to sell. Very fat, weighed 180 lbs cleaned.

Friday 18th Raining heavily nearly all day – wind NE. Working about house and shop. Picked out seed potatoes. Found potatoes had wintered well.

Sat 19th Still raining. River clear of ice to the islands. Snow nearly all gone.

Mon 21st Wet part of the day yesterday – very warm in the afternoon. Raining again today. Made window frames today.

Tues 22nd Wet again today. Cut door through from old house to kitchen part in 2nd story. 8 lambs with 5 ewes.

Wed 23rd Fine and clear. Hewed more sticks for shafts and sled benches. Spaded up ground around rhubarb and made hot bed frame over one row. Drove up to the Point in the evening on school business.

Th 24th Did some more hewing this afternoon. Cleaned up barnyard in the afternoon. Fine and warm.

Fri 25th Raining again, part of the day. Stopped leak around large chimney in old house. Sawing wood &c, Justus Pickett here today for pig I had been keeping for him price I got mine. Clara and the children went home with him to stay until Sunday.

Sat 26th Showery nearly all day, fine towards evening. Got out seed potatoes and put them in drying loft to sprout, packed in berry trays, shallow boxes, pans &c.

Mon 28th Drove up to J Pickett's yesterday and brought the family home. Did some hewing today. Put up fence along the lane and in the pasture this afternoon. School examination today – did not attend. Commenced taking up raspberries this evening. Charlie G. went home to stay the rest of the week.

Wed 30 Cold. Working about wood house. River still open.

Th 31 Cold. Working about woodhouse. River half open.

The Diary of Genvieve Wetmore

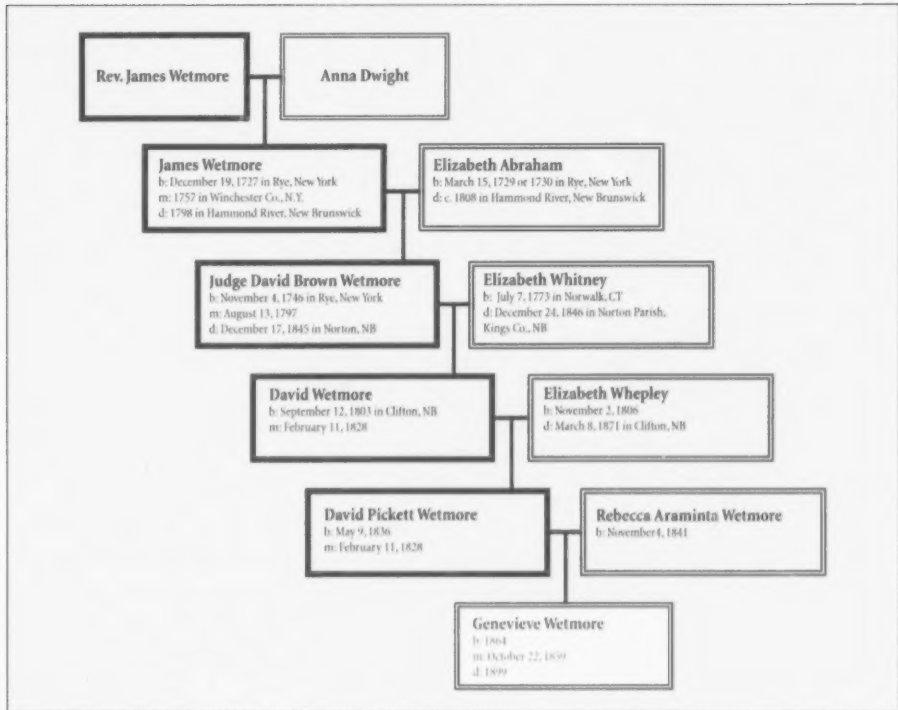

1889

Dilige, et quodius fac. Love, and do what you like.

Photo: Genvieve Wetmore (Source: Jean MacDonald, Clifton Royal, N.B.)

Ancestors of Genevieve Wetmore

Genevieve Wetmore, the eldest daughter of Rebecca Araminta and David Pickett Wetmore, was an artist and studied oil painting in Saint John. She graduated from Normal School, in Fredericton, and taught school in Clifton before marrying John Frost on October 22, 1889. John was the younger brother of Howard Wetmore's second wife, Clara. He was a partner in Frost & Langstroth, the company that had the contract for finishing the outside of All Saints Church in 1885, and installing the roof and spire. Genevieve inherited her mother's artistic skills and was herself a gifted sewer.

This diary records one year in the life of Genevieve, her family, friends and neighbours. All references to holidays, festivals and religious days are printed in the diary, which was a product of the Canadian Branch of the Standard Life Assurance Company. According to community lore, she died in childbirth and is buried with the child at her breast. However, there is no documentation to substantiate this. Her funeral is recorded in her uncle Howard's diary.

January 1889

1 Tuesday Race to the train. Out skating. Jen P^r. here; all went to Reid's except me.

2 Wednesday Good skating. We were out this afternoon. Am was in town. Got my valise which was left yesterday. No snow on ground. Wrote letters tonight. Louise^s was up to Iola's.

3 Thursday Skated up to Julia's via Lake & creek. Company there in the evening. D.P.H. went to F^rton & Willie to St. John.

4 Friday Skated home from Julia's although there was snow on ice. Egbert came to lake with us. Aunt Julia here to tea. Boys are out fixing rink.

5 Saturday Pa came from F^rton. Louise and Jennie left at noon. Louise will remain in St. John till Monday. Was skating on rink the boys made. Willie came from St. John today.

6 Sunday Epiphany Rather dull. Father skated to Rothesay this morning. Kingston this afternoon. Service here this evening. I was not out until evening.

7 Monday School commenced with twenty four scholars. Raining again and snow all off. Uncle Merrit & Aunt Maggie here to tea. Father was in St. John. Iona is at school again.

8 Tuesday Agricultural lecture tonight by Hon. Z. A. Gilbert. S. L. Peters. Mrs. [?]. Miss Ed Peters. Mr. Hall & Paterson here to tea. And Mr. Peters & wife here for all night. Lovely moonlight evening.

9 Wednesday Mr. & Mrs Peters left this morning. I was out skating until six o'clock but it is raining since tea.

10 Thursday There is scarcely a spot of snow left after last nights rain and Aron says the ice is failing. It was like spring today. We had a letter from Louise. She was at Eastport.

11 Friday Very windy today but not cold. Skating excellent. Quite a large Guild meeting tonight in the church. They thought it advisable to accept the offer of organ.

12 Saturday Fine. Lulu took lesson. Out skating in afternoon. An Agricultural meeting in Hall. Mr. Frost came down this evening. [?] we were at Uncle Thed's. A new boy arrived at Aunt Clara's.

13 Sunday 1st after Epiphany How & frank came up today. Service this afternoon. Addie is over the river to church this evening and Am & Father down to White's with Mr. Wainwright.

14 Monday Skating excellent. Was out after school. Nearly all the young people are out this evening.

Genevieve was an accomplished painter and gave the first art lessons to cousin Lulu, nickname for Julia Tilley Crawford, who became a famous New Brunswick artist. (Source: John Fisher Memorial Museum, Kingston, N.B.)

15 Tuesday Still Fine. There were some skating races on the ice this afternoon which thinned the school pretty well. There was a great number of people on the ice.

16 Wednesday How. Dave and two others skated out from St. John and took tea here. There were crowds out skating tonight here on the ice.

17 Thursday Very rainy all day. Received a letter from Louise. No news to write about.

18 Friday Nothing important.

19 Saturday This afternoon How leaves. A Mr. Sullivan, Jennie Bess and Miss Dunback skated up. The girls stayed. Lulu took her lesson.

20 Sunday 2nd after Epiphany Fine and cold. At church this morning & few [?] I went to Aunt Clara's this afternoon. Julia [Crawford] is very sick. The girls are going down in the morning. They were over the river.

21 Monday First snowstorm since Christmas. The girls skated down this morning. Father went to the Island. The boys are playing cards downstairs.

22 Tuesday Fine and good sleighing.

23 Wednesday Fine. Many took advantage of good traveling & went to town. Aunt Charlotte was here to tea. Aunt Betsy Ann came from Bertie's today. Father was down to Holderville examining schools.

24 Thursday Nothing important.

25 Friday Went to Kingston dance. About seventy people present. The sleighing was only fair.

19 Tuesday Fine. John was at Hampton all day working at Baptist Parsonage. Mr. & Mrs. Hayes were here to tea.

20 Wednesday Dull.

21 Thursday Dull and rainy.

22 Friday Dull and rainy. Mr. Wade came to stay all night.

23 Saturday John went to Clifton to Agricultural Meeting & I went home. We came back in the evening. Father is not very well.

24 Sunday *23rd after Trinity* We went to Norton Baptist Church in the morning to service, here in the afternoon and to Hampton in the evening. Mr. & Mrs. Dixon came up.

The Anglican church at Hampton, referred to as the church, while the Baptist gathering was referred to as the meeting. (Source: Kings County Museum, Hampton, N.B.)

25 Monday Dr. Fred and Fanny called. We returned some calls this afternoon. Mr. & Mrs. Dixon went home.

26 Tuesday Fine. Mr. & Mrs. Upham came about dinner time today. We started to make some calls but people were out.

27 Wednesday Have been setting my room to rights and we took tea in our own dining room for the first time tonight.

28 Thursday Busy day. It snowed last night. Almost enough for sleighing.

29 Friday We were up to Mr. Charles Fairweather's and took tea tonight.

30 Saturday [No entry]

December 1889

1 Sunday *1st in Advent* We were at the church in the morning and meeting in the evening. Mr. & Mrs. Barber were here and a Mr. Fowler. Louise came up to stay all night with Stan.

2 Monday Louise and Stan left early. They had sleighs. Mr. Upham came tonight.

3 Tuesday Mr. & Mrs. Upham left for home via Mrs. Dixon's. Afterward I called down the road this afternoon. It is very cold.

4 Wednesday We drove to Hampton tonight. It was clear and cold. The boys were skating on the rink.

5 Thursday [No entry]

6 Friday [No entry]

Took a drive up to Hampton and saw Mr. Frost's new house. (Source: Kings County Museum, Hampton, N.B.)

7 Saturday John and I went down to Clifton in a wagon but there is snow enough for sleighing. Found all well at home. Lottie skated to Hampton.

8 Sunday *2nd in Advent* Did not go to service anywhere. Came up home in the afternoon. Louise had Sunday School in the office.

9 Monday It was stormy today.

10 Tuesday Fine. We drove up to Mr. Warneford's and other places to call.

11 Wednesday [No entry]

12 Thursday Dull. Mr. Frost and John went up to meeting this evening.

13 Friday Snowed. Mrs. Seeley called. Father came here from Hampton. Stayed to tea and John took him home. He is not well.

14 Saturday Fine and cold. We were up to Hampton returning calls this afternoon. It is very cold driving.

15 Sunday *3rd in Advent* Went to church this morning and walked up to meeting this evening.

16 Monday Fine and clear.

17 Tuesday We drove to the Station & heard Dr. Howard deliver a lecture on reminiscences of his summer trip.

18 Wednesday Mrs. Frost heard of her brother's death today. This evening we all went up to a reception at the Baptist Parsonage. Mrs. William Frost called today.

19 Thursday [No entry]

20 Friday [No entry]

21 Saturday Fine.

22 Sunday *4th in Advent* We drove down home this morning and found all away to morning service. Charles Foster was there. Jack went home and I remained in Clifton.

23 Monday Were all busy at home getting ready for Christmas. Louise went down to help put up the greens at the church. John was to go to St. John.

24 Tuesday Busy again today. Fred Wood and Purdy were in tonight. I trimmed the Christmas tree. Mr. & Mrs. Frost were to start for Chatham.

25 Wednesday *Christmas* John, Lottie and Howard came this morning. We had a nice Christmas. How left in the afternoon, and we came up in the evening bringing Addie and Stan with us.

26 Thursday We all went up to Hampton this afternoon for a drive and called at Will Frost's. Got a letter from Fanny.

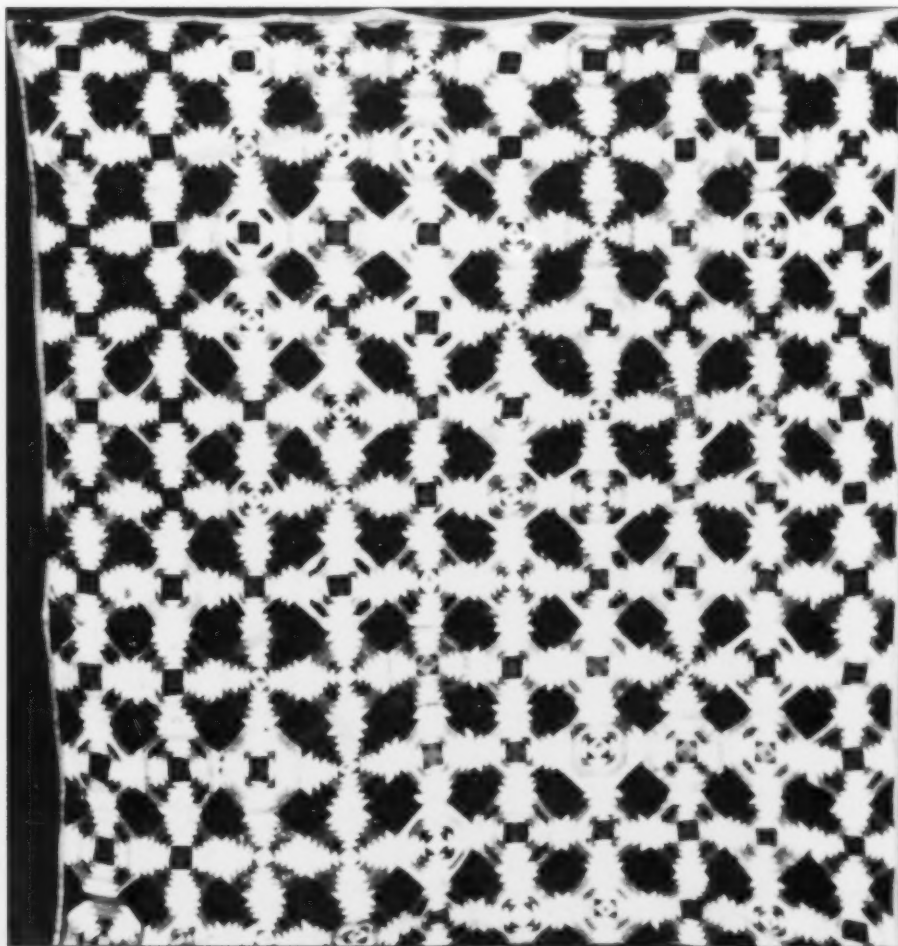

27 Friday [No entry]

28 Saturday We went down to Harvey Frost's and called this afternoon and Emma was in there afterwards. It was fine and cold.

29 Sunday *1st after Christmas* Went to service at the church this morning. Two children were baptized. Willie came up and Ad and Stan went home. Frank Hayes was here to tea.

30 Monday Rained this morning. Cleared this afternoon.

31 Tuesday Lottie went to Hampton, skated with Kate Fairweather. Mr. Charles Fairweather was very ill tonight. John went for the doctor.

Clifton Church and Community

the 1990s, the number of people in the UK who are aged 65 and over has increased by 1.5 million, and the number of people aged 75 and over has increased by 1.2 million (Office of National Statistics 1999).

There is a growing awareness of the need to address the needs of older people in the community. The Department of Health (1999) has published a strategy for older people, which sets out the government's commitment to improve the health and social care of older people. The strategy is based on the following principles:

- Older people should be able to live independently in their own homes for as long as possible.
- Older people should be able to access the services and support they need to live well.
- Older people should be able to participate in the decisions that affect their lives.

The strategy also sets out a number of key objectives, including:

- To improve the health and social care of older people.
- To ensure that older people have access to the services and support they need to live well.
- To ensure that older people are able to participate in the decisions that affect their lives.

The strategy is a key document in the development of policy for older people in the UK. It provides a framework for the development of services and support for older people, and sets out the government's commitment to improve the health and social care of older people.

The strategy is based on the following principles:

- Older people should be able to live independently in their own homes for as long as possible.
- Older people should be able to access the services and support they need to live well.
- Older people should be able to participate in the decisions that affect their lives.

The strategy also sets out a number of key objectives, including:

- To improve the health and social care of older people.
- To ensure that older people have access to the services and support they need to live well.
- To ensure that older people are able to participate in the decisions that affect their lives.

ALL SAINTS CHURCH

Most of the people who settled in the village of Clifton were members of the Church of England and belonged to the congregation of Trinity Church, Kingston. By 1830, the population of the busy village was swelling, and occasional afternoon and evening services were held at the home of Justus S. Wetmore in Clifton. A church was erected just across the river, at Gondola Point, in the Parish of Hampton (1832–1833), and became a regular place of worship for the people of Clifton. Services were held in the school as well, then moved to the Masonic Lodge in 1863 until All Saints Church was built, in 1885.

On August 29, 1883, the Rev. E. S. W. Pentreath, incumbent of Holy Trinity Church in Winnipeg, Manitoba and grandson of Justus S. Wetmore, gave a lecture in Clifton Hall on missionary work. Following the lecture, he spoke of the desirability of having a church in Clifton and strongly urged the residents to build a House of God in the village. The reverend gentleman gave it as his decided opinion "that a church, neat and appropriate, though necessarily small, yet ample for the community and beautiful as well . . . could be built in Clifton." It was proposed and moved before the meeting that the people of the village "undertake the building of a church in Clifton."

Discussions on the feasibility of such a project followed, and a building committee was elected. Its members were R. W. Wetmore, G. Hudson Flewelling, D. P. Wetmore and W. Hawksley Merritt. On October 12, the committee finally selected a plot of land that was suitable for both a church and a burying ground, located at the lower end of the village, near the Sugar Loaf. The search for funds and volunteers began. This aspect of the project was energetically managed by the ladies' sewing circle, which proved to be a powerful auxiliary throughout the building campaign.

Rev. E. S. W. Pentreath engaged an architect at his own expense. W. C. Harris, of Charlottetown, Prince Edward Island who at the time was living in Winnipeg, drafted the full plans for the church and sent them by mail to the building committee as required.

Interestingly enough, the sod was turned by teamster Bernard McLaughlin, a Roman Catholic. On October 29, J. Edward Flewelling and Richard W. Wetmore, with Gabriel Merritt's team of horses, were levelling and grading the ground for the foundation of the church. During the spring and summer of 1884, primarily through "subscription work", the foundation was prepared, the square frame was erected for boarding, the windows were set, and the floor was laid. The windows and doors were built by R. W. Wetmore the previous winter. The contract for installing the roof and spire, and finishing the outside was let to Frost & Langstroth, of Hampton, that

September. The cost? \$490. The company completed its work on November 22. Glass, which had been ordered from McCausland & Son, of Montreal, arrived on January 7, 1885, and was set in place on April 18 by Clifton volunteers. During the months of September and October, the plastering was completed under the direction of R. W. Wetmore, and J. & J. D. Howe made the seats and machined the woodwork.

Building Financial Statement

Costs as completed on Nov. 3rd, 1885	
Building lot and burying ground (given)	\$100.00
Building, foundation, grading & stoves, with insurance until 1891	2492.00
Seats in full, Nave & Choir	200.00
Altar, Prayer Desk, Lectern, Carpets & Linen (given)	275.50
Total cost	3,249.50
Receipts from the time the work began until the account was closed 1891	
Subscriptions, gifts and contributions in cash, materials and work	\$1,752.24
Clifton Sewing Circle contribution	876.45
Lectures, concerts, etc.	378.95
Grants from S.P.C.K.	241.94
Account squared and closed Jan. 1st 1891	\$3,249.58

On November 3, 1885, Bishop Medley, Metropolitan of Canada consecrated the building under the name of All Saints Church. The burying ground was consecrated at the same time. Rev. Ernest P. Flewelling was the first member of the clergy to hold service in the church, on November 8, 1885.

Memorials added beauty and interest, and helped pay for the church. The memorial windows all commemorate individuals.

EAST WINDOW	<i>In memory of</i>
	The Rev. W. E. Scovil, 1816–1876 Late Rector of Kingston The gift of the people of Kingston Parish, obtained by subscription

MIDIAN MASONIC LODGE¹

Loyalist settlers seemed to have been an industrious lot in providing shelter and clearing the land, much the same as their ancestors had done when they first arrived in America, most two to four generations before. They were the hewers of wood and drawers of water of our past. They carved a shipbuilding industry out of the wilderness. From their previous lives, they brought the social knowledge of their day and know-how of adventurous pioneers. The nineteenth century belonged to them and they prospered.

Richard W. Wetmore's mason apron. (Source: John Fisher Memorial Museum, Kingston, N.B.)

To every thing there is a season, and in that circle is boom and bust. When wooden shipbuilding began to wane, Clifton, depended on its agriculture, but as transportation centred in the city so grew the population, taking along the tradesmen and entrepreneurs. Quite likely the burning of the Moss Glen works in 1900 was the last straw for the once thriving village.

However, agriculture stayed strong until about the start of the first world war. Through the encouragement of the Agricultural Society, breed dairy farms were the norm, and

market gardeners continued to have cheap river and rail service to get their product to market. As shipping became more expensive and inconvenient, farmers began moving into grass crops, while the plant and seed industry moved to even larger centres.

Clifton, as a scenic delight, nestled along the Kennebecasis River with a southern exposure, became a small community of folks who had lived their lives among the sloping fields, rugged steepes and surrounding fringed hills. A community for all seasons settled into a seasonal village.

Of the various groups that once organized themselves on the Kingston Peninsula, the most documented is that of the Midian Lodge of Free & Accepted Masons.

At one time or other, nearly all of the males living in Clifton during the nineteenth century were Free Masons. And the Masonic Lodge had a great influence on the social life during that period.

The number of the Lodge changed several times; it was #31 on the register of the Grand Lodge of Nova Scotia from 1805-1847; #770 on the register of the Grand Lodge of England (1847-1863), #527 on the same registry from 1862 to 1867, and #9 on the registry of the Grand Lodge of New Brunswick from 1867 until 1894, when the order for surrendering the charter was made.

The Free Masons began at Kingston and passed through many unpredictable changes before locating in the village of Clifton. Among the early settlers in Kingston, was a sprinkling of Free Masons, who desired a lodge in which to meet, and they made application to the nearest Grand Lodge. On January 11th 1805, a petition was sent by Silas Raymond, Walter Dibblee and others to the Grand Lodge of Nova Scotia at Halifax, seeking a warrant for holding such in the town of Kingston. The petition was granted, appointing the Rev. Oliver Arnold of Zion Lodge, Sussex, Deputy Grand Master, for the organization of the desired Lodge. The Deputy Grand Master appointed the necessary grand officers for the work of organizing a lodge, and called them in meeting at the house of Silas Raymond, Kingston, on the 12th of September 1805.

Grand officers present at the meeting were:

Rev. Oliver Arnold	W. Grand Master
Walter Dibblee	Dept. Grand Master
Dr. Azor Betts	Senior G. Warden
Isaac Perry	Junior G. Warden
Moses Foster	G. Sec.

The following named brethren were duly installed and proclaimed Master and Wardens of Midian Lodge #31 on the register of the Grand Lodge of Nova Scotia:

Silas Raymond	Worshipful Master
Rulof Rulofson	Senior Warden
Joseph Baxter	Junior Warden

The first gathering took place on the following October 8th, in their room, established at the house of Silas Raymond, near the foot of the hill from Kingston Square on the road towards the Kennebecasis River. The members of the first Lodge of Midian as follows:

First Lodge of Midian #31; held October 8th 1805

Name	Place of Residence	Former Lodge
Silas Raymond, Master	Kingston	Sussex Vale
Rulof Rulofson, Senior Warden	Kingston	Zion #21
Joseph Baxter, Junior Warden	Norton	Zion #21
Azor Hoyt, Secretary	Kingston	Zion #21
Isaac Perry, Treasurer	Kingston	Zion #21
Walter Dibblee	Kingston	St. George #19
Thomas Fairweather	Norton	Zion #21
Moses Foster	Kingston	St. George #19
Nathaniel Deforest	Kingston	Zion #21
Isaac Bostwick	Kingston	Zion #21
Wm. Puddington	Kennebecasis	Zion #21
David B. Wetmore	Kingston	Zion #21
Richard Whelpley	Long Reach	St. John #29

The Lodge met regularly, and it was decided to host a Masonic dinner at the house of Silas Raymond, on the following St. John's Day, December 27th. The dinner was duly celebrated, at which the Rev. Silas Scovil, present by special invitation, edified the Lodge with a lecture on Masonic elements, tenets and duties.

Midian Lodge appeared to be healthily established; new members were coming in at almost every meeting.

In the tenth year of work, the lodge began seriously to wane; membership became so small that often there were not enough gathered on the night of meeting to form a quorum. Reasons for the decline are difficult to determine. Whatever the reasons, as time went on the Lodge failed to increase the membership and the location of the lodge was changed to Abel English's Inn, nearer the ferry to Hampton on the Kennebecasis River, with beneficial results.

The following extract from a report, to the Grand Lodge by David B. Wetmore, Master, and Jas. W. Puddington, Secretary, refers to the date.

"In consequence of the removal, by death and declaring off, of several of the members of our Lodge, it became very difficult to assemble a sufficient number of brethren (especially in the summer months) to do business, and it was therefore deemed to be absolutely necessary to remove the Lodge from Bro. Silas Raymond's in Kingston to Bro. Abel English's (in the same town), a few miles distant, and where the greater part of the brethren are settled, which we hope will meet with the approbation of the Grand Lodge and receive it's sanction."

In the new quarters, meetings were well attended. On St. John's Day, June 27th 1822, Zion Lodge #21, Sussex Vale, responded to an invitation and partook of the Lodge's hospitality at a Masonic dinner in the Hotel of Abel English. The dinner proved enjoyable, toasts to the King and Masonic Leaders were responded to in warm and glowing language. The following were present:

Rev. Bro. Oliver Arnold	Bro. Joseph Rouse
Bro. James Cookson	Bro. William Fairweather
Bro. H. Bostwick	Bro. Thomas Arnold
Bro. R. Rulofson	Bro. John Lannen
Bro. S. Ketchum	Bro. Enoch Dole
Bro. I. Barbarie	Bro. Caleb Wetmore
Bro. Lewis Fairweather	Bro. Oliver Byram
Bro. William Frost, Sen	Bro. Salyer Morrell
Bro. Thomas Fairweather	Bro. William Doyal
Bro. James Wetmore, 2nd	Bro. Elijah Baxter
Bro. Joshua Gidney	Bro. Simon Baxter
Bro. John King	Bro. John Nichols
Bro. Peter Pickett	Bro. James Sproule

After dining, members and guests proceeded to St. Paul's Church, Hampton, where service was said, the Rev. Brothers Arnold and Cookson officiating.

The following St. John the Evangelist's Day, Dec. 27th, Midian paid a return fraternal visit to Zion Lodge and was properly entertained. In the few years that followed, the Lodge prospered, then the old trouble of dues began. Slack attendance followed in its wake, with thin, uninteresting lodge meetings. Dissatisfaction was expressed in open lodge meetings, at the security risk of the lodge furniture and "ark" in the house of Mr. English. Matters ran along in this way until January 6th 1828, when a resolution was unanimously carried, deciding to move the Lodge to the house of C. L. Perkins, at the Shiretown.

At the house of C. Loyal Perkins, the lodge met pretty regularly for the next nine years, without the boom which first followed its removal from Kingston, yet the monthly meetings were fairly full and interesting. Again the organization appears to have lost heart. So serious was this feeling, that at the regular January meeting 1837, it was voted to move the lodge with a small part of the furniture to the house of David Wetmore in Clifton, the larger bulk of furniture to be sold at auction. Thanks were voted to Bro. C. Loyal Perkins for his kind attention in accommodating the lodge while in his house, and the group moved to the home of David Wetmore, where the lodge held but four very slim meetings, the last November 2nd 1841, which is the last recorded meeting of Midian Lodge #31 on the Register of the Grand Lodge of Nova Scotia.

Following a period of inactivity, the lodge re-activated on January 26, 1847, when the brethren from St. John assembled at the hotel of Elijah A. Perkins, Kingston, Kings County, as Deputy Grand Officers, for the installation of the said Midian Lodge. A numerous assembly of the Brotherhood from St. John and various parts of the province attended, and following the inspection of the warrant of Midian Lodge, Deputy Grand Master Thomas proceeded with the installation. The officers installed for the Lodge were as follows:

Justus S. Wetmore	Master
Andrew C. Otty	Senior Warden
David Wetmore, Jr.	Junior Warden
James Flewelling	Treasurer
Capt. Edwin Pentreath	Secretary
Benjamin Darling	Senior Deacon
Samuel Foster	Junior Deacon
Ezrahiah Wetmore	Tyler

Established now for the third time in the Shiretown, under the jurisdiction of the Grand Lodge of England, the fortunes of Midian Lodge #770 promised well for the future. For ten years, all was well, with regular monthly meetings at the hotel of E. A. Perkins. Then, members objecting to his charges for room rent, the Lodge was moved February 1857 to the Temperance Hall at Kingston until the end of 1858.

The Honourable William P. Flewelling (1814-1875), Member of the House of Assembly, Fredericton, New Brunswick, 1866-1877. (Source: John Fisher Memorial Museum, Kingston, N.B.)

Since a promising field seemed open for the construction of a Lodge building, it was resolved at the December 1858 meeting to fit up lodge rooms in the house being built by the Hon. W. P. Flewelling. A committee was appointed to solicit subscription for a Masonic hall, with a mandate to partner with the School Trustees of the District as well as other people of the village. The objective was to build a hall suitable for the masons, the school, church purposes, and public meetings. The chair named Justus S. Wetmore, Wm. P. Flewelling and J. Bentley Flewelling as that committee.

A two-storey plan was instituted, after consultations and due deliberation. The lower floor for school rooms, while the upper floor was to be open to

accommodate large gatherings. Construction began with the understanding that all parties assist in bearing the expense of the building, although the title of the hall and land connected be held by Midian Lodge. All work of building was to be controlled by the lodge. With arrangements finally settled, a building committee was appointed September 1861 consisting of Wm. P. Flewelling, David Wetmore, and Bentley Flewelling. In January 1872, the building committee rendered a report of the accounts ... total cost of the work was \$1404.55.

Meetings were generally interesting during the construction phase. The deed transfer was arranged from owner W. P. Flewelling to the organization in 1863, and later \$20.00 was voted him for the Hall lot. By the end of 1863, the hall was ready for use, and it was possible for Midian Lodge to meet in the new lodge on St. John's Day, December 27th. On completion of the Hall in August 1863, the Grand Lodge of England changed the number of Midian lodge from #770 to #527.

Efforts were made for many years to have a Grand Lodge of New Brunswick, which was finally organized on October 9th 1867, at a full convention in St. John. In June 1868, the new warrant was presented to Midian, placing the lodge #9 on the register of the Grand Lodge of New Brunswick.

Fortunes for the lodge began to fail about 1887. Shipbuilding had dwindled, and the population waned. Severe losses had befallen the lodge with the death of three of the leaders in council:

Past Master J. S. Wetmore, 1873

Past Senior Grand Warden W. P. Flewelling, 1875

Past Master David Wetmore, 1882

Members deemed it advisable to wind up the affairs of Midian Lodge while there were sufficient members in attendance to do the business. Accordingly, a resolution was moved and carried ordering the conveyance of Clifton Hall with ground attached to the Trustees of Clifton School district, with certain rights reserved to the Clifton Hall Company.

Through the records of the lodge, there is evidence of the silent helping hand extended to the brother, his widow or family, with contributions extending outside the lodge. This work of which the world generally knows little went on through good and lean years, response to brethren was cheerfully given. Refreshment was not neglected in Midian Lodge, as in the rules and bylaws of the Lodge it is specified that members shall pay one shilling each for refreshments, whenever in attendance, and eight pence regular dues per month, whether present or absent.

- Major General John Coffin – represented Kings County in the Provincial Legislature (1786–1810)
- David B. Wetmore – the same (1817–1828)
- George Ryan – the same (1851–1867), followed by election to the first Parliament at Ottawa
- Hon. W. P. Flewelling – county representative (1866–1870), member of the Executive Council with the office of the Surveyor General
- Hon. G. Hudson Flewelling – represented Kings County (1882–1886) and was a member of the Legislative Council (1886–1892).

ENDNOTES

INTRODUCTION

1. Depending on the generation, the various communities and family names may have different spellings. Reid's Point, for example, may appear as Reid's, Reids, Reed's or Reeds.
2. Clifton, Kingston Peninsula, later became known as Clifton Royal, with reference to the Royal Canadian Mail Service, as there is a second Clifton on the Acadian Peninsula, New Brunswick

THE WETMORE DIARIES

BOOK 1 : THE DIARIES OF DAVID PICKETT WETMORE

1. The diary is a hardcover, hand-sewn volume with a leather spine measuring 15½ in. x 6½ in. The pages are edged in gold, and the cover has a four-colour effect (red/blue/black on mottled brown).
2. The Temperance Union was very active in the area during the last half of the century.
3. The hall was the site of most of the social activities in the community and was built in 1863, under the direction of the Midian Masonic Lodge, in partnership with the school trustees, the Orange Lodge and the Templar's Lodge. The building was, in some form or other, a place for community gatherings in Clifton until it was torn down about 1989.
4. See Book 3, *Union Agricultural Society Minute and Account Book*.
5. See *Clifton, Church and Community*.
6. The *Edina*, a 599-ton barque, built for the Thompson Fleet. On March 8, 1885, it left Charleston, South Carolina, bound for Cardiff, Wales with a cargo of cotton, met a gale and lost her sails. The decks were swept and the cargo shifted. It put into St. Thomas, where the vessel was condemned and sold at public auction.
7. The day is broken into several parts: morning, forenoon, noon, afternoon, evening and night.
8. D. P. Wetmore is considered the inventor of the octagonal berry box.
9. D. P. Wetmore sold the plants commercially and is considered to be the one who introduced strawberry cultivation as a business in the province.
10. Clifton continues to be a fine place to grow rhubarb. If you pull it out and toss it, it will grow where it lands
11. Rebecca Araminta Wetmore, David Pickett's wife. See Book 2.
12. This is the last entry for 1872. Gardens obviously went into high gear, and the entire community was exceedingly busy. The 1,064-ton Peacemaker was launched at Moss Glen on July 8 by Wetmore, Titus & Merritt. The 846-ton barque *Willie S. Thompson*, launched at Clifton on July 25 by W. P. Flewelling for the Thompson fleet, burned at sea on October 24, 1874, and five crew members were lost. The *Julia A. Merritt*, a 181-ton two-mast brig, was launched at Moss Glen by Justus Wetmore.

13. This is the last page of the book. When the book is flipped, however, this page becomes the first and appears at the end of this section.
14. The Percy Thompson (1,228 tons), built for the Thompson fleet, floundered at sea on June 15, 1874 while on a voyage from Bull River, South Carolina, to London with a cargo of phosphate rock. The crew was saved.
15. The *Shelia*, a 967-ton barque built by Gabriel Merritt and launched at Moss Glen. Sailing from Rio de Janeiro on October 16, 1888 for ballast, it met with a hurricane lasting 36 hours. The deck was swept, and boats were lost. The missen was cut away to try to get the vessel before the wind. In an operation that lasted a full day, the crew was rescued by the U.S. ship B.P. Cheney on November 27, 1888.
16. *Director*, a 679-ton barque built by Wetter & Merritt and launched at Moss Glen. In 1887, the vessel was wrecked in Marino Bay, on Cornwallis Reef, near Borneo, in the China Sea . The crew was saved.
17. This hoe is in the permanent collection of the John Fisher Memorial Museum, Kingston, New Brunswick.
18. The *Muskota*, a 1,399-ton ship built by Gabriel Merritt, was launched at Moss Glen. It was lost in a typhoon in the Indian Ocean in June 1887.
19. On April 28, Gabriel Merritt launched the 984-ton barque *Ingleside* from Moss Glen.
20. As the regiment was set up at the barrack green to assist with the fire clean-up, it is assumed that David Pickett Wetmore was in Saint John for much of the summer of 1877.
21. On August 11, 1877, G. Hudson Flewelling launched the 720-ton barque Forest, built for the Thompson fleet. The ship was abandoned in the North Atlantic in December 1893. On Oct. 27, Gabriel Merritt launched the 46-ton schooner *Minnie Cline*, which operated as a pilot boat in St. John harbour.

BOOK 2 : THE DIARY OF REBECCA ARAMINTA WETMORE

1. Araminta does not mention either of the large vessels that were launched within sight of her windows during the month of May.
2. In May 1874, the Kate Melick, a 759-ton barque, was launched at Clifton, while the 385-ton three-mast Julia Fisher was launched at Moss Glen.

BOOK3 : UNION AGRICULTURAL SOCIETY MINUTE AND ACCOUNT BOOK

1. The word Union was used most likely in relation to the "good ship Union", on which the central core of Kingston Loyalists arrived in 1783. This was certainly the case in John London's Union House inn.
2. The Kingston Community Hall Company continues to operate a hall in this location (2003).

3. The premium list is the prize list for the exhibition.
4. The name Northrup was continually spelt Northrop by W. E. Pickett, since there was only one Northrup arrival in 1783. Perhaps this explains the different spellings in the province today!
5. This does not seem to have been followed up.
6. And was never heard of again.
7. Located on Sand Cove Road, Saint John West, later known as the Annex.
8. There are several lively social comments written between the lines throughout the book, especially when emotion comes into the script.
9. One of the agricultural magazines available at the time.
10. See Note 10.
11. This was the first sign of David Pickett's illness, and seems to leave the organization a little adrift.
12. D.P. Wetmore and his wife, Araminta, travelled to Boston to see if they could find medical treatment for his illness.
13. Still the Loyal Loyalists.
14. Macdonald Consolidated School was opened in 1904 with the assistance of William Macdonald, and under his direction. It was one of five such schools in the eastern provinces. Structured to incorporate several one-room schools, they offered the first home economics and manual training courses in rural education, as well as the first science labs. A "busing" system – a horse and wagon – was also introduced at that time.

BOOK 4: HOWARD DOUGLAS WETMORE — FARM JOURNAL AND DIARY

1. Book 4 of the Wetmore diaries measures 13 in. x 8½ in. The cover is hard card with an embossed frame effect and dark brown to burgundy in colour.
2. Full text: "Mr John Murphy, Sen You are hereby notified to attend at the end of the district Perrys Point Bridge at 8 o'clock a.m. on Monday the 2nd day of July 1883 with an axe to perform 6 days structure labour as required by law or you may in lieu thereof pay me the commutation money at the rate of fifty cents per day on or before 1st. August next after that date the money will be placed in the hands of Justice to be dealt with accordingly to law. Kingston K. Co. Samuel Lamb, Road Surveyor."

BOOK 5: THE DIARY OF GENEVIEVE WETMORE

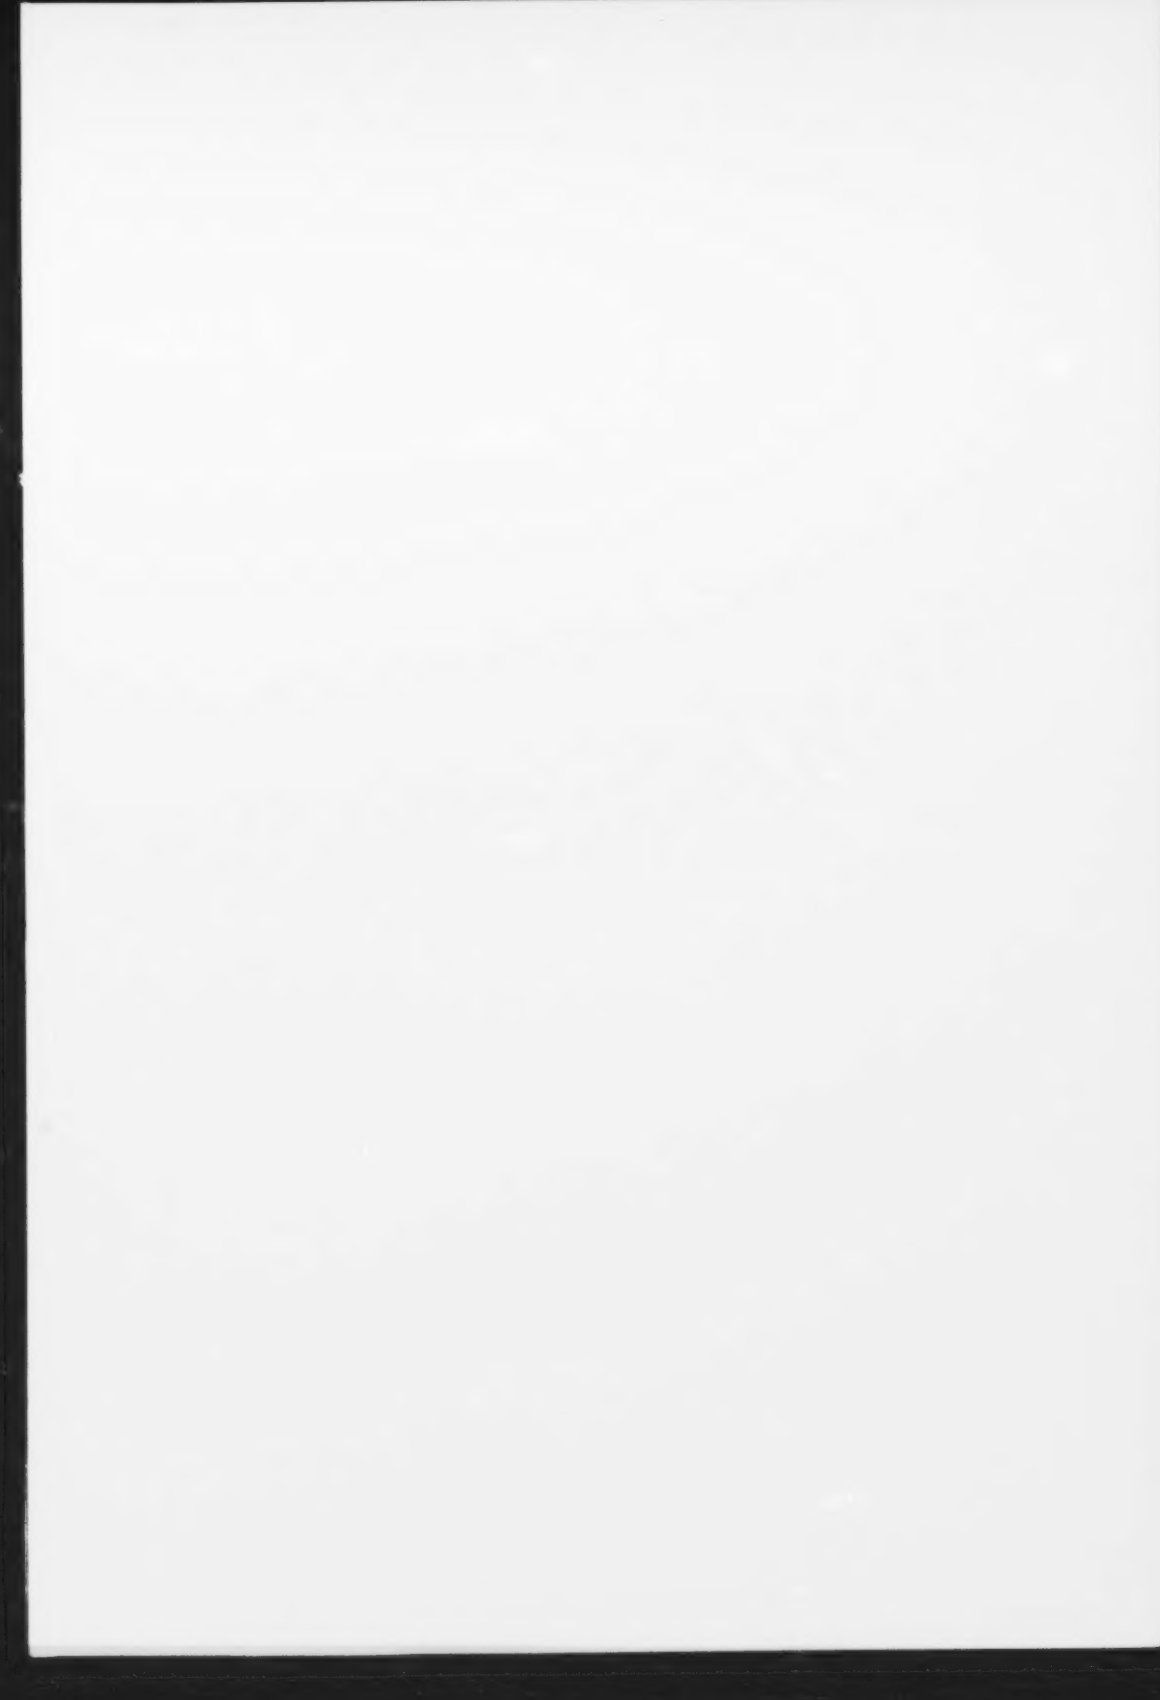

1. Jennifer Puddington
2. Genevieve's sister
3. Bridge – a causeway across the Kennebecasis River, from Perry's Point to Jubilee. It went out in the freshet of 1912.
4. Small sled
5. The *Laurissa*, a 132-ton schooner, was launched by Gabriel Merritt. While

on a voyage (cargo of coal) from New York to Saint John on January 24, 1890, the vessel was driven ashore at Ram Island, near Libby Island, but the crew was saved.

6. The *Inglewoode*, a 133-ton schooner, was launched by Gabriel Merritt at Moss Glen.
7. Prior to the invention of linoleum, oil cloth was used as a decorative floor covering
8. The Ravine Road leads from Hampton to the Midlands, in the Norton valley.
9. After the wedding, Genevieve slowly became less formal in referring to her new husband, John Frost.

CLIFTON CHURCH AND COMMUNITY

1. From an essay written by Richard W. Wetmore for the Clifton Literary Society, 1912.
2. Thomas Fairweather, named in the warrant, being unable to attend, Rulof Rulofson, a respectable halfpay officer, was installed Senior in his stead. See Return to Grand Lodge.
3. Edward Bates was the last Worshipful Master.

Clifton Royal

THE WETMORES AND VILLAGE LIFE IN NINETEENTH-CENTURY NEW BRUNSWICK

Through the Wetmore family diaries, Agricultural Society minutes, and other records, this book provides a fascinating look at farming life in nineteenth-century New Brunswick. The diaries cover the years 1870 to 1891; shop records begin in 1864 and include detailed client lists. Journal entries about plantings, community meetings, and even the militia and volunteer service, create an intimate picture of one family's fruit farms and general store. Musings about the meaning of community and personal history, as well as information on local institutions, round out this look at smalltown life when Canada was young. Lavishly illustrated with period photographs, this book is a must for anyone with an interest in Victorian New Brunswick, and a boon to anyone researching this part of the province.

ABOUT THE AUTHOR

Judith Baxter is an author and artist based in New Brunswick. A longtime community activist, she works to encourage rural economic development, while also helping to preserve the province's grassroots heritage. She volunteers with several local cultural organizations, including Kingston Peninsula Heritage Inc., the John Fisher Memorial Museum, and the historic Carter House. With Beth Quigley, she also edited *Mercury History Paper 48, Life and Times: Recollections of Eliza Cox Carter*.
